# **Safety information**

Connect the power cord directly to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**CAUTION—POTENTIAL INJURY:** Do not use this product with extension cords, multioutlet power strips, multioutlet extenders, or other types of surge or UPS devices. The power rating capacity of these types of accessories can be easily overloaded by a laser printer and may result in poor printer performance, property damage, or potential fire.

Do not place or use this product near water or wet locations.

**CAUTION—POTENTIAL INJURY:** This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

This product uses a printing process that heats the print media, and the heat may cause the media to release emissions. You must understand the section in your operating instructions that discusses the guidelines for selecting print media to avoid the possibility of harmful emissions.

**CAUTION—POTENTIAL INJURY:** The lithium battery in this product is not intended to be replaced. There is a danger of explosion if a lithium battery is incorrectly replaced. Do not recharge, disassemble, or incinerate a lithium battery. Discard used lithium batteries according to the manufacturer's instructions and local regulations.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

**CAUTION—POTENTIAL INJURY:** Before moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer does not have a caster base but is configured with optional trays, then remove the trays.
- Use the handholds located on both sides of the printer to lift it.
- Make sure your fingers are not under the printer when you set it down.
- Make sure there is adequate clearance around the printer.
- Use only the power cord provided with this product or the manufacturer's authorized replacement.

**CAUTION—POTENTIAL INJURY:** To reduce risk of fire, use only the telecommunications (RJ-11) cord provided with this product or a UL Listed 26 AWG or larger replacement when connecting this product to the public switched telephone network.

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**CAUTION—SHOCK HAZARD:** Make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.

This product produces ozone during normal operation, and is equipped with a filter designed to limit ozone concentrations to levels well below the recommended exposure limits. To avoid high ozone concentration levels during extensive usage, install this product in a well-ventilated area and replace the ozone and exhaust filters as indicated in the product maintenance instructions.

**CAUTION—POTENTIAL INJURY:** Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

Refer service or repairs, other than those described in the user documentation, to a service representative.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

**CAUTION—SHOCK HAZARD:** Do not use the fax feature during a lightning storm. Do not set up this product or make any electrical or cabling connections, such as the fax feature, power cord, or telephone, during a lightning storm.

**CAUTION—TIPPING HAZARD:** Floor-mounted configurations require additional furniture for stability. You must use either a printer stand or printer base if you are using multiple input options. If you purchased a multifunction printer (MFP) that scans, copies, and faxes, then you may need additional furniture. For more information, see <u>www.lexmark.com/multifunctionprinters</u>.

**CAUTION—POTENTIAL INJURY:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

#### SAVE THESE INSTRUCTIONS.

# Learning about the printer

## Finding information about the printer

What are you looking for?	Find it here
<ul><li>Initial setup instructions:</li><li>Connecting the printer</li><li>Installing the printer software</li></ul>	Setup documentation—The setup documentation came with the printer and is also available at <u>http://support.lexmark.com</u> .
<ul> <li>Additional setup and instructions for using the printer:</li> <li>Selecting and storing paper and specialty media</li> <li>Loading paper</li> <li>Configuring printer settings</li> <li>Viewing and printing documents and photos</li> <li>Setting up and using the printer software</li> <li>Configuring the printer on a network</li> <li>Caring for and maintaining the printer</li> <li>Troubleshooting and solving problems</li> </ul>	<i>User's Guide</i> and <i>Quick Reference Guide</i> —The guides are available on the <i>Documentation</i> CD. <b>Note:</b> These guides are also available in other languages.
Information on setting up and configuring the accessibility features of your printer.	<i>Lexmark Accessibility Guide</i> —This guide is available at <u>http://support.lexmark.com</u> .
Help using the printer software	Windows or Mac Help—Open a printer software program or application, and then click <b>Help</b> . Click to view context-sensitive information. <b>Notes:</b>
	<ul> <li>Help is automatically installed with the printer software.</li> <li>The printer software is located in the printer program folder or on the desktop, depending on your operating system.</li> </ul>

What are you looking for?	Find it here
The latest supplemental information, updates, and customer support:	Lexmark support Web site— http://support.lexmark.com
<ul><li>Documentation</li><li>Driver downloads</li></ul>	<b>Note:</b> Select your country or region, and then select your product to view the appropriate support site.
<ul><li>Live chat support</li><li>E-mail support</li><li>Voice support</li></ul>	Support telephone numbers and hours of operation for your country or region can be found on the support Web site or on the printed warranty that came with your printer.
	Record the following information (located on the store receipt and at the back of the printer), and have it ready when you contact customer support so that they may serve you faster:
	<ul> <li>Machine Type number</li> <li>Serial number</li> <li>Date purchased</li> <li>Store where purchased</li> </ul>
Warranty information	<ul> <li>Warranty information varies by country or region:</li> <li>In the U.S.—See the Statement of Limited Warranty included with this printer, or go to <u>http://support.lexmark.com</u>.</li> </ul>
	• In other countries and regions—See the printed warranty that came with this printer.

## Connecting the printer to an outlet

Connect the power cord to the printer and then to a properly grounded and easily accessible electrical outlet.

**Note:** The electrical outlet may look different depending on your country or region.

## Selecting a location for the printer

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

When selecting a location for the printer, leave enough room to open trays, covers, and doors. If you plan to install any options, then leave enough room for them also. It is important to:

- Set up the printer near a properly grounded and easily accessible electrical outlet.
- Make sure that airflow in the room meets the latest revision of the ASHRAE 62 standard or the CEN Technical Committee 156 standard.
- Provide a flat, sturdy, and stable surface.
- Keep the printer:
  - Clean, dry, and free of dust.
  - Away from stray staples and paper clips.
  - Away from the direct airflow of air conditioners, heaters, or ventilators.
  - Free from direct sunlight and humidity extremes.

• Observe the recommended temperatures and avoid fluctuations:

Ambient temperature	10 to 30°C (50 to 86°F)
Storage temperature	-10 to 40°C (14 to 104°F)

• Allow the following recommended amount of space around the printer for proper ventilation:

1	Rear	120 mm (4.80 in.)
2	Right side	400 mm (15.70 in.)
3	Front	444.5 mm (17.50 in.)
4	Left side	120 mm (4.80 in.)
5	Тор	400 mm (15.70 in.)

## **Printer configurations**

Note: Make sure to configure the printer on a flat, sturdy, and stable surface.

#### **Basic model**

1	Automatic document feeder (ADF)
2	ADF tray
3	ADF bin
4	Control panel
5	Multipurpose feeder
6	Standard 2 x 500-sheet tray
7	Standard bin

## **Configured model**

**CAUTION—TIPPING HAZARD:** Floor-mounted configurations require additional furniture for stability. You must use either a printer stand or printer base if you are using multiple input options. If you purchased a multifunction printer (MFP) that scans, copies, and faxes, then you may need additional furniture. For more information, see <u>www.lexmark.com/multifunctionprinters</u>.

	Hardware option	Alternative hardware option
1	Staple finisher	None
	Note: This is supported only in select printer models.	
2	3000-sheet tray	None
3	2 x 500-sheet tray	2500-sheet tray
4	2500-sheet tray	2 x 500-sheet tray
5	Finisher	None
	Staple, hole punch finisher	
	Booklet finisher	

When using optional trays:

- The 3000-sheet tray is supported only if another optional tray is installed.
- The staple finisher is not supported if another finisher is installed.

## Understanding the basic functions of the scanner

- Make quick copies or set the printer to perform specific copy jobs.
- Send a fax using the printer control panel.
- Send a fax to multiple fax destinations at the same time.
- Scan documents and send them to your computer, an e-mail address, a flash drive, or an FTP destination.
- Scan documents and send them to another printer (PDF through an FTP).

## Using the ADF and scanner glass

## **Understanding the printer control panel**

## Using the control panel

Use the		То
1	Display	View the printer status and messages.
		Set up and operate the printer.
2	Home button	Go to the home screen.
3	Sleep button	Enable Sleep mode or Hibernate mode.
		The following actions wake the printer from Sleep mode:
		<ul> <li>Touching the control panel home screen</li> </ul>
		Opening the scanner cover
		The following actions wake the printer from Hibernate mode:
		<ul> <li>Pressing the Sleep button until the printer wakes</li> </ul>
		<ul> <li>Performing a power-on reset using the main power switch</li> </ul>
4	Keypad	Enter numbers, letters, or symbols.
5	Start button	Start a job, depending on which mode is selected.
6	Clear all / Reset button	Reset the default settings of a function, such as copying, faxing, or scanning.
7	Stop or Cancel button	Stop all printer activity.
8	Indicator light	Check the status of the printer.

# Understanding the colors of the Sleep button and indicator lights

The colors of the Sleep button and indicator lights on the printer control panel signify a certain printer status or condition.

Indicator light	Printer status
Off	The printer is off or in Hibernate mode.
Blinking green	The printer is warming up, processing data, or printing.
Solid green	The printer is on, but idle.
Blinking red	The printer requires user intervention.
Sleep button light	Printer status
Off	The printer is off, idle or in Ready state.
Solid amber	The printer is in Sleep mode.
Blinking amber	The printer is entering or waking from Hibernate mode.
Blinking amber for 0.1 second, then goes completely off for 1.9 seconds in a slow, pulsing pattern	The printer is in Hibernate mode.

## Understanding the home screen

When the printer is turned on, the display shows a basic screen, referred to as the home screen. Touch the home screen buttons and icons to initiate an action such as copying, faxing, or scanning; to open the menu screen; or to respond to messages.

**Note:** Your home screen may vary depending on your home screen customization settings, administrative setup, and active embedded solutions.

Touch		То
1	Change Language	Launch the Change Language pop-up window that lets you change the primary language of the printer.
2	Сору	Access the Copy menus and make copies.
3	Fax	Access the Fax menus and send fax.
4	E-mail	Access the E-mail menus and send e-mails.
5	FTP	Access the File Transfer Protocol (FTP) menus and scan documents directly to an FTP server.

Touch		То
6	Arrows	Scroll up or down.
7	Forms and Favorites	Quickly find and print frequently used online forms.
8	Menu icon	Access the printer menus.
		<b>Note:</b> The menus are available only when the printer is in Ready state.
9	Bookmarks	Create, organize, and save a set of bookmarks (URL) into a tree view of folders and file links.
		<b>Note:</b> The tree view supports only bookmarks created from this function, and not from any other application.
10	USB Drive	View, select, print, scan, or e-mail photos and documents from a flash drive.
		<b>Note:</b> This icon appears only when you return to the home screen while a memory card or flash drive is connected to the printer.
11	Held Jobs	Display all current held jobs.
12	Status/Supplies	• Show a warning or error message whenever the printer requires intervention to continue processing.
		<ul> <li>Access the messages screen for more information on the message, and how to clear it.</li> </ul>
13	Tips	Open a context-sensitive Help dialog.
14	Search Held Jobs	Search for one or more of the following items:
		<ul> <li>User name for held or confidential print jobs</li> </ul>
		<ul> <li>Job names for held jobs, excluding confidential print jobs</li> </ul>
		Profile names
		<ul> <li>Bookmark container or print job names</li> </ul>
		USB container or print job names for supported file types

## Features

Feature	Description
Menu trail line Example:	A menu trail line is located at the top of each menu screen. This feature shows the path taken to arrive at the current menu.
<u>Menus</u> > <u>Settings</u> > <u>Copy Settings</u> >	Touch any of the underlined words to return to that menu.
Number of Copies	Number of Copies is not underlined because it is the current screen. If you touch an underlined word on the "Number of Copies" screen before the number of copies is set and saved, then the selection is not saved, and it does not become the default setting.
Attendance message alert	If an attendance message affects a function, then this icon appears and the red indicator light blinks.

Feature	Description
Warning	If an error condition occurs, then this icon appears.
Status message bar	<ul> <li>Show the current printer status such as <b>Ready</b> or <b>Busy</b>.</li> <li>Show printer conditions such as <b>Toner Low</b> or <b>Cartridge Low</b>.</li> <li>Show intervention messages so the printer can continue processing.</li> </ul>
Printer IP address Example: 123.123.123.123	The IP address of your network printer is located at the upper left corner of the home screen and appears as four sets of numbers separated by periods. You can use the IP address when accessing the Embedded Web Server so you can view and remotely configure printer settings even when you are not physically near the printer.

## Using the touch-screen buttons

**Note:** Your home screen, icons, and buttons may vary, depending on your home screen customization settings, administrative setup, and active embedded solutions.

	Touch	То
1	Arrows	View a list of options.
2	Copy It	Print a copy.
3	Advanced Options	Select a copy option.
4	Home	Go to the home screen.
5	Increase	Select a higher value.
6	Decrease	Select a lower value.
7	Tips	Open a context-sensitive Help dialog.

#### Other touch-screen buttons

Touch	То
Accept	Save a setting.
Cancel	Cancel an action or a selection.
×	• Exit a screen and return to the previous screen without saving changes.
Reset	Reset values on the screen.
C	

# Setting up and using the home screen applications

#### Notes:

- Your home screen may vary depending on your home screen customization settings, administrative setup, and active embedded applications.
- There may be additional solutions and applications available for purchase. For more information, go to <u>www.lexmark.com</u> or contact the place where you purchased the printer.
- The shortcuts that you created using MyShortcut can only be edited or deleted using the application. For more information, see <u>"Using MyShortcut" on page 24</u>.

## Finding the IP address of the printer

Note: Make sure your printer is connected to a network or to a print server.

You can find the printer IP address:

- From the top left corner of the printer home screen.
- From the TCP/IP section in the Network/Ports menu.
- By printing a network setup page or menu settings page, and then finding the TCP/IP section.

Note: An IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

## Finding the IP address of the computer

#### For Windows users

- **1** Run the command prompt.
- 2 Type **ipconfig**, and then look for the IP address.

#### For Macintosh users

- 1 From System Preferences in the Apple menu, select **Network**.
- 2 Select your connection type, and then click Advanced > TCP/IP.
- **3** Look for the IP address.

## Accessing the Embedded Web Server

The Embedded Web Server is the printer Web page that lets you view and remotely configure printer settings even when you are not physically near the printer.

- **1** Obtain the printer IP address:
  - From the printer control panel home screen
  - From the TCP/IP section in the Network/Ports menu

- By printing a network setup page or menu settings page, and then finding the TCP/IP section
- Note: An IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- **2** Open a Web browser, and then type the printer IP address in the address field.
- 3 Press Enter.

Note: If you are using a proxy server, then temporarily disable it to load the Web page correctly.

## Customizing the home screen

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- **2** Do one or more of the following:
  - Show or hide the icons of basic printer functions.
    - a Click Settings > General Settings > Home screen customization.
    - **b** Select the check boxes to specify which icons appear on the home screen.

**Note:** If you clear a check box beside an icon, then the icon does not appear on the home screen.

- c Click Submit.
- Customize the icon for an application. For more information, see <u>"Finding information about the home screen applications" on page 22</u> or see the documentation that came with the application.

## Understanding the different applications

Use	То
Card Copy	Scan and print both sides of a card on a single page. For more information, see <u>"Setting up</u> <u>Card Copy" on page 23</u> .
Fax	Scan a document, and then send it to a fax number. For more information, see <u>"Faxing" on page 89</u> .
Forms and Favorites	Quickly find and print frequently used online forms directly from the printer home screen. For more information, see <u>"Setting up Forms and Favorites" on page 22</u> .
Multi Send	Scan a document, and then send it to multiple destinations. For more information, see <u>"Setting</u> <u>up Multi Send" on page 24</u> .
MyShortcut	Create shortcuts directly on the printer home screen. For more information, see <u>"Using MyShortcut" on page 24</u> .
Scan to E-mail	Scan a document, and then send it to an e-mail address. For more information, see <u>"E-mailing"</u> on page 84.
Scan to Computer	Scan a document, and then save it to a predefined folder on a host computer. For more information, see <u>"Setting up Scan to Computer" on page 113</u> .
Scan to FTP	Scan documents directly to a File Transfer Protocol (FTP) server. For more information, see <u>"Scanning to an FTP address" on page 112</u> .

Use	То
Scan to Network	Scan a document, and then send it to a network shared folder. For more information, see <u>"Setting up Scan to Network" on page 25</u> .

## Activating the home screen applications

#### Finding information about the home screen applications

Your printer comes with preinstalled home screen applications. Before you can use these applications, you must first activate and set up these applications using the Embedded Web Server. For more information on accessing the Embedded Web Server, see <u>"Accessing the Embedded Web Server" on page 20</u>.

For more information on configuring and using the home screen applications, do the following:

- 1 Go to http://support.lexmark.com.
- 2 Click Software Solutions, and then select either of the following:
  - Scan to Network—This lets you find information about the Scan to Network application.
  - Other Applications—This lets you find information about the other applications.
- **3** Click the **Manuals** tab, and then select the document for the home screen application.

#### **Setting up Forms and Favorites**

**Note:** A later version of this *User's Guide* may contain a direct link to the *Administrator's Guide* of this application. To check for updates of this *User's Guide*, go to <u>http://support.lexmark.com</u>.

Use	То
	Streamline work processes by letting you quickly find and print frequently used online forms directly from the printer home screen.
	<b>Note:</b> The printer must have permission to access the network folder, FTP site, or Web site where the bookmark is stored. From the computer where the bookmark is stored, use sharing, security, and firewall settings to allow the printer at least a <i>read</i> access. For help, see the documentation that came with your operating system.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- 2 Click Settings > Apps > Apps Management > Forms and Favorites.
- **3** Click **Add**, and then customize the settings.

Notes:

- See the mouse-over help beside each field for a description of the setting.
- To make sure the location settings of the bookmark are correct, type the correct IP address of the host computer where the bookmark is located. For more information on obtaining the IP address of the host computer, see <u>"Finding the IP address of the computer" on page 20</u>.

• Make sure the printer has access rights to the folder where the bookmark is located.

#### 4 Click Apply.

To use the application, touch **Forms and Favorites** on the printer home screen, and then navigate through form categories, or search for forms based on a form number, name, or description.

## Setting up Card Copy

**Note:** A later version of this *User's Guide* may contain a direct link to the *Administrator's Guide* of this application. To check for updates of this *User's Guide*, go to <u>http://support.lexmark.com</u>.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- 2 Click Settings > Apps > Apps Management > Card Copy.
- **3** Change the default scanning options, if necessary.
  - Default tray—Select the default tray to be used for printing scan images.
  - **Default number of copies**—Specify the number of copies that should automatically print when the application is used.
  - Default contrast setting—Specify a setting to increase or decrease the level of contrast when a copy
    of the scanned card is printed. Select Best for Content if you want the printer to adjust the contrast
    automatically.
  - **Default scale setting**—Set the size of the scanned card when printed. The default setting is 100% (full size).
  - **Resolution setting**—Adjust the quality of the scanned card.

Notes:

- When scanning a card, make sure the scan resolution is not more than 200 dpi for color, and 400 dpi for black and white.
- When scanning multiple cards, make sure the scan resolution is not more than 150 dpi for color, and 300 dpi for black and white.
- Print Borders—Select the check box to print the scan image with a border around it.
- 4 Click Apply.

To use the application, touch **Card Copy** on the printer home screen, and then follow the instructions.

## Using MyShortcut

**Note:** A later version of this *User's Guide* may contain a direct link to the *Administrator's Guide* of this application. To check for updates of this *User's Guide*, go to <u>http://support.lexmark.com</u>.

Use	То
	Create shortcuts on the printer home screen, with settings for up to 25 frequently used copy, fax, or e-mail jobs.

To use the application, touch MyShortcut, and then follow the instructions on the printer display.

## Setting up Multi Send

**Note:** A later version of this *User's Guide* may contain a direct link to the *Administrator's Guide* of this application. To check for updates of this *User's Guide*, go to <u>http://support.lexmark.com</u>.

Use	То
	Scan a document, and then send the scanned document to multiple destinations. <b>Note:</b> Make sure there is enough space in the printer hard disk.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The printer IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

#### 2 Click Settings > Apps > Apps Management > Multi Send.

**3** From the Profiles section, click **Add**, and then customize the settings.

#### Notes:

- See the mouse-over help beside each field for a description of the setting.
- If you select FTP or Share Folder as a destination, then make sure the location settings of the destination are correct. Type the correct IP address of the host computer where the specified destination is located. For more information on obtaining the IP address of the host computer, see <u>"Finding the IP address of the computer" on page 20</u>.

#### 4 Click Apply.

To use the application, touch **Multi Send** on the printer home screen, and then follow the instructions on the printer display.

## Setting up Scan to Network

**Note:** A later version of this *User's Guide* may contain a direct link to the *Administrator's Guide* of this application. To check for updates of this *User's Guide*, go to <u>http://support.lexmark.com</u>.

Use	То
	Scan a document and send it to a shared network folder. You can define up to 30 unique folder destinations.
	Notes:
	• The printer must have permission to write to the destinations. From the computer where the destination is specified, use sharing, security, and firewall settings to allow the printer at least a <i>write</i> access. For help, see the documentation that came with your operating system.
	• The Scan to Network icon appears only when one or more destinations are defined.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- **2** Do either of the following:
  - Click Set up Scan to Network > Click here.
  - Click Settings > Apps > Apps Management > Scan to Network.
- **3** Specify the destinations, and then customize the settings.

Notes:

- See the mouse-over help beside some of the fields for a description of the setting.
- To make sure the location settings of the destination are correct, type the correct IP address of the host computer where the specified destination is located. For more information on obtaining the IP address of the host computer, see <u>"Finding the IP address of the computer" on page 20</u>.
- Make sure the printer has access rights to the folder where the specified destination is located.
- 4 Click Apply.

To use the application, touch **Scan to Network** on the printer home screen, and then follow the instructions on the printer display.

## **Setting up Remote Operator Panel**

This application enables you to interact with the printer control panel even when you are not physically near the network printer. From your computer, you can view the printer status, release held print jobs, create bookmarks, and do other print-related tasks.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- 2 Click Settings > Remote Operator Panel Settings.
- **3** Select the **Enable** check box, and then customize the settings.
- 4 Click Submit.

To use the application, click Remote Operator Panel > Launch VNC Applet.

## **Exporting and importing a configuration**

You can export configuration settings into a text file, and then import the file to apply the settings to other printers.

**1** Open a Web browser, and then type the printer IP address in the address field.

**Note:** View the IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.

**2** Export or import a configuration file for one or multiple applications.

#### For one application

**a** Navigate to:

```
Settings > Apps > Apps Management > select an application > Configure
```

**b** Export or import the configuration file.

#### Notes:

- If a **JVM Out of Memory** error occurs, then repeat the export process until the configuration file is saved.
- If a timeout occurs and a blank screen appears, then refresh the Web browser, and then click **Apply**.

#### For multiple applications

- a Click Settings > Import/Export.
- **b** Export or import a configuration file.

Note: When importing a configuration file, click Submit to complete the process.

# **Additional printer setup**

## Installing internal options

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

## Available internal options

- Memory card
  - DDR2 DIMM
  - Flash memory
    - Fonts
    - Firmware cards
      - Forms and Bar Code
      - PRESCRIBE
      - IPDS
- Lexmark<sup>TM</sup> Internal Solutions Ports (ISP)
  - Standard 10/100/1000 Ethernet
  - MarkNet<sup>™</sup> N8350 802.11 b/g/n wireless print server
  - MarkNet N8352 802.11 b/g/n wireless print server

#### Accessing the controller board

Note: Use the screwdriver located inside the bottom front door of the printer.

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**1** Remove the connector cover.

**2** Remove the screws from the controller board access cover.

**3** Remove the access cover.

**4** Use the following illustration to locate the appropriate connector:

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board electronic components or connectors.

1	Option card connector
2	Memory card connector
3	Lexmark Internal Solutions Port or printer hard disk connector

**5** Align the base of the access cover to the printer.

**6** Reattach the access cover.

- 7 Tighten the screws on the access cover.
- 8 Reattach the connector cover.

#### Installing a memory card

- **CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.
- **1** Access the controller board.

For more information, see <u>"Accessing the controller board" on page 27</u>.

**2** Unpack the memory card.

**Warning—Potential Damage:** Do not touch the connection points along the edge of the card. Doing so may cause damage.

**3** Align the notch (1) on the memory card with the ridge (2) on the connector.

**4** Push the memory card straight into the connector, and then push the card toward the controller board wall until it *clicks* into place.

#### Installing an optional card

CAUTION—SHOCK HAZARD: If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board electronic components or connectors.

**1** Access the controller board.

For more information, see "Accessing the controller board" on page 27.

**2** Unpack the optional card.

**Warning—Potential Damage:** Avoid touching the connection points along the edge of the card. Doing so may cause damage.

**3** Holding the card by its sides, align the plastic pins (1) on the card with the holes (2) on the controller board.

**4** Push the card firmly into place.

**Warning—Potential Damage:** Improper installation of the card may cause damage to the card and the controller board.

Note: The entire length of the connector on the card must touch and be flush with the controller board.

#### **Installing an Internal Solutions Port**

The controller board supports one optional Lexmark Internal Solutions Port (ISP). Install an ISP for additional connectivity options.

Note: Use the screwdriver located inside the bottom front door of the printer.

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board electronic components or connectors.

1 Unpack the ISP kit.

- 2 Access the controller board. For more information, see <u>"Accessing the controller board" on page 27</u>.
- **3** Remove the printer hard disk.

Note: The hard disk must be removed before installing an ISP.

**a** Unplug the hard disk interface cable from the controller board.

**b** Remove the screws that secure the hard disk.

c Remove the hard disk.

- 4 Install the ISP in the same location where the hard disk was located on the controller board.
  - **a** Align the posts of the plastic mounting bracket with the holes on the controller board cage, and then press the bracket on the cage until it *clicks* into place.

**b** Install the ISP on the bracket.

c Use the provided thumbscrew for the ISP to attach the ISP to the bracket.

**5** Secure the ISP mounting bracket to the controller board cage using the screws.

6 Remove the thumbscrews that attach the hard disk mounting bracket to the hard disk, and then remove the bracket.

7 Align the standoffs of the hard disk with the holes on the ISP, and then press the hard disk down until the standoffs *click* into place.

**8** Insert the plug of the hard disk interface cable into the connector on the ISP, and then connect the ISP solution interface cable into the receptacle of the controller board.

## Removing a printer hard disk

Note: Use the screwdriver located inside the bottom front door of the printer.

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board electronic components or connectors.

**1** Access the controller board.

For more information, see <u>"Accessing the controller board" on page 27</u>.

2 Unplug the hard disk interface cable from the controller board, leaving the cable attached to the hard disk. To unplug the cable, squeeze the paddle at the plug of the interface cable to disengage the latch before pulling out the cable.

**3** Remove the screws holding the hard disk in place.

4 Remove the hard disk.

## Installing hardware options

## **Order of installation**

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

**CAUTION—TIPPING HAZARD:** Floor-mounted configurations require additional furniture for stability. You must use either a printer stand or printer base if you are using multiple input options. If you purchased a multifunction printer (MFP) that scans, copies, and faxes, then you may need additional furniture. For more information, see <u>www.lexmark.com/multifunctionprinters</u>.

CAUTION—SHOCK HAZARD: If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

Install the printer and any options you have purchased in the following order:

- Optional 2 x 500- or 2500-sheet tray
- Printer
- Staple finisher

Note: This option is supported only in select printer models.

- Staple, hole punch finisher or booklet finisher
- Optional 3000-sheet tray

**Note:** The staple finisher is not supported if another finisher is installed. For more information on installing the finishers and optional trays, see the instruction sheet that came with the option.

### Installing optional trays

#### Notes:

- For information on installing the optional 3000-sheet tray, see the instruction sheet that came with the option.
- Use the screwdriver located inside the bottom front door of the printer.

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

**CAUTION—SHOCK HAZARD:** If you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**CAUTION—TIPPING HAZARD:** Floor-mounted configurations require additional furniture for stability. You must use either a printer stand or printer base if you are using multiple input options. If you purchased a multifunction printer (MFP) that scans, copies, and faxes, then you may need additional furniture. For more information, see <u>www.lexmark.com/multifunctionprinters</u>.

The optional trays come with the following accessories:

Accessory name	Quantity
Screw	5

**1** Turn off the printer.

- **2** Unplug the power cord from the electrical outlet and then from the printer.
- **3** Unpack the optional tray, and then remove all packing material.

**4** Attach the stabilizing feet to the optional tray.

**Note:** Make sure the feet *click* into place.

**5** Remove the connector cover from the printer.

**6** Lift the printer using the handles at the sides.

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

7 Align the printer with the tray, and then lower the printer into place.

**8** Remove the tape from the connectors, and then plug the connectors into the receptacles of the printer.

**9** Open Tray 2 and Tray 3.

- **10** Secure the tray to the printer using the locking clips and the metal bracket.
  - Back

• Front

**11** Reinstall the connector cover.

**12** Connect the power cord to the printer and electrical outlet.

- **13** Turn on the printer.
- **14** Set the printer software to recognize the optional tray. For more information, see <u>"Adding available options</u> in the print driver" on page 45.

## **Attaching cables**

**CAUTION—POTENTIAL INJURY:** Do not use the fax feature during a lightning storm. Do not set up this product or make any electrical or cabling connections, such as the fax feature, power cord, or telephone, during a lightning storm.

Connect the printer to the computer using a USB cable, or to the network using an Ethernet cable.

Make sure to match the following:

- The USB symbol on the cable with the USB symbol on the printer
- The appropriate Ethernet cable to the Ethernet port

	Use the	То
1	EXT port	Connect additional devices (telephone or answering machine) to the printer and the telephone line. Use this port if you do not have a dedicated fax line for the printer and if this connection method is supported in your country or region. Note: Remove the plug to access the port.
2	LINE port	Connect the printer to an active telephone line through a standard wall jack (RJ-11), DSL filter, or VoIP adapter, or any other adapter that allows you to access the telephone line to send and receive faxes.

	Use the	То
3	Printer power cord socket	Connect the printer to a properly grounded electrical outlet.
4	Internal Solutions Port (ISP) or printer hard disk slot	Attach an ISP or a printer hard disk.
	<b>Note:</b> If the printer has support for wireless connection, then the wireless antenna is attached here.	
5	Ethernet port	Connect the printer to a network.
6	USB ports	Attach a keyboard.
7	USB printer port	Connect the printer to a computer.

**Warning—Potential Damage:** Do not touch the USB cable, any wireless network adapter, or the printer in the area shown while actively printing. Loss of data or a malfunction can occur.

## Setting up the printer software

### Installing the printer

- **1** Obtain a copy of the software installer package.
- **2** Run the installer, and then follow the instructions on the computer screen.
- **3** For Macintosh users, add the printer.

Note: Obtain the printer IP address from the TCP/IP section in the Network/Ports menu.

## Adding available options in the print driver

#### For Windows users

- **1** Open the printers folder.
- 2 Select the printer you want to update, and then do the following:
  - For Windows 7 or later, select Printer properties.
  - For earlier versions, select **Properties**.
- 3 Navigate to the Configuration tab, and then select Update Now Ask Printer.
- 4 Apply the changes.

#### For Macintosh users

- 1 From System Preferences in the Apple menu, navigate to your printer, and then select **Options & Supplies**.
- 2 Navigate to the list of hardware options, and then add any installed options.
- **3** Apply the changes.

## Networking

#### Notes:

- Purchase a MarkNet N8350 wireless network adapter before setting up the printer on a wireless network. For information on installing the wireless network adapter, see the setup sheet that came with the adapter.
- A Service Set Identifier (SSID) is a name assigned to a wireless network. Wired Equivalent Privacy (WEP), Wi-Fi Protected Access (WPA), and WPA2 are types of security used on a network.

### Preparing to set up the printer on an Ethernet network

To configure your printer to connect to an Ethernet network, organize the following information before you begin:

**Note:** If your network automatically assigns IP addresses to computers and printers, continue on to installing the printer.

- A valid, unique IP address for the printer to use on the network
- The network gateway
- The network mask
- A nickname for the printer (optional)

**Note:** A printer nickname can make it easier for you to identify your printer on the network. You can choose to use the default printer nickname, or assign a name that is easier for you to remember.

You will need an Ethernet cable to connect the printer to the network and an available port where the printer can physically connect to the network. Use a new network cable when possible to avoid potential problems caused by a damaged cable.

## Preparing to set up the printer on a wireless network

#### Notes:

- Make sure your wireless network adapter is installed in your printer and working properly. For more information, see the instruction sheet that came with the wireless network adapter.
- Make sure your access point (wireless router) is turned on and is working properly.

Make sure you have the following information before setting up the printer on a wireless network:

- **SSID**—The SSID is also referred to as the network name.
- Wireless Mode (or Network Mode)—The mode is either infrastructure or ad hoc.
- Channel (for ad hoc networks)—The channel defaults to automatic for infrastructure networks.

Some ad hoc networks will also require the automatic setting. Check with your system support person if you are not sure which channel to select.

- Security Method—There are four basic options for Security Method:
  - WEP key

If your network uses more than one WEP key, then enter up to four in the provided spaces. Select the key currently in use on the network by selecting the default WEP transmit key.

- WPA or WPA2 preshared key or passphrase

WPA includes encryption as an additional layer of security. The choices are AES or TKIP. Encryption must be set for the same type on the router and on the printer, or the printer will not be able to communicate on the network.

- 802.1X-RADIUS

If you are installing the printer on an 802.1X network, then you may need the following:

- Authentication type
- Inner authentication type
- 802.1X user name and password
- Certificates
- No security

If your wireless network does not use any type of security, then you will not have any security information.

**Note:** We do not recommend using an unsecured wireless network.

#### Notes:

- If you do not know the SSID of the network that your computer is connected to, then launch the wireless
  utility of the computer network adapter, and then look for the network name. If you cannot find the SSID
  or the security information for your network, then see the documentation that came with the access
  point, or contact your system support person.
- To find the WPA/WPA2 preshared key or passphrase for the wireless network, see the documentation that came with the access point, see the Embedded Web Server associated with the access point, or consult your system support person.

## Connecting the printer using the Wireless Setup Wizard

Before you begin, make sure that:

- A wireless network adapter is installed in the printer and is working properly. For more information, see the instruction sheet that came with the wireless network adapter.
- An Ethernet cable is disconnected from the printer.
- Active NIC is set to Auto. To set this to Auto, navigate to:

#### > Network/Ports > Active NIC > Auto > Submit

Note: Make sure to turn off the printer, then wait for at least five seconds, and then turn the printer back on.

**1** From the printer control panel, navigate to:

## > Network/Ports > Network [x] > Network [x] Setup > Wireless > Wireless Connection Setup

**2** Select a wireless connection setup.

Use	То
Search for networks	Show available wireless connections.
	<b>Note:</b> This menu item shows all broadcast secured or unsecured SSIDs.
Enter a network name	Manually type the SSID.
	Note: Make sure to type the correct SSID.
Wi-Fi Protected Setup	Connect the printer to a wireless network using Wi-Fi Protected Setup.

**3** Follow the instructions on the printer display.

## Connecting the printer to a wireless network using Wi-Fi Protected Setup

Before you begin, make sure that:

- The access point (wireless router) is Wi-Fi Protected Setup (WPS) certified or WPS-compatible. For more information, see the documentation that came with your access point.
- A wireless network adapter installed in your printer is attached and working properly. For more information, see the instruction sheet that came with the wireless network adapter.

#### Using the Push Button Configuration method

**1** From the printer control panel, navigate to:

**2** Follow the instructions on the printer display.

#### Using the Personal Identification Number (PIN) method

**1** From the printer control panel, navigate to:

# > Network/Ports > Network [x] > Network [x] Setup > Wireless > Wireless Connection Setup > Wi-Fi Protected Setup > Start PIN Method

- 2 Copy the eight-digit WPS PIN.
- **3** Open a Web browser, and then type the IP address of your access point in the address field.

Notes:

- The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- **4** Access the WPS settings. For more information, see the documentation that came with your access point.
- **5** Enter the eight-digit PIN, and then save the setting.

## Connecting the printer to a wireless network using the Embedded Web Server

Before you begin, make sure that:

- Your printer is connected temporarily to an Ethernet network.
- A wireless network adapter is installed in your printer and working properly. For more information, see the instruction sheet that came with the wireless network adapter.
- **1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer control panel. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Network/Ports > Wireless.
- **3** Modify the settings to match the settings of your access point (wireless router).

**Note:** Make sure to enter the correct SSID, security method, preshared key or passphrase, network mode, and channel.

- 4 Click Submit.
- **5** Turn off the printer, and then disconnect the Ethernet cable. Then wait for at least five seconds, and then turn the printer back on.
- **6** To verify if your printer is connected to the network, print a network setup page. Then in the Network Card [x] section, see if the status is Connected.

## Changing port settings after installing an internal solutions port

#### Notes:

- If the printer has a static IP address, then do not change the configuration.
- If the computers are configured to use the network name instead of an IP address, then do not change the configuration.
- If you are adding a wireless internal solutions port (ISP) to a printer previously configured for an Ethernet connection, then disconnect the printer from the Ethernet network.

#### For Windows users

- **1** Open the printers folder.
- 2 From the shortcut menu of the printer with the new ISP, open the printer properties.
- **3** Configure the port from the list.
- 4 Update the IP address.
- **5** Apply the changes.

#### For Macintosh users

- 1 From System Preferences in the Apple menu, navigate to the list of printers, and then select + > IP.
- **2** Type the IP address in the address field.
- **3** Apply the changes.

## Setting up serial printing (Windows only)

- **1** Set the parameters in the printer.
  - **a** From the control panel, navigate to the menu for the port settings.
  - **b** Locate the menu for the serial port settings, and then adjust the settings, if necessary.
  - **c** Apply the changes.
- 2 From your computer, open the printers folder, and then select your printer.
- **3** Open the printer properties, and then select the COM port from the list.
- 4 Set the COM port parameters in Device Manager.

#### Notes:

- Serial printing reduces printing speed.
- Make sure that the serial cable is connected to the serial port on your printer.

## Verifying printer setup

### Printing a menu settings page

From the home screen, navigate to:

### Printing a network setup page

If the printer is attached to a network, then print a network setup page to verify the network connection. This page also provides important information that aids network printing configuration.

**1** From the home screen, navigate to:

#### > Reports > Network Setup Page

2 Check the first section of the network setup page, and confirm that the status is **Connected**.

If the status is **Not Connected**, then the LAN drop may not be active, or the network cable may be malfunctioning. Consult a system support person for a solution, and then print another network setup page.

# Loading paper and specialty media

The selection and handling of paper and specialty media can affect how reliably documents print. For more information, see <u>"Avoiding jams" on page 241</u> and <u>"Storing paper" on page 63</u>.

## Setting the paper size and type

From the home screen navigate to:

> Paper Menu > Paper Size/Type > select a tray > select the paper size or type > Submit

## **Configuring Universal paper settings**

The Universal paper size setting is a user-defined setting that lets you print on paper sizes that are not preset in the printer menus.

**1** From the home screen, navigate to:

- 2 Select a unit of measure, and then set the portrait width and height.
- **3** Apply the changes.

## **Loading trays**

**CAUTION—POTENTIAL INJURY:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

**1** Pull out the tray.

**Note:** Do not remove trays while a job prints or while **Busy** appears on the printer display. Doing so may cause a jam.

**2** Squeeze and slide the paper guides to the correct position for the size of the paper you are loading.

Note: Use the indicators on the bottom of the tray to position the guides.

**3** Flex the sheets back and forth to loosen them, and then fan them. Do not fold or crease the paper. Straighten the edges on a level surface.

**4** Load the paper stack with the printable side faceup.

#### Notes:

- Load printable side facedown for duplex printing.
- Load pre-punched paper with the holes toward the front or the left side of the tray.
- Load letterhead with the header on the left side of the tray.
- Make sure that the paper is below the maximum fill line on the edge of the paper tray. Overfilling may cause paper jams.

- **5** Insert the tray.
- **6** From the control panel, set the paper size and paper type in the Paper menu to match the paper loaded in the tray.

## Loading the multipurpose feeder

**1** Open the multipurpose feeder.

**2** Adjust the guide to match the size of the paper you are loading.

**3** Flex the sheets of paper back and forth to loosen them, and then fan them. Do not fold or crease the paper. Straighten the edges on a level surface.

- 4 Load the paper.
  - Load only one size and type of paper.

#### Loading letterhead

Without an optional finisher	With an optional finisher
One-sided printing	One-sided printing
Note: For long-edge orientation, load letterhead	Note: For long-edge orientation, load letterhead
facedown with the header on the left side of the feeder.	facedown with the header on the right side of the feeder.

#### Loading prepunched paper

• Load envelopes with the flap side up.

**Warning—Potential Damage:** Never use envelopes with stamps, clasps, snaps, windows, coated linings, or self-stick adhesives. These envelopes may severely damage the printer.

• Make sure that the paper is below the maximum fill line. Overfilling may cause paper jams.

**5** From the control panel, set the paper size and paper type in the Paper menu to match the paper loaded in the feeder.

## Linking and unlinking trays

## Linking and unlinking trays

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Paper Menu.
- **3** Change the paper size and type settings for the trays you are linking.
  - To link trays, make sure the paper size and type for the tray match that of the other tray.
  - To unlink trays, make sure the paper size or type for the tray does not match that of the other tray.
- 4 Click Submit.

**Note:** You can also change the paper size and type settings using the printer control panel. For more information, see <u>"Setting the paper size and type" on page 51</u>.

**Warning—Potential Damage:** Paper loaded in the tray should match the paper type name assigned in the printer. The temperature of the fuser varies according to the specified paper type. Printing issues may occur if settings are not properly configured.

## Creating a custom name for a paper type

**1** From the home screen, navigate to:

### > Paper Menu > Custom Names

- **2** Type a custom paper type name, and then apply the changes.
- **3** Touch **Custom Types**, and then verify if the new custom paper type name has replaced the custom name.

### Assigning a custom paper type

#### Using the Embedded Web Server

Assign a custom paper type name to a tray when linking or unlinking trays.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Paper Menu > Custom Types.
- **3** Select a custom paper type name, and then select a paper type.

Note: Paper is the factory default paper type for all user-defined custom names.

4 Click Submit.

#### Using the printer control panel

**1** From the home screen, navigate to:

2 Select a custom paper type name, and then select a paper type.

Note: Paper is the factory default paper type for all user-defined custom names.

3 Touch Submit.

# Paper and specialty media guide

#### Notes:

- Make sure that the paper size, type, and weight are set correctly on the computer or control panel.
- Flex, fan, and straighten specialty media before loading them.
- The printer may print at a reduced speed to prevent damage to the fuser.
- For more information on card stock and labels, see the Card Stock & Label Guide on the Lexmark support Web site at <u>http://support.lexmark.com</u>.

## Using specialty media

## Tips on using card stock

Card stock is heavy, single-ply specialty media. Many of its variable characteristics, such as moisture content, thickness, and texture, can significantly affect print quality.

- From the printer control panel, set the paper size, type, texture, and weight in the Paper menu to match the card stock loaded in the tray.
- Print samples on the card stock being considered for use before buying large quantities.
- Specify the paper texture and weight from the tray settings to match the paper loaded in the tray.
- Preprinting, perforation, and creasing may significantly affect the print quality and cause jams or other paper feed problems.
- Before loading the card stock on the tray, flex and fan the card stock to loosen them. Straighten the edges on a level surface.

### Tips on using envelopes

- From the printer control panel, set the paper size, type, texture, and weight in the Paper menu to match the envelopes loaded in the tray.
- Print samples on the envelopes being considered for use before buying large quantities.
- Use envelopes designed specifically for laser printers.
- For best performance, use envelopes made from 90-g/m<sup>2</sup> (24-lb) paper or 25% cotton.
- Use only new envelopes from undamaged packages.
- To optimize performance and minimize jams, do not use envelopes that:
  - Have excessive curl or twist.
  - Are stuck together or damaged in any way.
  - Have windows, holes, perforations, cutouts, or embossing.
  - Have metal clasps, string ties, or folding bars.
  - Have an interlocking design.
  - Have postage stamps attached.
  - Have any exposed adhesive when the flap is in the sealed or closed position.

- Have bent corners.
- Have rough, cockle, or laid finishes.
- Adjust the width guides to fit the width of the envelopes.
- Before loading the envelopes on the tray, flex the stack of envelopes back and forth to loosen them, and then fan them. Straighten the edges on a level surface.

**Note:** A combination of high humidity (over 60%) and high printing temperature may wrinkle or seal envelopes.

## Tips on using labels

- From the printer control panel, set the paper size, type, texture, and weight in the Paper menu to match the labels loaded in the tray.
- Print samples on labels being considered for use before buying large quantities.
- For more information on label printing, characteristics, and design, see the *Card Stock & Label Guide* on the Lexmark Web site at <u>http://support.lexmark.com</u>.
- Use labels designed specifically for laser printers.
- Do not use labels with slick backing material.
- Do not use labels with exposed adhesive.
- Use full label sheets. Partial sheets may cause labels to peel off during printing, resulting in a jam. Partial sheets also contaminate the printer and the cartridge with adhesive, and could void the printer and toner cartridge warranties.
- Before loading labels on the tray, flex and fan labels to loosen them. Straighten the edges on a level surface.

## Tips on using letterhead

- Use letterhead specifically for laser printers.
- Print samples before buying large quantities.
- Before loading letterhead, flex and fan the sheets.
- When printing on letterhead, take note of the page orientation.

Source	Printing	Side with the letterhead	Paper orientation
Trays	One-sided	Faceup	Load the sheet with the top edge toward the back of the tray.
	Two-sided	Facedown	Load the sheet with the top edge toward the front of the tray.
Multipurpose feeder	One-sided	Facedown	Load the sheet with the top edge on the left side.
	Two-sided	Faceup	Load the sheet with the top edge on the right side.

### Tips on using transparencies

- From the printer control panel, set the paper size, type, texture, and weight in the Paper menu to match the transparencies loaded in the tray.
- Print a test page on the transparencies being considered for use before buying large quantities.
- Use transparencies designed specifically for laser printers.
- Avoid getting fingerprints on the transparencies to prevent print quality problems.
- Before loading transparencies, flex and fan the sheets to prevent them from sticking together.
- When printing on large volumes of transparencies, make sure to print by batches of only up to 20 with an interval of at least three minutes between batches, to prevent the transparencies from sticking together in the bin. You can also remove transparencies from the bin by batches of 20.

## **Paper guidelines**

### **Paper characteristics**

The following paper characteristics affect print quality and reliability. Consider these factors before printing on them:

#### Weight

The printer trays can feed paper weights between  $60-256 \text{ g/m}^2$  (16–68-lb) grain long paper. The multipurpose feeder can feed paper weights between  $60-256 \text{ g/m}^2$  (16–68-lb) grain long paper. Paper lighter than  $60 \text{ g/m}^2$  (16 lb) might not be stiff enough to feed properly, and may cause jams.

**Note:** Two-sided printing is supported for  $60-169 \text{ g/m}^2$  (16-45-lb) paper.

#### Curl

Curl is the tendency for paper to curl at its edges. Excessive curl can cause paper feeding problems. Curl can occur after the paper passes through the printer, where it is exposed to high temperatures. Storing paper unwrapped in hot, humid, cold, or dry conditions, even in the trays, can contribute to paper curling prior to printing and can cause feeding problems.

#### Smoothness

Paper smoothness directly affects print quality. If paper is too rough, toner cannot fuse to it properly. If paper is too smooth, it can cause paper feeding or print quality issues. Always use paper between 100 and 200 Sheffield points.

#### **Moisture content**

The amount of moisture in paper affects both print quality and the ability of the printer to feed the paper correctly. Leave paper in its original wrapper until it is time to use it. This limits the exposure of paper to moisture changes that can degrade its performance.

Store paper in its original wrapper in the same environment as the printer for 24 to 48 hours before printing. Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.

#### **Grain direction**

Grain refers to the alignment of the paper fibers in a sheet of paper. Grain is either *grain long*, running the length of the paper, or *grain short*, running the width of the paper.

For  $60-256 \text{ g/m}^2$  (16-68-lb) paper, grain long paper is recommended.

#### **Fiber content**

Most high-quality xerographic paper is made from 100% chemically treated pulped wood. This content provides the paper with a high degree of stability, resulting in fewer paper feeding problems and better print quality. Paper containing fibers such as cotton can negatively affect paper handling.

### **Selecting paper**

Using the appropriate paper prevents jams and helps ensure trouble-free printing.

To help avoid paper jams and poor print quality:

- Always use new, undamaged paper.
- Before loading paper, know the recommended printable side of the paper. This information is usually indicated on the paper package.
- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, types, or weights in the same tray; mixing results in jams.
- Do not use coated papers unless they are specifically designed for electrophotographic printing.

### Selecting preprinted forms and letterhead

- Use grain long for 60-256-g/m<sup>2</sup> (16-68-lb) paper.
- Use only forms and letterhead printed using an offset lithographic or engraved printing process.
- Avoid paper with rough or heavily textured surfaces.
- Use inks that are not affected by the resin in toner. Inks that are oxidation-set or oil-based generally meet these requirements; latex inks might not.
- Print samples on preprinted forms and letterheads considered for use before buying large quantities. This determines whether or not the ink in the preprinted form or letterhead will affect print quality.
- When in doubt, contact your paper supplier.

## Using recycled paper and other office papers

As an environmentally conscientious company, Lexmark supports the use of recycled paper produced specifically for use in laser (electrophotographic) printers.

While no blanket statement can be made that all recycled paper will feed well, Lexmark consistently tests papers that represent recycled cut size copier papers available on the global market. This scientific testing is conducted with rigor and discipline. Many factors are taken into consideration both separately and as a whole, including the following:

- Amount of post-consumer waste (Lexmark tests up to 100% post-consumer waste content.)
- Temperature and humidity conditions (Testing chambers simulate climates from all over the world.)
- Moisture content (Business papers should have low moisture: 4–5%.)
- Bending resistance and proper stiffness means optimum feeding through the printer.

- Thickness (impacts how much can be loaded into a tray)
- Surface roughness (measured in Sheffield units, impacts print clarity and how well toner fuses to the paper)
- Surface friction (determines how easily sheets can be separated)
- Grain and formation (impacts curling, which also influences the mechanics of how the paper behaves as it moves through the printer)
- Brightness and texture (look and feel)

Recycled papers are better than ever; however, the amount of recycled content in a paper affects the degree of control over foreign matter. And while recycled papers are one good path to printing in an environmentally responsible manner, they are not perfect. The energy required to de-ink and deal with additives such as colorants and "glue" often generates more carbon emissions than does normal paper production. However, using recycled papers enables better resource management overall.

Lexmark concerns itself with the responsible use of paper in general based on life cycle assessments of its products. To gain a better understanding of the impact of printers on the environment, the company commissioned a number of life cycle assessments and found that paper was identified as the primary contributor (up to 80%) of carbon emissions caused throughout the entire life of a device (from design to end-of-life). This is due to the energy-intensive manufacturing processes required to make paper.

Thus, Lexmark seeks to educate customers and partners on minimizing the impact of paper. Using recycled paper is one way. Eliminating excessive and unnecessary paper consumption is another. Lexmark is well-equipped to help customers minimize printing and copying waste. In addition, the company encourages purchasing paper from suppliers who demonstrate their commitment to sustainable forestry practices.

Lexmark does not endorse specific suppliers, although a converter's product list for special applications is maintained. However, the following paper choice guidelines will help alleviate the environmental impact of printing:

- **1** Minimize paper consumption.
- **2** Be selective about the origin of wood fiber. Buy from suppliers who carry certifications such as the Forestry Stewardship Council (FSC) or the Program for the Endorsement of Forest Certification (PEFC). These certifications guarantee that the paper manufacturer uses wood pulp from forestry operators that employ environmentally and socially responsible forest management and restoration practices.
- **3** Choose the most appropriate paper for printing needs: normal 75 or 80 g/m<sup>2</sup> certified paper, lower weight paper, or recycled paper.

### Unacceptable paper examples

Test results indicate that the following paper types are at risk for use with laser printers:

- Chemically treated papers used to make copies without carbon paper, also known as *carbonless papers*
- Preprinted papers with chemicals that may contaminate the printer
- Preprinted papers that can be affected by the temperature in the printer fuser
- Preprinted papers that require a registration (the precise location on the page) greater than ± 2.3 mm (± 0.9 in.), such as optical character recognition (OCR) forms. In some cases, registration can be adjusted with a software application to successfully print on these forms.)
- Coated papers (erasable bond), synthetic papers, thermal papers
- Rough-edged, rough or heavily textured surface papers or curled papers
- Recycled papers that fail EN12281:2002 (European testing)
- Paper weighing less than 60 g/m<sup>2</sup> (16 lb)
- Multiple part forms or documents

For more information about Lexmark, visit <u>www.lexmark.com</u>. General sustainability-related information can be found at the **Environmental Sustainability** link.

## **Storing paper**

Use these paper storage guidelines to help avoid jams and uneven print quality:

- For best results, store paper where the temperature is 21°C (70°F) and the relative humidity is 40 percent. Most label manufacturers recommend printing in a temperature range of 18–24°C (65–75°F) with relative humidity between 40 and 60 percent.
- Store paper in cartons, on a pallet or shelf, rather than on the floor.
- Store individual packages on a flat surface.
- Do not store anything on top of individual paper packages.
- Take paper out of the carton or wrapper only when you are ready to load it in the printer. The carton and wrapper help keep the paper clean, dry, and flat.

## Supported paper sizes, types, and weights

Paper size	Dimensions	Standard 500-she et tray (Tray 1)	Standard 500-she et tray (Tray 2)	2 x 50 0- sheet tray	2500-she et tray	3000-she et tray	Multipurpos e feeder <sup>3</sup>	Two-sided printing

## **Printing forms and a document**

## **Printing forms**

Use Forms and Favorites to quickly and easily access frequently used forms or other information that is regularly printed. Before you can use this application, first set it up on the printer. For more information, see <u>"Setting up</u> Forms and Favorites" on page 22.

- **1** From the home screen, navigate to:
  - Forms and Favorites > select the form from the list > enter the number of copies > adjust other settings
- **2** Apply the changes.

## Printing from a computer

**Note:** For specialty media such as labels, card stock, and envelopes, set the paper size and type in the printer before sending the print job.

- 1 With a document open, click File > Print.
- **2** If necessary, adjust the settings.
- **3** Send the print job.

## Adjusting toner darkness

**1** From the home screen, navigate to:

**2** Adjust the toner darkness setting, and then save the changes.

## Printing from a flash drive or mobile device

## Printing from a flash drive

#### Notes:

- Before printing an encrypted PDF file, you are prompted to type the file password from the control panel.
- You cannot print files for which you do not have printing permissions.
- 1 Insert a flash drive into the USB port.

#### Notes:

- A flash drive icon appears on the printer home screen when a flash drive is inserted.
- If you insert the flash drive when the printer requires attention, such as when a jam has occurred, then the printer ignores the flash drive.
- If you insert the flash drive while the printer is processing other print jobs, then **Busy** appears on the printer display. After these print jobs are processed, you may need to view the held jobs list to print documents from the flash drive.

**Warning—Potential Damage:** Do not touch the printer or the flash drive in the area shown while actively printing, reading, or writing from the memory device. Loss of data or a malfunction can occur.

- **2** From the control panel, touch the document you want to print.
- **3** Specify the number of copies to be printed, and then send the job for printing.

#### Notes:

- Do not remove the flash drive from the USB port until the document has finished printing.
- If you leave the flash drive in the printer after leaving the initial USB menu screen, then touch **Held Jobs** on the home screen to print files from the flash drive.

## Supported flash drives and file types

#### Notes:

- High-speed USB flash drives must support the full-speed standard. Low-speed USB devices are not supported.
- USB flash drives must support the File Allocation Table (FAT) system. Devices formatted with New Technology File System (NTFS) or any other file system are not supported.

Recommended flash drives	File type
<ul> <li>Lexar FireFly (512MB and 1GB)</li> </ul>	Documents:
<ul> <li>SanDisk Cruzer Micro (512MB and 1GB)</li> </ul>	• .pdf
<ul> <li>Sony (512MB and 1GB)</li> </ul>	• .xps
	Images:
	• .dcx
	• .gif
	<ul> <li>.jpeg or .jpg</li> </ul>
	• .bmp
	• .pcx
	• .tiff or .tif
	• .png

### Printing from a mobile device

To download a compatible mobile printing application, visit www.lexmark.com/mobile.

Note: Mobile printing applications may also be available from your mobile device manufacturer.

## Printing confidential and other held jobs

### Storing print jobs in the printer

**1** From the printer control panel, navigate to:

Use	То	
Max Invalid PIN	Limit the number of times an invalid PIN can be entered.	
	<b>Note:</b> When the limit is reached, the print jobs for that user name and PIN are deleted.	
Confidential Job Expiration	Hold print jobs in the computer until you enter the PIN from the printer control panel.	
	<b>Note:</b> The PIN is set from the computer. It must be four digits, using the numbers 1–9.	
Repeat Job Expiration	Print and store print jobs in the printer memory.	
Verify Job Expiration	Print one copy of a print job and hold the remaining copies. It allows you to examine if the first copy is satisfactory. The print job is automatically deleted from the printer memory when all copies are printed.	
Reserve Job Expiration	Store print jobs for printing at a later time.	
	Note: The print jobs are held until deleted from the Held Jobs menu.	

**Security** > **Confidential Print** > select the print job type

#### Notes:

- Confidential, Verify, Reserve, and Repeat print jobs may be deleted if the printer requires extra memory to process additional held jobs.
- You can set the printer to store print jobs in the printer memory until you start the print job from the printer control panel.
- All print jobs that can be initiated by the user at the printer are called *held jobs*.
- 2 Touch Submit.

#### **Printing held jobs**

- 1 With a document open, select File > Print.
- **2** Select the printer, and then do the following:
  - For Windows users, click Properties or Preferences, and then click Print and Hold.
  - For Macintosh users, select **Print and Hold**.
- **3** Select the print job type.

- 4 If necessary, assign a user name.
- **5** Send the print job.
- 6 From the printer home screen, touch Held Jobs.
- 7 Send the print job.

### Modifying confidential print settings

Note: This feature is available only in network printers or printers connected to print servers.

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address in the TCP/IP section in the Network/Ports menu. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings tab > Security > Confidential Print Setup.
- **3** Modify the settings:
  - Set a maximum number of PIN entry attempts. When a user exceeds a specific number of PIN entry attempts, all of the jobs for that user are deleted.
  - Set an expiration time for confidential print jobs. When a user has not printed the jobs within the specified time, all of the jobs for that user are deleted.
- **4** Save the modified settings.

## **Printing information pages**

### Printing a font sample list

- **1** From the home screen, navigate to:
  - > Reports > Print Fonts
- 2 Touch PCL Fonts or PostScript Fonts.

### **Printing a directory list**

A directory list shows the resources stored in a flash memory or in the printer hard disk.

From the home screen, navigate to:

## **Canceling a print job**

### Canceling a print job from the printer control panel

- **1** From the printer control panel, touch **Cancel Job** or press **S** on the keypad.
- **2** Touch the print job you want to cancel, and then touch **Delete Selected Jobs**.

Note: If you press on the keypad, then touch **Resume** to return to the home screen.

#### Canceling a print job from the computer

- **1** Depending on the operating system, do either of the following:
  - Open the printers folder, and then select your printer.
  - From the System Preferences in the Apple menu, navigate to your printer.
- **2** Select the print job to cancel.

# Copying

## Making copies

### Copying using the ADF or scanner glass

**1** Load an original document into the ADF tray or on the scanner glass.

**Note:** To avoid a cropped image, make sure the size of the original document and the size of the copy paper are the same.

**2** From the home screen, navigate to:

Copy > specify the copy settings > Copy It

Note: To make a quick copy, from the control panel, press

### **Copying photos**

- **1** Place a photo on the scanner glass.
- **2** From the home screen, navigate to:

```
Copy > Content > Photo >
```

- **3** From the Content Source menu, select the setting that best matches the original photo.
- **4** Touch ✓ > Copy It.

### Copying on transparencies or letterhead

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

**3** Touch **Copy to**, and then select the tray that contains the specialty media. If you are loading the specialty media into the multipurpose feeder, then navigate to:

Multipurpose Feeder > > select the size of the specialty media > > Transparency or Letterhead

4 Touch **Copy It**.

## Creating a copy shortcut

#### Notes:

- Make sure that Copy Shortcuts is set to Display. From the home screen, touch => Settings > General Settings > Home screen customization > Copy Shortcuts > Display > Submit.
- To delete a copy shortcut, touch > Manage Shortcuts > Copy Shortcuts > the shortcut to delete > Delete now.

### Creating a copy shortcut using the printer control panel

- **1** From the home screen, touch **Copy**.
- 2 Adjust the copy settings, and then touch Save as Shortcut.

**Note:** If you change the settings after the copy shortcut has been created, then the settings are not saved.

- **3** Type a unique name for the shortcut, and then touch **Done**.
- **4** Verify that the shortcut name is correct, and then touch **OK**.

If the shortcut name is incorrect, then touch **Cancel**, and then reenter the information.

#### Notes:

- The shortcut name appears in the Copy Shortcuts icon on the printer home screen.
- You can use the shortcut when copying another document using the same settings.

## **Customizing copy settings**

### Copying to a different size

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

Copy > Copy from > select the size of the original document >

- 3 Touch Copy to, and then select a new size for the copy.
- 4 Touch **Copy It**.

#### Making copies using paper from a selected tray

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

Copy > Copy from > select the size of the original document >

- 3 Touch Copy to, and then select the tray containing the paper type you want to use.
- 4 Touch Copy It.

#### **Copying different paper sizes**

#### Copying onto mixed paper sizes

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

**3** Touch Copy to > Auto Size Match > Sopy It.

#### Copying onto a single paper size

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

#### Copy > Copy from > Mixed Sizes >

**3** Touch Copy to > Letter >  $\checkmark$  > Copy It.

The scanner identifies the different paper sizes as they are scanned, and then scales the mixed paper sizes to fit on the paper size selected.

### Copying on both sides of the paper (two-sided)

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:
  - Copy > Sides (Duplex) > select the preferred two-sided method

**Note:** For the preferred method, the first number represents sides of the original documents while the second number represents sides of the copy. For example, select "2 sided to 2 sided" if you have two-sided original documents and you want two-sided copies.

3 Touch <> Copy It.

#### **Reducing or enlarging copies**

Copies can be scaled from 25% to 400% of the original document size.

- **1** Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch Copy.
- **3** From the Scale area, touch or + to decrease or increase the value by 1%.

Touching "Copy to" or "Copy from" after setting Scale manually changes the scale value back to Auto.

**Note:** Auto is the factory default setting. This automatically adjusts the scan image of the original document to fit the size of the paper onto which you are copying.

4 Touch Copy It.

### Adjusting copy quality

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

Copy > Content > specify the content type of the document >

**3** Specify the content source of the document, and then touch  $\checkmark$  > Copy It.

#### **Collating copies**

If you print multiple copies of a document, then you can choose to print the copies as a set (collated) or to print the copies as groups of pages (not collated).

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

Copy > enter the number of copies > Collate > select the preferred order of pages > <br/> <br/> > Copy It

#### Placing separator sheets between copies

- **1** Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, navigate to:

Copy > Advanced Options > Separator Sheets > select where you want to place the separator sheets

**Note:** Set Collate to (1,2,3) (1,2,3) to place separator sheets between copies. If Collate is set to (1,1,1) (2,2,2), then the separator sheets are added to the end of the copy job. For more information, see <u>"Collating copies" on page 79</u>.

#### Copying multiple pages onto a single sheet

In order to save paper, you can copy either two or four consecutive pages of a multiple-page document onto a single sheet of paper.

#### Notes:

- Make sure to set the paper size to letter, legal, A4, or JIS B5.
- Make sure to set the copy size to 100%.
- 1 Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

Copy > Advanced Options > Paper Saver > select the output you want > <br/> <br/> > Copy It

Note: If Paper Saver is set to Off, then the Print Page Borders option is unavailable.

### Creating a custom copy job

The custom copy job is used to combine one or more sets of original documents into a single copy job.

The definition of a set depends on the scan source:

- If you scan a document on the scanner glass, then a set consists of one page.
- If you scan multiple pages using the ADF, then a set consists of all scanned pages until the ADF tray becomes empty.
- If you scan one page using the ADF, then a set consists of one page.
- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

#### Copy > Advanced Options > Custom Job > On > 🛩 > Copy It

Note: When the end of a set is reached, the scan screen appears.

**3** Load the next document into the ADF tray or on the scanner glass, and then touch **Scan from automatic feeder** or **Scan from flatbed**.

Note: Change the scan job settings, if necessary.

4 If you have another document to scan, then repeat the previous step. Otherwise, touch **Finish the job**.

## Placing a header or footer on pages

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, navigate to:

Copy > Advanced Options > Header/Footer > select where you want to place the header or footer > select the type of header or footer you want

- **3** Enter the required information depending on the header or footer you selected, and then touch **Done**.
- 4 Touch 🗹 , and then press 🛯

## Canceling a copy job while pages are being printed

- **1** From the printer control panel, touch **Cancel Job** or press **S** on the keypad.
- 2 Touch the job you want to cancel, and then touch **Delete Selected Jobs**.
- Note: If you press on the keypad, then touch **Resume** to return to the home screen.

## Understanding the copy options

### Copy from

This option opens a screen where you can select the paper size of the original document.

- Touch the paper size that matches the original document.
- To copy an original document that contains mixed paper sizes with the same width, touch Mixed Sizes.
- To set the printer to automatically detect the size of the original document, touch Auto Size Sense.

### Copy to

This option opens a screen where you can enter the paper size and type on which your copies will be printed.

- Touch the paper size and type that matches the paper loaded.
- If the paper size setting for "Copy from" and "Copy to" are different, then the printer automatically adjusts the Scale setting to accommodate the difference.

### Scale

This option lets you scale the document from 25% to 400% of the original document size. You can also set automatic scaling.

- When copying to a different paper size, such as from legal-size to letter-size paper, set the "Copy from" and "Copy to" paper sizes automatically to scale the scan image to fit the size of the paper onto which you are copying.
- To decrease or increase the value by 1%, touch or on the printer control panel. To make a continuous decrease or increase in value, hold the button for two seconds or more.

### Darkness

This option lets you adjust how light or dark the copies are in relation to the original document.

### Sides (Duplex)

This option lets you make one- or two-sided copies from one- or two-sided original documents.

### Collate

This option keeps the pages of a print job stacked in sequence when printing multiple copies of the document.

### Copies

This option lets you set the number of copies to be printed.

### Content

This option lets you specify the content type and source of the original document.

### Save As Shortcut

This option lets you save the current settings by assigning a shortcut name.

Note: Selecting this option automatically assigns the next available shortcut number.

### Punch

This setting specifies whether copy jobs will have holes punched in them.

### Staple

This setting specifies whether copy jobs that contain multiple pages will be stapled.

### Using the advanced options

- Advanced Duplex—This specifies the document orientation, one-sided or two-sided printing, and type of binding.
- Advanced Imaging—This adjusts the Auto Center, Background Removal, Color Balance, Color Dropout, Contrast, Mirror Image, Negative Image, Scan Edge to Edge, Shadow Detail, and Sharpness settings before you copy the document.
- Create Booklet—This creates a one-sided or two-sided booklet.

Note: This option appears only when a printer hard disk is installed.

- Cover Page Setup—This sets up the cover page of copies and booklets.
- **Custom Job**—This combines multiple scanning jobs into a single job.

**Note:** This option appears only when a printer hard disk is installed.

- Edge Erase—This removes smudges or marks around the edges of a document. You can choose to remove an equal area around all four sides of the paper, or pick a particular edge. Edge Erase removes whatever is within the area selected.
- Fold—This folds the paper in two (bifold) or three (trifold).

Note: This option appears only if a booklet finisher is installed.

- Header/Footer—This inserts Date/Time, Page number, Bates number, or Custom text in the specified header or footer location.
- Margin Shift—This increases or decreases the page margin by shifting the scanned image. Touch 📩 or

to set the margin you want. If the additional margin is too large, then the copy is cropped.

- Offset Pages—This offsets pages between copies or between jobs.
- **Overlay**—This creates a watermark or message that overlays each page of your copy. You can choose from preset messages or enter a custom message.
- **Paper Saver**—This prints two or more pages of an original document on the same page. Paper Saver is also called *N-up* printing, where *N* stands for the number of pages. For example, 2-up would print two pages on a single page, and 4-up would print four pages on a single page.
- **Separator Sheets**—This places a blank sheet of paper between copies, pages, or print jobs. The separator sheets can be drawn from a tray that contains a type or color of paper that is different from the paper your copies are printed on.

# **E-mailing**

## Setting up the printer to e-mail

### **Configuring e-mail settings**

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > E-mail/FTP Settings > E-mail Settings.
- **3** Enter the appropriate information, and then click **Submit**.

## **Creating an e-mail shortcut**

#### Notes:

- Make sure that E-mail Shortcuts is set to Display. From the home screen, touch => Settings > General Settings > Home screen customization > E-mail Shortcuts > Display > Submit.
- To delete an e-mail shortcut, touch > Manage Shortcuts > E-mail Shortcuts > the shortcut to delete
   Delete now.

### Creating an e-mail shortcut using the Embedded Web Server

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings.
- **3** From the Other Settings column, click **Manage Shortcuts** > **E-mail Shortcut Setup**.
- **4** Type a unique name for the e-mail recipient, and then type the e-mail address. If you are entering multiple addresses, then separate each address with a comma.
- 5 Click Add.

### Creating an e-mail shortcut using the control panel

**1** From the home screen, navigate to:

#### MyShortcut > Create > E-mail

- 2 Type a unique shortcut name, and then touch **Done**.
- **3** Configure the e-mail settings, and then touch **Done**.
- 4 Touch E-mail Shortcuts on the home screen to verify the shortcut.

## **E-mailing a document**

#### Sending an e-mail using the control panel

- **1** Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **E-mail**, and then enter the information needed.
- **3** Configure and then save the output file type settings.
- 4 Touch Send It.

### Sending an e-mail using a shortcut number

- 1 Load an original document into the ADF tray or on the scanner glass.
- **2** Press **#**, and then enter the shortcut number using the keypad.
- 3 Touch Send It.

#### Sending an e-mail using the address book

- 1 Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

E-mail > Recipient(s) > 🔎 > type the name of the recipient > Search

**3** Select the recipient's name, and then touch **Done**.

## **Customizing e-mail settings**

### Changing the output file type

- 1 Load an original document into the ADF tray or on the scanner glass.
- **2** From the home screen, navigate to:

E-mail > Recipient(s) > type the e-mail address > Done > Send as

3 Select the file type you want to send.

Note: If you select Secure PDF, then you will be prompted to enter your password twice.

4 Touch Send It.

## **Canceling an e-mail**

- When using the ADF, touch Cancel Job while Scanning appears.
- When using the scanner glass, touch Cancel Job while Scanning appears, or while Scan the Next Page / Finish the Job appears.

## Understanding the e-mail options

### **Recipient(s)**

This option lets you enter the recipient of your e-mail. You may enter multiple e-mail addresses.

### Subject

This option lets you type a subject line for your e-mail.

### Message

This option lets you type a message that will be sent with your scanned attachment.

### File Name

This option lets you customize the attachment file name.

### **Original Size**

This option lets you set the paper size of the documents you are going to e-mail. When Original Size is set to Mixed Sizes, you can scan an original document that contains mixed paper sizes (letter- and legal-size pages).

### Resolution

This option lets you adjust the output quality of your e-mail. Increasing the image resolution increases the email file size and the time needed to scan your original document. Decreasing the image resolution reduces the file size.

### Content

This option lets you specify the content type and source of the original document.

### Save As Shortcut

This option lets you save the current settings as a shortcut by assigning a shortcut name.

Note: Selecting this option automatically assigns the next available shortcut number.

### Darkness

This option lets you adjust how light or dark your scanned documents are in relation to the original document.

### Send As

This option lets you set the output type for the scan image.

Select one of the following:

- **PDF**—Use this to create a single file with multiple pages. This can be sent as a secured or compressed file.
- **TIFF**—Use this to create multiple files or a single file. If Multi-page TIFF is turned off in the Settings menu of the Embedded Web Server, then TIFF saves one page in each file. The file size is usually larger than an equivalent JPEG.
- JPEG—Use this to create and attach a separate file for each page of your original document.
- **XPS**—Use this to create a single XPS file with multiple pages.

### Page Setup

This option lets you change the following settings:

- **Sides (Duplex)**—This specifies if the original document is printed on only one side or on both sides of the paper. This also identifies what needs to be scanned for inclusion in the e-mail.
- **Orientation**—This specifies the orientation of the original document, and then changes the Sides (Duplex) and Binding settings to match the orientation.
- **Binding**—This specifies if the original document is bound on the long-edge or short-edge side.

#### **Scan Preview**

This option lets you view the first page of the image before it is included in the e-mail. When the first page is scanned, the scanning is paused and a preview image appears.

Note: This option appears only when a working printer hard disk is installed.

### Using the advanced options

Select from the following settings:

- Advanced Imaging—This adjusts the Background Removal, Color Balance, Color Dropout, Contrast, JPEG Quality, Mirror Image, Negative Image, Scan Edge to Edge, Shadow Detail, Sharpness, and Temperature settings before you e-mail the document.
- Custom Job—This combines multiple scanning jobs into a single job.

Note: This option appears only when a formatted, working printer hard disk is installed.

- Edge Erase—This removes smudges or marks around the edges of a document. You can choose to remove an equal area around all four sides of the paper, or pick a particular edge. Edge Erase will erase whatever is within the area selected, leaving nothing on that portion of the scan.
- **Transmission Log**—This prints the transmission log or transmission error log.

# Faxing

## Setting up the printer to fax

**CAUTION—SHOCK HAZARD:** Do not use the fax feature during a lightning storm. Do not set up this product or make any electrical or cabling connections, such as the fax feature, power cord, or telephone, during a lightning storm.

#### Notes:

- The following connection methods are applicable only in some countries or regions.
- During the initial printer setup, clear the fax function check box and any other function you plan to set up later, and then touch **Continue**.
- The indicator light may blink red if the fax function is enabled and not fully set up.

**Warning—Potential Damage:** Do not touch cables or the printer in the area shown while actively sending or receiving a fax.

### **Initial fax setup**

Many countries and regions require outgoing faxes to contain the following information in a margin at the top or bottom of each transmitted page, or on the first page of the transmission: fax name (identification of the business, other entity, or individual sending the message) and fax number (telephone number of the sending fax machine, business, other entity, or individual). For more information, see <u>"Regulatory notices for telecommunication terminal equipment" on page 344</u>.

To enter your fax setup information, use the printer control panel, or use your browser to access the Embedded Web Server and then enter the Settings menu.

**Note:** If you do not have a TCP/IP environment, then you must use the printer control panel to enter your fax setup information.

#### Using the printer control panel for fax setup

When the printer is turned on for the first time, a series of start-up screens appear. If the printer has fax capabilities, then the Fax Name and Fax Number screens appear.

- **1** When the Fax Name screen appears, do the following:
  - **a** Enter the name to be printed on all outgoing faxes.
  - **b** Enter the fax name, and then touch **Submit**.
- 2 When the Fax Number screen appears, enter the fax number, and then touch Submit.

#### Using the Embedded Web Server for fax setup

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Fax Settings > Analog Fax Setup.
- **3** In the Fax Name field, type the name to be printed on all outgoing faxes.
- **4** In the Fax Number field, enter the printer fax number.
- 5 Click Submit.

### **Choosing a fax connection**

#### Setting up fax using a standard telephone line

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

CAUTION—POTENTIAL INJURY: To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

#### Setup 1: Printer is connected to a dedicated fax line

- 1 Connect one end of the telephone cable to the line port of the printer.
- **2** Connect the other end of the cable to an active analog wall jack.

#### Notes:

- You can set the printer to receive faxes automatically (Auto Answer On) or manually (Auto Answer Off).
- If you want to receive faxes automatically, then set the printer to pick up on a specified number of rings.

#### Setup 2: Printer is sharing the line with an answering machine

**Note:** If you subscribe to a distinctive ring service, then make sure that you set the correct ring pattern for the printer. Otherwise, the printer does not receive faxes even if you have set it to receive faxes automatically.

#### Connected to the same telephone wall jack

- **1** Connect one end of the telephone cable to the line port of the printer.
- **2** Connect the other end of the cable to an active analog wall jack.
- **3** Connect the answering machine to the telephone port of the printer.

#### Connected to different wall jacks

- **1** Connect one end of the telephone cable to the line port of the printer.
- **2** Connect the other end of the cable to an active analog wall jack.

#### Notes:

- If you have only one telephone number on your line, then set the printer to receive faxes automatically.
- Set the printer to pick up calls two rings after the answering machine. For example, if the answering machine picks up calls after four rings, then set the printer Rings to Answer setting to six.

#### Setup 3: Printer is sharing the line with a telephone subscribed to voice mail service

- **1** Connect one end of the telephone cable to the line port of the printer.
- **2** Connect the other end of the cable to an active analog wall jack.
- **3** Connect the telephone to the telephone port of the printer.

#### Notes:

- This setup works best if you are using voice mail more often than fax, and if you subscribe to a
  distinctive ring service.
- When you answer the telephone and you hear fax tones, press \*9\* or the manual answer code on the telephone to receive the fax.
- You can also set the printer to receive faxes automatically, but turn off the voice mail service when you are expecting a fax.

#### Setting up fax using digital subscriber line

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

**CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

Digital subscriber line (DSL) splits your regular telephone line into two channels: voice and Internet. Telephone and fax signals travel through the voice channel, and Internet signals pass through the other channel.

To minimize interference between the two channels, ask for a DSL filter from your DSL provider.

- **1** Connect the line port of the DSL filter to the wall jack.
- 2 Connect one end of the telephone cable to the line port of the printer.
- **3** Connect the other end of the cable to the telephone port on the DSL filter.

**Note:** To connect a telephone to the printer, remove any installed adapter plug from the telephone port of the printer, and then connect the telephone.

#### Setting up fax using VoIP telephone service

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

CAUTION—POTENTIAL INJURY: To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

- **1** Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to the port labeled **Phone Line 1** or **Phone Port** on the VoIP adapter.

**Note:** The port labeled **Phone Line 2** or **Fax Port** is not always active. VoIP providers may charge extra cost for the activation of the second telephone port.

**3** Connect the telephone to the telephone port of the printer.

#### Notes:

- To check if the telephone port on the VoIP adapter is active, plug an analog telephone into the port, and then listen for a dial tone.
- If you need two telephone ports for your devices, but do not want to pay extra cost, then use a phone splitter. Plug the phone splitter into the port labeled **Phone Line 1** or **Phone Port**, and then plug the printer and telephone into the splitter.
- To check the splitter, plug an analog telephone into the splitter, and then listen for a dial tone.

#### Setting up fax using cable modem connection

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

**CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

#### Setup 1: Printer is connected directly to a cable modem

- **1** Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to the port labeled **Phone Line 1** or **Phone Port** on the cable modem.
- **3** Connect your analog telephone to the telephone port of the printer.

**Note:** To check if the telephone port on the cable modem is active, connect an analog telephone, and then listen for a dial tone.

#### Setup 2: Printer is connected to a wall jack; cable modem is installed elsewhere in the facility

- **1** Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to an active analog telephone wall jack.
- **3** Connect your analog telephone to the telephone port of the printer.

#### Setting up fax in countries or regions with different telephone wall jacks and plugs

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

CAUTION—POTENTIAL INJURY: To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

The standard wall jack adopted by most countries or regions is RJ11. If the wall jack or equipment in your facility is not compatible with this type of connection, then use a telephone adapter. An adapter for your country or region may not come with your printer, and you may need to purchase it separately.

There may be an adapter plug installed in the telephone port of the printer. Do not remove the adapter plug from the telephone port of the printer if you are connecting to a serial or cascaded telephone system.

Part name	Part number
Lexmark adapter plug	40X8519

#### Connecting the printer to a non-RJ11 wall jack

- **1** Connect one end of the telephone cable to the line port of the printer.
- **2** Connect the other end of the cable to the RJ11 adapter, and then connect the adapter to the wall jack.
- **3** If you want to connect another device with a non-RJ11 connector to the same wall jack, then connect it directly to the telephone adapter.

#### Connecting the printer to a wall jack in Germany

The German wall jack has two kinds of ports. The N ports are for fax machines, modems, and answering machines. The F port is for telephones. Connect the printer to any of the N ports.

- **1** Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to the RJ11 adapter, and then connect the adapter to an N port.
- **3** If you want to connect a telephone and answering machine to the same wall jack, then connect the devices as shown.

### Connecting to a distinctive ring service

A distinctive ring service may be available from your telephone company. This service lets you have multiple telephone numbers on one telephone line, with each telephone number having a different ring pattern. This may be useful for distinguishing between fax and voice calls. If you subscribe to a distinctive ring service, then follow these steps to connect the equipment:

- 1 Connect one end of the telephone cable that came with the printer to the printer LINE port i.
- **2** Connect the other end of the telephone cable to an active analog telephone wall jack.

**3** Change the distinctive rings setting to match the setting you want for the printer to answer.

**Note:** The factory default setting for distinctive rings is On. This sets the printer to answer single, double, and triple ring patterns.

**a** From the home screen, navigate to:

> Settings > Fax Settings > Analog Fax Setup > Answer On

**b** Select the pattern setting you want to change, and then touch **Submit**.

### Setting the outgoing fax name and number

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Fax Settings > Analog Fax Setup.
- 3 In the Fax Name field, type the name to be printed on all outgoing faxes.
- **4** In the Fax Number field, enter the printer fax number.
- 5 Click Submit.

### Setting the date and time

You can set the date and time so that they are printed on every fax you send.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Security > Set Date and Time.
- **3** In the Manually Set Date & Time field, enter the current date and time.

Note: The use of network time is recommended.

4 Click Submit.

#### Configuring the printer to observe daylight saving time

The printer can be set to automatically adjust for daylight saving time.

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Security > Set Date and Time.
- 3 Click the Automatically Observe DST check box.
- 4 In the Custom Time Zone Setup section, set the DST start and end dates.
- 5 Click Submit.

## Sending a fax

#### Using the control panel

- **1** Load the original document into the ADF tray or on the scanner glass.
- **2** From the home screen, touch **Fax**, and then enter the needed information.
- **3** If necessary, configure other fax settings.
- 4 Send the fax job.

#### Using the computer

#### For Windows users

- 1 With a document open, click File > Print.
- 2 Select the printer, and then click Properties, Preferences, Options, or Setup.
- 3 Click Fax > Enable fax, and then enter the recipient number.

- 4 If necessary, configure other fax settings.
- **5** Send the fax job.

#### For Macintosh users

- 1 With a document open, choose File > Print.
- 2 Select the printer and enter the recipient number.
- **3** If necessary, configure other fax settings.
- 4 Send the fax job.

## Sending a fax at a scheduled time

1 Load an original document faceup, short edge first into the ADF tray or facedown on the scanner glass.

Notes:

- Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF tray. Place these items on the scanner glass.
- The ADF indicator light comes on when the paper is loaded properly.
- 2 If you are loading a document into the ADF tray, then adjust the paper guides.
- **3** From the home screen, navigate to:

Fax > enter the fax number > Options > Delayed Send

**Note:** If Fax Mode is set to Fax Server, then the Delayed Send button does not appear. Faxes waiting for transmission are listed in the fax queue.

- 4 Specify the time the fax will be transmitted, and then touch  $\checkmark$ .
- 5 Touch Fax It.

Note: The document is scanned, and then faxed at the scheduled time.

## **Creating shortcuts**

#### Notes:

- Make sure that Fax Shortcuts is set to Display. From the home screen, touch 📰 > Settings > General Settings > Home screen customization > Fax Shortcuts > Display > Submit.
- To delete a fax shortcut, touch is > Manage Shortcuts > Fax Shortcuts > the shortcut to delete > Delete now.

### Creating a fax destination shortcut using the Embedded Web Server

Assign a shortcut number to a single fax number or a group of fax numbers.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Manage Shortcuts > Fax Shortcut Setup.

**Note:** A password may be required. If you do not have an ID and password, then contact your system support person.

**3** Type a name for the shortcut, and then enter the fax number.

#### Notes:

- To create a multiple-number shortcut, enter the fax numbers for the group.
- Separate each fax number in the group with a semicolon (;).
- **4** Assign a shortcut number.

Note: If you enter a number that is already in use, then you are prompted to select another number.

5 Click Add.

#### Creating a fax destination shortcut using the printer control panel

1 From the home screen, touch Fax, and then enter the fax number.

Note: To create a group of fax numbers, touch Next number, and then enter the next fax number.

- 2 Touch 🔀
- **3** Type a unique name for the shortcut, and then touch **Done**.
- **4** Verify that the shortcut name and number are correct, and then touch **OK**.

Note: If the name or number is incorrect, then touch Cancel, and then reenter the information.

## **Customizing fax settings**

#### Changing the fax resolution

**1** Load an original document faceup, short edge first into the ADF tray or facedown on the scanner glass.

#### Notes:

- Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF tray. Place these items on the scanner glass.
- The ADF indicator light comes on when the paper is loaded properly.
- 2 If you are loading a document into the ADF tray, then adjust the paper guides.
- **3** From the home screen, navigate to:

Fax > enter the fax number > Options

4 From the Resolution area, touch the arrows to select the resolution you want.

Note: Select a resolution from Standard (fastest speed) to Ultra Fine (best quality at a reduced speed).

5 Touch Fax It.

#### Making a fax lighter or darker

1 Load an original document faceup, short edge first into the ADF tray or facedown on the scanner glass.

#### Notes:

- Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF tray. Place these items on the scanner glass.
- The ADF indicator light comes on when the paper is loaded properly.
- 2 If you are loading a document into the ADF tray, then adjust the paper guides.
- **3** From the home screen, navigate to:

Fax > enter the fax number > Options

4 Adjust the fax darkness, and then touch Fax It.

### Viewing a fax log

**1** Type the printer IP address into the address field of your Web browser.

**Note:** If you do not know the IP address of the printer, then print a network setup page and locate the IP address in the TCP/IP section.

- 2 Click Reports.
- 3 Click Fax Job Log or Fax Call Log.

#### **Blocking junk faxes**

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.

#### 2 Click Settings > Fax Settings > Analog Fax Setup > Block No Name Fax.

#### Notes:

- This option blocks all incoming faxes that have a private caller ID or have no fax name.
- In the Banned Fax List field, enter the phone numbers or type the fax names of specific fax callers you want to block.

## Canceling a fax job

- **1** From the control panel, touch **Cancel Job** or press **S** on the keypad.
- 2 Touch the job you want to cancel, and then touch Delete Selected Jobs.

**Note:** If you press on the keypad, then touch **Resume** to return to the home screen.

## Holding and forwarding faxes

#### **Holding faxes**

This option lets you hold received faxes from printing until they are released. Held faxes can be released manually or at a scheduled day or time.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.

#### 2 Click Settings > Fax Settings > Analog Fax Setup > Holding Faxes.

**3** From the Held Fax Mode menu, select one of the following:

- Off
- Always On
- Manual
- Scheduled
- **4** If you selected Scheduled, then continue with the following steps:
  - a Click Fax Holding Schedule.
  - **b** From the Action menu, select **Hold faxes**.
  - c From the Time menu, select the time you want the held faxes released.
  - **d** From the Day(s) menu, select the day you want the held faxes released.
- 5 Click Add.

#### Forwarding a fax

This option lets you print and forward received faxes to a fax number, e-mail address, FTP site, or LDSS.

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

• View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > Fax Settings.
- 3 From the Fax Forwarding menu, select **Print**, **Print and Forward**, or **Forward**.
- 4 From the "Forward to" menu, select Fax, E-mail, FTP, LDSS, or eSF.
- **5** In the "Forward to Shortcut" field, enter the shortcut number where you want the fax forwarded.

Note: The shortcut number must be valid for the setting selected in the "Forward to" menu.

6 Click Submit.

# Understanding the fax options

### Resolution

This option lets you adjust the quality of the fax output. Increasing the image resolution increases the file size and the time needed to scan your original document. Decreasing the image resolution reduces the file size.

Select one of the following:

- Standard—Use this when faxing most documents.
- Fine 200 dpi—Use this when faxing documents with small prints.
- Super fine 300 dpi—Use this when faxing documents with fine details.
- Ultra fine 600 dpi—Use this when faxing documents with pictures or photos.

### Darkness

This option lets you adjust how light or dark the faxes are in relation to the original document.

### **Page Setup**

This option lets you change the following settings:

- **Sides (Duplex)**—This specifies if the original document is printed on one side or on both sides of the page (duplex). This also identifies what needs to be scanned for inclusion in the fax.
- **Orientation**—This specifies the orientation of the original document, and then changes the Sides (Duplex) and Binding settings to match the orientation.
- **Binding**—This specifies if the original document is bound on the long-edge or short-edge side.

### Content

This option lets you specify the content type and source of the original document.

### **Delayed Send**

This option lets you send a fax at a later time or date.

### Color

This option lets you set the output to either color or monochrome for the scanned image.

### **Scan Preview**

This option lets you view the first page of the image before it is included in the fax. When the first page is scanned, the scanning is paused and a preview image appears.

Note: This option appears only when a working printer hard disk is installed.

### Using the advanced options

Select from the following settings:

- Advanced Imaging—This adjusts the Background Removal, Color Balance, Color Dropout, Contrast, Mirror Image, Negative Image, Scan Edge to Edge, Shadow Detail, Sharpness, and Temperature settings before you fax the document.
- **Custom Job**—This combines multiple scanning jobs into a single job.

Note: This option appears only when a formatted, working printer hard disk is installed.

- Edge Erase—This removes smudges or marks around the edges of a document. You can choose to remove an equal area around all four sides of the paper, or pick a particular edge. Edge Erase erases whatever is within the area selected, leaving nothing on that portion of the scan.
- Transmission Log—This prints the transmission log or transmission error log.

# Scanning

# **Using Scan to Network**

Scan to Network lets you scan your documents to network destinations specified by your system support person. After the destinations (shared network folders) have been established on the network, the setup process for the application involves installing and configuring the application on the appropriate printer using its Embedded Web Server. For more information, see <u>"Setting up Scan to Network" on page 25</u>.

# Scanning to an FTP address

## **Creating shortcuts**

#### Notes:

- Make sure that FTP Shortcuts is set to Display. From the home screen, touch 📰 > Settings > General Settings > Home screen customization > FTP Shortcuts > Display > Submit.
- To delete an FTP shortcut, touch > Manage Shortcuts > FTP Shortcuts > the shortcut to delete > Delete now.

#### Creating an FTP shortcut using the Embedded Web Server

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Navigate to:

Settings > Other Settings area > Manage Shortcuts > FTP Shortcut Setup

**3** Enter the appropriate information.

**Note:** A password may be required. If you do not have an ID and password, then contact your system support person.

4 Enter a shortcut number.

Note: If you enter a number that is already in use, then you are prompted to select another number.

5 Click Add.

#### Creating an FTP shortcut using the printer control panel

**1** From the home screen, navigate to:

FTP > FTP > type the FTP address > 🔀 > type a name for the shortcut > Done

**2** Verify that the shortcut name and number are correct, and then touch **OK**.

#### Notes:

- If the name or number is incorrect, then touch Cancel, and then reenter the information.
- If you enter a number that is already in use, then you are prompted to select another number.

### Scanning to an FTP address

#### Scanning to an FTP address using the control panel

- **1** Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, navigate to:

```
FTP > FTP > type the FTP address > Done > Send It
```

#### Notes:

- You can also enter the recipient using the shortcut number or address book.
- To add recipients, touch Next Number.

# Scanning to a computer or flash drive

### Setting up Scan to Computer

#### Notes:

- This feature is supported only in Windows Vista or later.
- Make sure your computer and printer are connected to the same network.
- **1** Open the printers folder, and then select your printer.

Note: If your printer is not in the list, then add your printer.

- **2** Open the printer properties, and then adjust the settings as necessary.
- 3 From the control panel, touch Scan to Computer > select the appropriate scan setting > Send It.

### Scanning to a flash drive

- **1** Load an original document into the ADF tray or on the scanner glass.
- **2** Insert the flash drive into the USB port.
- **3** Select the destination folder, and then touch **Scan to USB drive**.
- **4** Adjust the scan settings, and then touch **Scan It**.

# Understanding the scan options

## FTP

This option lets you enter the IP address for the FTP destination.

Note: An IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

### **File Name**

This option lets you type a file name for the scan image.

### Save As Shortcut

This option lets you save the current settings as a shortcut by assigning a shortcut name.

Note: Selecting this option automatically assigns the next available shortcut number.

### **Original Size**

This option lets you set the paper size of the documents you are going to scan. When Original Size is set to Mixed Sizes, you can scan an original document that contains mixed paper sizes (letter- and legal-size pages).

### Darkness

This option lets you adjust how light or dark the scanned documents are in relation to the original document.

### Resolution

This option lets you adjust the output quality of your file. Increasing the image resolution increases the file size and the time needed to scan your original document. Decreasing the image resolution reduces the file size.

### Send As

This option lets you set the output type for the scan image.

Select one of the following:

- PDF—Use to create a single file with multiple pages. The PDF can be sent as a secured or compressed file.
- **TIFF**—Use to create multiple files or a single file. If Multi-page TIFF is turned off in the Settings menu, then TIFF saves one page in each file. The file size is usually larger than an equivalent JPEG.
- JPEG—Use to create and attach a separate file for each page of the original document.
- **XPS**—Use to create a single XPS file with multiple pages.

### Content

This option lets you specify the content type and source of the original document.

# Page Setup

This option lets you change the following settings:

- **Sides (Duplex)**—This specifies if the original document is printed on only one side or on both sides of the paper.
- **Orientation**—This specifies the orientation of the original document, and then changes the Sides (Duplex) and Binding settings to match the orientation.
- **Binding**—This specifies if the original document is bound on the long-edge or short-edge side.

### **Scan Preview**

This option lets you view the first page of the image before it is included in the file. When the first page is scanned, the scanning is paused and a preview image appears.

Note: This option appears only when a formatted, working printer hard disk is installed.

### Using the advanced options

Select from the following settings:

- Advanced Imaging—This adjusts the Background Removal, Color Balance, Color Dropout, Contrast, JPEG Quality, Mirror Image, Negative Image, Scan Edge to Edge, Shadow Detail, Sharpness, and Temperature settings before you scan the document.
- **Custom Job**—This combines multiple scanning jobs into a single job.

Note: This option appears only when a formatted, working printer hard disk is installed.

- Edge Erase—This removes smudges or marks around the edges of a document. You can choose to remove an equal area around all four sides of the paper, or pick a particular edge. Edge Erase erases whatever is within the area selected, leaving nothing on that portion of the scan.
- Transmission Log—This prints the transmission log or transmission error log.

Custom Type [x]	

# Configure MP menu

Use	То
<b>Configure MP</b> Cassette Manual First	<ul> <li>Determine when the printer selects paper from the multipurpose feeder.</li> <li>Notes: <ul> <li>Cassette is the factory default setting. Cassette configures the multipurpose feeder as the automatic paper source.</li> <li>Manual sets the multipurpose feeder only for manual-feed print jobs.</li> <li>First configures the multipurpose feeder as the primary paper source.</li> </ul> </li> </ul>

# Substitute Size menu

Use	То
Substitute Size	Substitute a specified paper size if the requested paper size is not available.
Statement/A5 Letter/A4 11 x 17/A3	<ul> <li>Notes:</li> <li>All Listed is the factory default setting. All available substitutions are allowed.</li> </ul>
All Listed	<ul> <li>Setting a size substitution lets the print job continue without Change Paper appearing.</li> </ul>

# Paper Texture menu

Use	То
Plain Texture	Specify the relative texture of the plain paper loaded.
Smooth	Note: Normal is the factory default setting.
Normal	
Rough	
Card Stock Texture	Specify the relative texture of the card stock loaded.
Smooth	Notes:
Normal	<ul> <li>Normal is the factory default setting.</li> </ul>
Rough	<ul> <li>The options appear only if card stock is supported.</li> </ul>
Transparency Texture	Specify the relative texture of the transparencies loaded.
Smooth Normal	<b>Note:</b> Normal is the factory default setting.
Rough	
Recycled Texture	Specify the relative texture of the recycled paper loaded.
Smooth	<b>Note:</b> Normal is the factory default setting.
Normal	
Rough	
Labels Texture	Specify the relative texture of the labels loaded.
Smooth	<b>Note:</b> Normal is the factory default setting.
Normal	
Rough	
Bond Texture	Specify the relative texture of the bond paper loaded.
Smooth	<b>Note:</b> Rough is the factory default setting.
Normal	
Rough	
Envelope Texture	Specify the relative texture of the envelopes loaded.
Smooth	Note: Normal is the factory default setting.
Normal	
Rough	

Use	То
Rough Envelope Texture Rough	Specify the relative texture of the rough envelopes loaded.
<b>Letterhead Texture</b> Smooth Normal Rough	Specify the relative texture of the letterhead loaded. <b>Note:</b> Normal is the factory default setting.
<b>Preprinted Texture</b> Smooth Normal Rough	Specify the relative texture of the preprinted paper loaded. <b>Note:</b> Normal is the factory default setting.
<b>Colored Texture</b> Smooth Normal Rough	Specify the relative texture of the colored paper loaded. <b>Note:</b> Normal is the factory default setting.
<b>Light Texture</b> Smooth Normal Rough	Specify the relative texture of the paper loaded. <b>Note:</b> Normal is the factory default setting.
<b>Heavy Texture</b> Smooth Normal Rough	Specify the relative texture of the paper loaded. <b>Note:</b> Normal is the factory default setting.
Rough/Cotton Texture Rough	Specify the relative texture of the cotton paper loaded.
<b>Custom [x] Texture</b> Smooth Normal Rough	<ul> <li>Specify the relative texture of the custom paper loaded.</li> <li>Notes: <ul> <li>Normal is the factory default setting.</li> <li>The options appear only if the custom type is supported.</li> </ul> </li> </ul>

### **Paper Loading menu**

Use	То
Card Stock Loading	Determine and set two-sided printing for all print jobs with Card
Duplex	Stock as the paper type.
Off	

Notes:

• Off is the factory default setting for all Paper Loading menu selections.

• Duplex sets the printer default to two-sided printing for every print job unless one-sided printing is selected from Print Properties or the print dialog, depending on your operating system.

Use	То
<b>Recycled Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Recycled as the paper type.
<b>Glossy Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Glossy as the paper type.
<b>Heavy Glossy Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Heavy Glossy as the paper type.
<b>Labels Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Labels as the paper type.
Bond Loading Duplex Off	Determine and set two-sided printing for all print jobs with Bond as the paper type.
<b>Letterhead Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Letterhead as the paper type.
Preprinted Loading Duplex Off	Determine and set two-sided printing for all print jobs with Preprinted as the paper type.
Colored Loading Duplex Off	Determine and set two-sided printing for all print jobs with Colored as the paper type.
<b>Light Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Light as the paper type.
<b>Heavy Loading</b> Duplex Off	Determine and set two-sided printing for all print jobs with Heavy as the paper type.
Rough/Cotton Loading Duplex Off	Determine and set two-sided printing for all print jobs with Rough or Cotton as the paper type.
Custom [x] Loading Duplex Off	Determine and set two-sided printing for all print jobs with Custom [x] as the paper type. <b>Note:</b> Custom [x] Loading is available only when the custom type is supported.

Notes:

• Off is the factory default setting for all Paper Loading menu selections.

• Duplex sets the printer default to two-sided printing for every print job unless one-sided printing is selected from Print Properties or the print dialog, depending on your operating system.

# Custom Types menu

Use	То
<b>Custom Type [x]</b> Paper Card Stock	Associate a paper or specialty media type with a factory default custom type name or a user-defined custom name created from the Embedded Web Server or from MarkVision <sup>™</sup> Professional.
Transparency Rough/Cotton Labels Envelope	<ul> <li>Notes:</li> <li>Paper is the factory default setting.</li> <li>The custom media type must be supported by the selected tray or multipurpose feeder in order to print from that source.</li> </ul>
Recycled Paper Card Stock Transparency Rough/Cotton Labels Envelope	<ul> <li>Specify a paper type when Recycled is selected in other menus.</li> <li>Notes: <ul> <li>Paper is the factory default setting.</li> <li>The custom media type must be supported by the selected tray or multipurpose feeder in order to print from that source.</li> </ul> </li> </ul>

## **Custom Names menu**

Use	То
Custom Name [x]	Specify a custom name for a paper type. This name replaces Custom Type [x] in the printer menus.

### **Custom Scan Sizes menu**

Use	То
Custom Scan Size [x]	Specify a custom scan size name, scan sizes, and options. The custom
Scan Size Name	scan size name replaces Custom Scan Size [x] in the printer menus.
Width	
1–11.69 inches (25–297 mm)	
Height	
1–17 inches (22–432 mm)	
Orientation	
Portrait	
Landscape	
2 scans per side	
Off	
On	

### **Custom Bin Names menu**

Use	То
Standard Bin	Specify a custom name for the standard bin.

Use	То
Bin [x]	Specify a custom name for Bin [x].

# **Universal Setup menu**

Use	То
<b>Units of Measure</b> Inches Millimeters	Identify the units of measure.
	Notes:
	<ul> <li>Inches is the U.S. factory default setting.</li> <li>Millimeters is the international factory default setting.</li> </ul>
Portrait Width	Set the portrait width.
3.54–48 inches 89.9–1219 mm	Notes:
	<ul> <li>If the width exceeds the maximum, then the printer uses the maximum width allowed.</li> </ul>
	• 12 inches is the U.S. factory default setting. You can increase the width in 0.01-inch increments.
	<ul> <li>305 mm is the international factory default setting. You can increase the width in 1-mm increments.</li> </ul>
Portrait Height 5.5–48 inches 139.7–1219 mm	Set the portrait height.
	Notes:
	<ul> <li>If the height exceeds the maximum, then the printer uses the maximum height allowed.</li> </ul>
	<ul> <li>17 inches is the U.S. factory default setting. You can increase the height in 0.01-inch increments.</li> </ul>
	<ul> <li>432 mm is the international factory default setting. You can increase the height in 1-mm increments.</li> </ul>
Feed Direction Short Edge	Specify the feed direction if the paper can be loaded in either direction.
Long Edge	Notes:
	<ul> <li>Short Edge is the factory default setting.</li> </ul>
	<ul> <li>Long Edge appears only when the longest edge is shorter than the maximum width supported in the tray.</li> </ul>

# Bin Setup menu

Use	То
Output Bin	Specify the default bin.
Standard Bin	<b>Note:</b> Standard Bin is the factory default setting.
Bin [x]*	
* [x] can be any number from 1 to 4 if the appropriate optional bins are installed. If multiple bins are assigned the	

same name, then the name appears only once in the bin list.

Use	То
Configure Bins	Specify configuration options for bins.
Mailbox	Notes:
Link	
Link Optional	<ul> <li>Mailbox is the factory default setting. This treats each bin as a separate mailbox.</li> </ul>
Type Assignment	<ul> <li>Link configures all available bins as one large bin</li> </ul>
	<ul> <li>Link Optional links together all available bins except the standard bin and only appears when at least two optional bins are installed.</li> </ul>
	<ul> <li>Type Assignment assigns each paper type to a bin or linked bin set.</li> </ul>
Overflow Bin	Specify an alternative bin when a designated bin is ful
Standard Bin	Notes:
Bin [x]*	<ul> <li>This menu appears only when optional bins are installed.</li> </ul>
	<ul> <li>Standard Bin is the factory default setting.</li> </ul>
Assign Type/Bin	Select a bin for each supported paper type.
Plain Paper Bin	For each type, select from the following options:
Card Stock Bin	Disabled
Transparency Bin	Standard Bin
Recycled Bin	Bin [x]*
Glossy Bin	<b>Note:</b> Disabled is the factory default setting.
Heavy Glossy Bin	
Labels Bin	
Bond Bin	
Envelope Bin	
Rough Envelope Bin	
Letterhead Bin	
Preprinted Bin	
Colored Bin	
Light Paper Bin	
Heavy Paper Bin	
Rough/Cotton Bin	
Custom [x] Bin	

same name, then the name appears only once in the bin list.

# **Reports menu**

# **Reports menu**

Use	То
Menu Settings Page	Print a report containing information about the paper loaded in trays, installed memory, total page count, alarm settings, timeouts, control panel language, TCP/IP address, status of supplies, status of the network connection, and other information.
Device Statistics	Print a report containing printer statistics such as supply information and number of printed pages.
Stapler Test	Print a report that confirms that the staple finisher is functioning properly.
	<b>Note:</b> This menu item appears only when a supported staple finisher is installed.
Network Setup Page	Print a report containing information about the network printer settings, such as the TCP/IP address information.
	<b>Note:</b> This menu item appears only in network printers or printers connected to print servers.
Network [x] Setup Page	Print a report containing information about the network printer settings, such as the TCP/IP address information.
	<b>Note:</b> This menu item appears only in network printers or in printers connected to print servers, and when there is more than one network option installed.
Shortcut List	Print a report containing information about configured shortcuts.
Fax Job Log	Print a report containing information about the last 200 completed faxes.
	<b>Note:</b> This menu item appears only when Enable Job Log in the Fax Settings menu is set to On.
Fax Call Log	Print a report containing information about the last 100 attempted, received, and blocked calls.
	<b>Note:</b> This menu item appears only when Enable Job Log in the Fax Settings menu is set to On.
Copy Shortcuts	Print a report containing information about copy shortcuts.
E-mail Shortcuts	Print a report containing information about e-mail shortcuts.
Fax Shortcuts	Print a report containing information about fax shortcuts.
FTP Shortcuts	Print a report containing information about FTP shortcuts.
Profiles List	Print a list of profiles stored in the printer.
Print Fonts	Print a report of all the fonts available for the printer language currently set in the printer.

Use	То
Print Directory	Print a list of all the resources stored in an optional flash memory card or printer hard disk.
	Notes:
	• Job Buffer Size must be set to 100%.
	• Make sure that the flash memory or hard disk is working and installed correctly.
Asset Report	Print a report containing asset information including the printer serial number and model name.

# **Network/Ports menu**

### Active NIC menu

Use	То
Active NIC	Allow the printer to connect to a network.
Auto [list of available network cards]	Notes:
	<ul> <li>Auto is the factory default setting.</li> </ul>
	• This menu item appears only if an optional network adapter is installed.

# Standard Network or Network [x] menu

Use	То
Energy Efficient Ethernet Enable	Reduce power consumption when the printer receives no data from the Ethernet network.
Disable	<b>Note:</b> Enable is the factory default setting.
PCL SmartSwitch On	Set the printer to automatically switch to PCL emulation when a print job requires it, regardless of the default printer language.
Off	Notes:
	On is the factory default setting.
	<ul> <li>If PCL SmartSwitch is disabled, then the printer does not examine incoming data and it uses the default printer language specified in the Setup menu.</li> </ul>

Use	То
PS SmartSwitch On	Set the printer to automatically switch to PS emulation when a print job requires it, regardless of the default printer language.
Off	Notes:
	On is the factory default setting.
	<ul> <li>If PS SmartSwitch is disabled, then the printer does not examine incoming data and it uses the default printer language specified in the Setup menu.</li> </ul>
NPA Mode Off	Set the printer to perform the special processing required for bidirectional communication following the conventions defined by the NPA protocol.
Auto	Notes:
	Auto is the factory default setting.
	• The printer automatically restarts when the setting is changed from the control panel.
Network Buffer	Set the size of the network input buffer.
Auto	Notes:
3KB to [maximum size allowed]	Auto is the factory default setting.
	• The maximum size allowed depends on the amount of memory in the printer, the size of the other link buffers, and whether Resource Save is set to On or Off.
	• To increase the maximum size range for the Network Buffer, disable or reduce the size of the parallel, serial, and USB buffers.
	• The printer automatically restarts when the setting is changed from the control panel.
Job Buffering Off	Temporarily store print jobs in the printer hard disk before printing. This menu only appears when a formatted disk is installed.
On	Notes:
Auto	Off is the factory default setting.
	• The printer automatically restarts when the setting is changed from the control panel. The menu selection is then updated.
Mac Binary PS	Set the printer to process Macintosh binary PostScript print jobs.
On	Note: Auto is the factory default setting.
Off	
Auto	
Standard Network Setup OR Network [x] Setup	Show and set the printer network settings.
Reports	<b>Note:</b> The Wireless menu appears only when the printer is connected to a wireless network.
Network Card	
TCP/IP	
IPv6	
Wireless	
AppleTalk	

### **Reports menu**

To access the menu, navigate to either of the following:

- Network/Ports > Standard Network > Standard Network Setup > Reports
- Network/Ports > Network [x] > Network [x] Setup > Reports

Use		То
Print Se	tup Page	Print a report containing information about the network printer settings, such as the TCP/IP address.

### Network Card menu

To access the menu, navigate to either of the following:

- Network/Ports > Standard Network > Standard Network Setup > Network Card
- Network/Ports > Network [x] > Network [x] Setup > Network Card

Use	То
<b>View Card Status</b> Connected Disconnected	View the connection status of the wireless network adapter.
View Card Speed	View the speed of an active wireless network adapter.
Network Address UAA LAA	View the network addresses.
<b>Job Timeout</b> 0, 10–225 seconds	Set the amount of time it takes for a network print job to be canceled. Notes:
	<ul> <li>"90 seconds" is the factory default setting.</li> <li>A setting value of 0 disables the timeout.</li> <li>If a value between 1 and 9 is selected, then <b>Invalid</b> appears on the display, and the value is not saved.</li> </ul>
Banner Page Off On	Allow the printer to print a banner page. <b>Note:</b> Off is the factory default setting.

### TCP/IP menu

To access the menu, navigate to either of the following:

- Network/Ports > Standard Network > Standard Network Setup > TCP/IP
- Network/Ports > Network [x] > Network [x] Setup > TCP/IP

Note: This menu is available only in network printers or printers attached to print servers.

Use	То
Set Hostname	Set the current TCP/IP host name.
	Note: This can be changed only from the Embedded Web Server.

Use	То
IP Address	View or change the current TCP/IP address.
	<b>Note:</b> Manually setting the IP address sets the Enable DHCP and Enable Auto IP settings to Off. It also sets Enable BOOTP and Enable RARP to Off on systems that support BOOTP and RARP.
Netmask	View or change the current TCP/IP netmask.
Gateway	View or change the current TCP/IP gateway.
Enable DHCP	Specify the DHCP address and parameter assignment.
On Off	<b>Note:</b> On is the factory default setting.
Enable RARP	Specify the RARP address assignment setting.
On Off	<b>Note:</b> Off is the factory default setting.
Enable BOOTP	Specify the BOOTP address assignment setting.
On Off	<b>Note:</b> On is the factory default setting.
Enable AutoIP	Specify the Zero Configuration Networking setting.
Yes No	<b>Note:</b> Yes is the factory default setting.
Enable FTP/TFTP Yes	Enable the built-in FTP server, which lets you send files to the printer using File Transfer Protocol.
No	Note: Yes is the factory default setting.
Enable HTTP Server Yes No	Enable the built-in Web server (Embedded Web Server). When enabled, the printer can be monitored and managed remotely using a Web browser. <b>Note:</b> Yes is the factory default setting.
WINS Server Address	View or change the current WINS server address.
Enable DDNS Yes No	View or change the current DDNS setting. Note: Yes is the factory default setting.
Enable mDNS Yes No	View or change the current mDNS setting. <b>Note:</b> Yes is the factory default setting.
DNS Server Address	View or change the current DNS server address.
Backup DNS Server Address	View or change the backup DNS server addresses.
Backup DNS Server Address 2	
Backup DNS Server Address 3	
Enable HTTPS	View or change the current HTTPS setting.
Yes No	Note: Yes is the factory default setting.

## IPv6 menu

To access the menu, navigate to any of the following:

- Network/Ports menu > Standard Network > Standard Network Setup > IPv6
- Network/Ports menu > Network [x] > Network [x] Setup > IPv6

Note: This menu is available only in network printers or printers that are attached to print servers.

Use	То
Enable IPv6	Enable IPv6 in the printer.
On	Note: On is the factory default setting.
Off	
Auto Configuration	Specify whether or not the network adapter accepts the automatic
On	IPv6 address configuration entries provided by a router.
Off	<b>Note:</b> On is the factory default setting.
Set Hostname	Set the host name.
View Address	<b>Note:</b> These settings can be changed only from the Embedded Web Server.
View Router Address	
Enable DHCPv6	Enable DHCPv6 in the printer.
On	Note: On is the factory default setting.
Off	

### Wireless menu

**Note:** This menu is available only in printers connected to a wireless network or printer models that have a wireless network adapter.

To access the menu, navigate to:

Use	То
Wi-Fi Protected Setup	Establish a wireless network and enable network security.
Start Push Button Method	Notes:
Start PIN Method	• Start Push Button Method connects the printer to a wireless network when buttons on both the printer and the access point (wireless router) are pressed within a given period of time.
	• Start PIN Method connects the printer to a wireless network when a PIN on the printer is entered into the wireless settings of the access point.
Enable/Disable WPS Auto-detection Enable	Automatically detect the connection method that an access point with WPS uses—Start Push Button Method or Start PIN Method.
Disable	Note: Disable is the factory default setting.

Use	То
Network Mode	Specify the network mode.
BSS Type Infrastructure Ad hoc	<ul> <li>Notes:</li> <li>Infrastructure is the factory default setting. This lets the printer access a network using an access point.</li> <li>Ad hoc configures wireless connection directly between the printer and a computer.</li> </ul>
<b>Compatibility</b> 802.11b/g 802.11b/g/n	Specify the wireless standard for the wireless network. <b>Note:</b> 802.11b/g/n is the factory default setting.
Choose Network	Select an available network for the printer to use.
View Signal Quality	View the quality of the wireless connection.
View Security Mode	View the encryption method for the wireless network.

# AppleTalk menu

To access the menu, navigate to either of the following:

- Network/Ports > Standard Network > Standard Network Setup > AppleTalk
- Network/Ports > Network [x] > Network [x] Setup > AppleTalk

Use	То
Activate	Enable or disable AppleTalk support.
Yes No	<b>Note:</b> No is the factory default setting.
View Name	Show the assigned AppleTalk name.
	<b>Note:</b> The AppleTalk name can be changed only from the Embedded Web Server.
View Address	Show the assigned AppleTalk address.
	<b>Note:</b> The AppleTalk address can be changed only from the Embedded Web Server.
Set Zone	Provide a list of AppleTalk zones available on the network.
[list of zones available on the network]	<b>Note:</b> The default zone for the network is the factory default setting.

### Standard USB menu

Use	То
PCL SmartSwitch On Off	Set the printer to automatically switch to PCL emulation when a print job received through a USB port requires it, regardless of the default printer language.
	Notes:
	On is the factory default setting.
	• When set to Off, the printer does not examine incoming data. The printer uses PostScript emulation if the PS SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if the PS SmartSwitch is set to Off.
PS SmartSwitch On	Set the printer to automatically switch to PS emulation when a print job received through a USB port requires it, regardless of the default printer language.
Off	Notes:
	On is the factory default setting.
	• When set to Off, the printer does not examine incoming data. The printer uses PCL emulation if the PCL SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if the PCL SmartSwitch is set to Off.
NPA Mode On	Set the printer to perform the special processing required for bidirectional communication following the conventions defined by the NPA protocol.
Off	Notes:
Auto	<ul> <li>Auto is the factory default setting. Auto sets the printer to examine data, determine the format, and then process it appropriately.</li> </ul>
	<ul> <li>The printer automatically restarts when changing the setting from the printer control panel. The menu selection is then updated.</li> </ul>
USB Buffer	Set the size of the USB input buffer.
Disabled	Notes:
Auto 3K to [maximum size allowed]	<ul> <li>Auto is the factory default setting.</li> <li>Disabled turns off job buffering. Any jobs already buffered on the printer hard disk are printed before normal processing resumes.</li> </ul>
	• The USB buffer size value can be changed in 1-K increments.
	• The maximum size allowed depends on the amount of memory in the printer, the size of the other link buffers, and whether Resource Save is set to On or Off.
	<ul> <li>To increase the maximum size range for the USB Buffer, disable or reduce the size of the parallel, serial, and network buffers.</li> </ul>
	• The printer automatically restarts when the setting is changed from the printer control panel. The menu selection is then updated.

Use	То
Job Buffering	Temporarily store print jobs in the printer hard disk before printing.
Off	Notes:
On Auto	Off is the factory default setting.
	On buffers jobs on the printer hard disk.
	<ul> <li>Auto buffers print jobs only if the printer is busy processing data from another input port.</li> </ul>
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.
Mac Binary PS	Set the printer to process Macintosh binary PostScript print jobs.
On	Notes:
Off Auto	<ul> <li>Auto is the factory default setting.</li> </ul>
Auto	<ul> <li>On processes raw binary PostScript print jobs.</li> </ul>
	Off filters print jobs using the standard protocol.
ENA Address	Set the network address information for an external print server.
<u> </u>	<b>Note:</b> This menu is available only when the printer is attached to an external print server through the USB port.
ENA Netmask	Set the netmask information for an external print server.
<u> Ууу.ууу.ууу.ууу</u>	<b>Note:</b> This menu is available only when the printer is attached to an external print server through the USB port.
ENA Gateway	Set the gateway information for an external print server.
ууу.ууу.ууу.ууу	<b>Note:</b> This menu is available only when the printer is attached to an external print server through the USB port.

# Parallel [x] menu

Note: This menu appears only when an optional parallel card is installed.

Use	То
PCL SmartSwitch On Off	Set the printer to automatically switch to PCL emulation when a print job received through a serial port requires it, regardless of the default printer language.
	Notes:
	On is the factory default setting.
	• When set to Off, the printer does not examine incoming data. The printer uses PostScript emulation if PS SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if PS SmartSwitch is set to Off.

Use	То
PS SmartSwitch On	Set the printer to automatically switch to PS emulation when a print job received through a serial port requires it, regardless of the default printer language.
Off	Notes:
	On is the factory default setting.
	<ul> <li>When set to Off, the printer does not examine incoming data. The printer uses PCL emulation if PCL SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if PCL SmartSwitch is set to Off.</li> </ul>
NPA Mode On	Set the printer to perform the special processing required for bidirectional communication following the conventions defined by the NPA protocol.
Off	Notes:
Auto	Auto is the factory default setting.
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.
Parallel Buffer	Set the size of the parallel input buffer.
Disabled	Notes:
Auto 3K to [maximum size allowed]	Auto is the factory default setting.
	• Disabled turns off job buffering. Any print jobs already buffered on the printer hard disk are printed before normal processing resumes.
	• The parallel buffer size setting can be changed in 1-KB increments.
	• The maximum size allowed depends on the amount of memory in the printer, the size of the other link buffers, and whether Resource Save is set to On or Off.
	<ul> <li>To increase the maximum size range for the Parallel Buffer, disable or reduce the size of the USB, serial, and network buffers.</li> </ul>
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.
Job Buffering	Temporarily store print jobs on the printer hard disk before printing.
Off On	Notes:
Auto	Off is the factory default setting.
	<ul> <li>On buffers print jobs on the printer hard disk.</li> </ul>
	<ul> <li>Auto buffers print jobs only if the printer is busy processing data from another input port.</li> </ul>
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.
Advanced Status	Enable bidirectional communication through the parallel port.
On Off	Notes:
Off	• On is the factory default setting.
	Off disables parallel port negotiation.

Use	То
Protocol	Specify the parallel port protocol.
Standard Fastbytes	Notes:
	<ul> <li>Fastbytes is the factory default setting. It provides compatibility with most existing parallel ports and is the recommended setting.</li> <li>Standard tries to resolve parallel port communication problems.</li> </ul>
Honor Init	
On	Determine if the printer honors printer hardware initialization requests from the computer.
Off	Notes:
	Off is the factory default setting.
	• The computer requests initialization by activating the Init signal from the parallel port. Many personal computers activate the Init signal each time the computer is turned on.
Parallel Mode 2	Determine if the parallel port data is sampled on the leading or trailing edge of a strobe.
On Off	<b>Note:</b> On is the factory default setting.
Mac Binary PS	Set the printer to process Macintosh binary PostScript print jobs.
On	Notes:
Off Auto	<ul> <li>Auto is the factory default setting.</li> </ul>
Auto	Off filters print jobs using the standard protocol.
	On processes raw binary PostScript print jobs.
ENA Address	Set the network address information for an external print server.
<u>ууу.ууу.ууу.ууу</u>	<b>Note:</b> This menu item is available only if the printer is attached to an external print server through the USB port.
ENA Netmask	Set the netmask information for an external print server.
<i>ууу.ууу.ууу.</i> ууу	<b>Note:</b> This menu item is available only if the printer is attached to an external print server through the USB port.
ENA Gateway	Set the gateway information for an external print server.
ууу.ууу.ууу.ууу	<b>Note:</b> This menu item is available only if the printer is attached to an external print server through the USB port.

# Serial [x] menu

Note: This menu appears only when an optional serial card is installed.

Use	То
PCL SmartSwitch On Off	Set the printer to automatically switch to PCL emulation when a print job received through a serial port requires it, regardless of the default printer language.
	Notes:
	On is the factory default setting.
	• When set to Off, the printer does not examine incoming data. The printer uses PostScript emulation if PS SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if PS SmartSwitch is set to Off.
PS SmartSwitch On	Set the printer to automatically switch to PS emulation when a print job received through a serial port requires it, regardless of the default printer language.
Off	Notes:
	On is the factory default setting.
	<ul> <li>When set to Off, the printer does not examine incoming data. The printer uses PCL emulation if PCL SmartSwitch is set to On. It uses the default printer language specified in the Setup menu if PCL SmartSwitch is set to Off.</li> </ul>
NPA Mode On	Set the printer to perform the special processing required for bidirectional communication following the conventions defined by the NPA protocol.
Off	Notes:
Auto	• Auto is the factory default setting. Auto sets the printer to examine data, determine the format, and then processes it appropriately.
	<ul> <li>When set to On, the printer performs NPA processing. If the data is not in NPA format, it is rejected as bad data.</li> </ul>
	• When set to Off, the printer does not perform NPA processing.
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.
Serial Buffer	Set the size of the serial input buffer.
Disabled Auto	Notes:
3K to [maximum size allowed]	Auto is the factory default setting.
	• Disabled turns off job buffering. Any jobs already buffered on the disk are printed before normal processing is resumed.
	• The serial buffer size setting can be changed in 1-KB increments.
	• The maximum size allowed depends on the amount of memory in the printer, the size of the other link buffers, and whether Resource Save is set to On or Off.
	<ul> <li>To increase the maximum size range for the Serial Buffer, disable or reduce the size of the parallel, serial, and network buffers.</li> </ul>
	• Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.

Use	То
Job Buffering	Temporarily store print jobs on the printer hard disk before printing.
Off	Notes:
On	Off is the factory default setting. The printer does not buffer print jobs on
Auto	the printer hard disk.
	<ul> <li>On buffers print jobs on the printer hard disk.</li> </ul>
	<ul> <li>Auto buffers print jobs only if the printer is busy processing data from another input port.</li> </ul>
	<ul> <li>Changing this setting from the printer control panel and then exiting the menus causes the printer to restart. The menu selection is then updated.</li> </ul>
Protocol	Select the hardware and software handshaking settings for the serial port.
DTR	Notes:
DTR/DSR	
XON/XOFF	<ul> <li>DTR is the factory default setting.</li> <li>DTR/DCR is a local base based by the setting.</li> </ul>
XON/XOFF/DTR	<ul> <li>DTR/DSR is a hardware handshaking setting.</li> <li>XON/XOFF is a setting handshaking setting.</li> </ul>
XONXOFF/DTRDSR	XON/XOFF is a software handshaking setting.
	<ul> <li>XON/XOFF/DTR and XON/XOFF/DTR/DSR are combined hardware and software handshaking settings.</li> </ul>
Robust XON	Determine whether the printer communicates availability to the computer.
On	Notes:
Off	Off is the factory default setting.
	<ul> <li>This menu item applies only to the serial port if Serial Protocol is set to</li> </ul>
	XON/XOFF.
Baud	Specify the rate at which data can be received through the serial port.
1200	Notes:
2400	9600 is the factory default setting
4800	<ul><li>9600 is the factory default setting.</li><li>138200, 172800, 230400, and 345600 baud rates are only displayed in</li></ul>
9600	the Standard Serial menu. These settings do not appear in the Serial
19200	Option 1, Serial Option 2, or Serial Option 3 menus.
38400	
57600	
115200 138200	
172800	
230400	
345600	
Data Bits	Specify the number of data bits sent in each transmission frame.
7	<b>Note:</b> 8 is the factory default setting.
8	Hote. O is the factory default setting.
Parity	Set the parity for serial input and output data frames.
Even	<b>Note:</b> None is the factory default setting.
Odd	
None	
Ignore	

Use	То
Honor DSR	Determine whether the printer uses the DSR Signal.
On	Notes:
Off	Off is the factory default setting.
	• DSR is a handshaking signal used by most serial cables. The serial port uses DSR to distinguish data sent by the computer from data created by electrical noise in the serial cable. The electrical noise can cause stray characters to print. Set this to On to prevent stray characters from printing.

# SMTP Setup menu

Use	То
Primary SMTP Gateway	Specify SMTP server gateway and port information.
Primary SMTP Gateway Port	<b>Note:</b> 25 is the default SMTP gateway port.
Secondary SMTP Gateway	
Secondary SMTP Gateway Port	
SMTP Timeout 5–30	Specify the amount of time in seconds before the server stops trying to send an e-mail.
	<b>Note:</b> 30 seconds is the factory default setting.
Reply Address	Specify a reply address of up to 128 characters in the e-mail sent by the printer.
Use SSL Disabled	Set the printer to use SSL for increased security when connecting to the SMTP server.
Negotiate	Notes:
Required	<ul> <li>Disabled is the factory default setting.</li> </ul>
	<ul> <li>When the Negotiate setting is used, the SMTP server determines if SSL will be used.</li> </ul>
SMTP Server Authentication No authentication required	Specify the type of user authentication required for scan-to e-mail privileges.
Login/Plain	<b>Note:</b> "No authentication required" is the factory default setting.
CRAM-MD5	
Digest-MD5	
NTLM	
Kerberos 5	

Use	То
<b>Device-Initiated E-mail</b> None Use Device SMTP Credentials	Specify what credentials will be used when communicating to the SMTP server. Some SMTP servers require credentials to send an e-mail.
User-Initiated E-mail <sup>*</sup>	Notes:
None Use Device SMTP Credentials Use Session User ID & Password Use Session E-mail address & Password Prompt User	<ul> <li>None is the factory default setting for Device-Initiated E-mail and User-Initiated E-mail.</li> <li>Device Userid and Device Password are used to log in to the SMTP server when Use Device SMTP Credentials is selected.</li> </ul>
Device Userid	
Device Password	
Kerberos 5 Realm	
NTLM Domain

Cancel jobs at the Device	

# **Miscellaneous Security Settings menu**

Use	То
Login Restrictions Login failures	Limit the number and time frames of failed login attempts from the printer control panel before <i>all</i> users are locked out.
Failure time frame	Notes:
Lockout time Panel Login Timeout Remote Login Timeout	• "Login failures" specifies the number of failed login attempts before users are locked out. Settings range from 1 to 10 attempts. "3 attempts" is the factory default setting.
	• "Failure time frame" specifies the time frame during which failed login attempts can be made before users are locked out. Settings range from 1 to 60 minutes. "5 minutes" is the factory default setting.
	• "Lockout time" specifies how long users are locked out after exceeding the login failures limit. Settings range from 1 to 60 minutes. "5 minutes" is the factory default setting. 1 indicates that the printer does not impose a lockout time.
	• Panel Login Timeout specifies how long the printer remains idle on the home screen before automatically logging off the user. Settings range from 1 to 900 seconds. "30 seconds" is the factory default setting.
	• Remote Login Timeout specifies how long a remote interface remains idle before automatically logging off the user. Settings range from 1 to 120 minutes. "10 minutes" is the factory default setting.
Security Reset Jumper	Adjust the security settings.
No Effect	Notes:
Access controls="No Security" Reset factory security defaults	<ul> <li>No Effect means the reset has no effect on the printer security configuration.</li> </ul>
	<ul> <li>Access controls='No Security' retains all the security information that the user has defined. No Security is the factory default setting.</li> </ul>
	<ul> <li>"Reset factory security defaults" deletes all security information that the user has defined, and restores the factory default settings in the Miscellaneous Security menu.</li> </ul>

Use	То
LDAP Certificate Verification	Allow the user to request a server certificate.
Demand -	Notes:
Try Allow Never	• "Demand" is the factory default setting. This means a server certificate is requested. If a bad certificate is provided or if no certificate is provided, then the session is terminated immediately.
	• "Try " means a server certificate is requested. If no certificate is provided, then the session proceeds normally. If a bad certificate is provided, then the session is terminated immediately.
	<ul> <li>"Allow" means a server certificate is requested. If no certificate is provided, then the session proceeds normally. If a bad certificate is provided, then it will be ignored and the session proceeds normally.</li> <li>"Never" means no server certificate is requested.</li> </ul>
Minimum PIN Length	Limit the digit length of the personal identification number (PIN).
1–16	Note: 4 is the factory default setting.

### **Confidential Print menu**

Use	То	
Max Invalid PIN	Set a limit on the number of times an invalid PIN can be entered.	
Off 2–10	Notes:	
	<ul> <li>This menu item appears only when a formatted, working printer hard disk is installed.</li> </ul>	
	<ul> <li>When the limit is reached, the print jobs for that user name and PIN are deleted.</li> </ul>	
<b>Confidential Job Expiration</b>	Set a limit on how long the printer stores confidential print jobs.	
Off 1 hour 4 hours 24 hours 1 week	<ul> <li>Notes:</li> <li>If the "Confidential Job Expiration" setting is changed while confidential print jobs reside in the printer memory or printer hard disk, then the expiration time for those print jobs does not change to the new default value.</li> <li>If the printer is turned off, then all confidential jobs held in the printer memory are deleted.</li> </ul>	
Repeat Job Expiration Off 1 hour 4 hours 24 hours 1 week	Set a limit on how long the printer stores print jobs.	
Note: Off is the factory default setting.		

Use	То
Verify Job Expiration	Set a limit on how long the printer stores print jobs needing verification.
Off	
1 hour	
4 hours	
24 hours	
1 week	
<b>Reserve Job Expiration</b>	Set a limit on how long the printer stores print jobs for printing at a later time.
Off	
1 hour	
4 hours	
24 hours	
1 week	

### **Erase Temporary Data Files menu**

Erase Temporary Data Files deletes *only* print job data on the printer hard disk that *are not* currently in use by the file system. All permanent data on the printer hard disk are preserved, such as downloaded fonts, macros, and held jobs.

Use	То
Wiping Mode	Specify the mode for erasing temporary data files.
Auto	
Automatic Method	Mark all disk space used by a previous print job. This method does not permit
Single pass	the file system to reuse this space until it has been cleared.
Multiple pass	Notes:
	• "Single pass" is the factory default setting.
	<ul> <li>Only automatic wiping enables users to erase temporary data files without having to turn off the printer for an extended amount of time.</li> </ul>
	<ul> <li>Highly confidential information should be erased using only the Multiple pass method.</li> </ul>

Note: This menu appears only when a formatted, working printer hard disk is installed.

### Security Audit Log menu

Use	То
Export Log	Enable an authorized user to export the security log.
	Notes:
	• To export the log from the printer control panel, attach a flash drive to the printer.
	<ul> <li>To export the log from the Embedded Web Server, download the log to a computer.</li> </ul>

Use	То
<b>Delete Log</b> Yes No	Specify whether audit logs are deleted.
Configure Log Enable Audit Yes No Enable Remote Syslog No Yes Remote Syslog Server [256 character string] Remote Syslog Port 1–65535 Remote Syslog Method Normal UDP Stunnel Remote Syslog Facility 0–23 Log full behavior Wrap over oldest entries E-mail log then delete all entries	<ul> <li>Specify how audit logs are configured.</li> <li>Notes: <ul> <li>Enable Audit determines if events are recorded in the secure audit log and remote syslog. No is the factory default setting.</li> <li>Enable Remote Syslog determines if logs are sent to a remote server. No is the factory default setting.</li> <li>Remote Syslog Server determines the value used to send logs to the remote syslog server.</li> <li>Remote Syslog Port identifies the port over which the printer transmits logged events to a remote server.</li> <li>Remote Syslog Method identifies the protocol used by the printer to transmit logged events to a remote server. Normal UDP is the factory default setting.</li> <li>Remote Syslog Facility determines the Facility value that the printer uses when sending events to the remote syslog server. 4 is the factory default setting.</li> <li>"Log full behavior" determines how the printer resolves if the log entirely fills its allotted memory. "Wrap over oldest entries" is the factory default setting.</li> </ul> </li> </ul>

Use	То
Configure Log (continued) Admin's e-mail address [256 character string] Digitally sign exports Off On Severity of events to log	<ul> <li>Specify how audit logs are configured.</li> <li>Notes: <ul> <li>"Admin's e-mail address" determines if administrators are automatically notified of certain log events. This setting can have one or more e-mail addresses (separated by commas).</li> <li>"Digitally sign exports" determines if the printer automatically signs each exported security log. Off is the factory default setting.</li> </ul> </li> </ul>
0–7 Remote Syslog non-logged events No Yes E-mail log cleared alert No Yes	<ul> <li>"Severity of events to log" records the severity value of each event. 4 is the factory default setting.</li> <li>"Remote Syslog non-logged events" determines if the printer sends events to the remote server that have a severity level greater than the value of the "Severity of events to log" setting. No is the factory default setting.</li> <li>"E-mail log cleared alert" determines if the printer sends an e-mail to</li> </ul>
E-mail log wrapped alert No Yes E-mail % full alert No Yes % full alert level 1–99 E-mail log exported alert	<ul> <li>the administrator every time a log is deleted through the printer control panel or EWS. No is the factory default setting.</li> <li>"E-mail log wrapped alert" determines if the printer sends the administrator an e-mail when log entries are wrapping. No is the factory default setting.</li> <li>"E-mail % full alert" determines if the printer sends the administrator an e-mail when the log fills a certain amount of its allotted space. No is the factory default setting.</li> <li>"% full alert level" determines if the space occupied by log equals or exceeds the value of the full alert level. 90 is the factory default</li> </ul>
No Yes E-mail log settings changed alert No Yes Log line endings LF (\n) CR (\r) CRLF (\r\n)	<ul> <li>setting.</li> <li>"E-mail log exported alert" determines if the printer sends the administrator an e-mail when there is a log exported. No is the factory default setting.</li> <li>"E-mail log settings changed alert" determines if the printer sends the administrator an e-mail when the value of the Enable Audit Log setting is toggled. No is the factory default setting.</li> <li>"Log line endings" specifies how line endings will be handled in the log file, depending on the operating system in which the file will be parsed or viewed. "LF (\n)" is the factory default setting.</li> </ul>

### Set Date and Time menu

Use	То	
Current Date and Time	View the current date and time settings for the scanner.	
Manually Set Date and Time	Enter the date and time.	
	Note: Date/Time is set in YYYY-MM-DD HH:MM:SS format.	
Time Zone	Select the time zone.	
	Note: GMT is the factory default setting.	

Use	То
Automatically Observe DST On	Set the scanner to use the applicable daylight saving time (DST) start and end times associated with the scanner Time Zone setting.
Off	<b>Note:</b> On is the factory default setting and uses the applicable Daylight Saving Time associated with the Time Zone setting.
Custom Time Zone Setup	Enable the user to set up the time zone.
DST Start Week	
DST Start Day	
DST Start Month	
DST Start Time	
DST End Week	
DST End Day	
DST End Month	
DST End Time	
DST Offset	
Enable NTP	Enable Network Time Protocol, which synchronizes the clocks of devices on a
On	network.
Off	<b>Note:</b> On is the factory default setting.
NTP Server	View the NTP server address.
Enable Authentication	Enable the authentication setting.
On	Note: Off is the factory default setting.
Off

# **General Settings menu**

Use	То
Display Language	Set the language of the text appearing on the printer display.
English Francais Deutsch Italiano Espanol Dansk Norsk Norsk Nederlands Svenska Portuguese Suomi Russian Polski Greek Magyar Turkce Cesky Simplified Chinese Traditional Chinese Korean	Set the language of the text appearing on the printer display. Note: Not all languages are available for all printers, and you may need to install special hardware for those languages to appear.
Japanese Eco-Mode	Minimize the use of operativ paper or specialty modia
Off Energy Energy/Paper Paper	<ul> <li>Minimize the use of energy, paper, or specialty media.</li> <li>Notes: <ul> <li>Off is the factory default setting. This resets the printer to its factory default settings.</li> <li>Energy minimizes the power used by the printer. Performance may be affected, but print quality is not.</li> <li>Energy/Paper minimizes the use of power and paper specialty media.</li> <li>Paper minimizes the amount of paper and specialty media needed for a print job. Performance may be affected, but print quality is not.</li> </ul> </li> </ul>
<b>ADF Loaded Beep</b> Enabled Disabled	Specify whether the ADF sounds a beep when paper is loaded. <b>Note:</b> Enabled is the factory default setting.

Use	То
Quiet Mode	Reduce the amount of noise produced by the printer.
Off	Notes:
On	<ul> <li>Off is the factory default setting. This supports the performance specifications for your printer.</li> <li>On configures the printer to produce as little noise as possible. This is best suited for printing text and line art.</li> </ul>
	<ul> <li>For optimal printing of color-rich documents, set Quiet Mode to Off.</li> <li>Selecting Photo from the print driver may disable Quiet Mode and provide better print quality and full speed printing.</li> </ul>
Run Initial setup	Set the printer to run the setup wizard.
Yes	<b>Note:</b> Yes is the factory default setting. After completing the
No	setup wizard, the default becomes No.
KeyboardKeyboard TypeEnglishFrancaisFrancais CanadienDeutschItalianoEspanolGreekDanskNorskNederlandsSvenskaSuomiPortugueseRussianPolskiSwiss GermanSwiss FrenchKoreanMagyarTurkceCeskySimplified ChineseJapaneseCustom Key [x]	Specify a language and custom key information for the printer keyboard. The additional tabs enable access to accent marks and symbols from the keyboard.

Use	То
Paper Sizes	Specify the default paper measurement.
US	Notes:
Metric	<ul> <li>US is the factory default setting.</li> </ul>
	<ul> <li>The initial setting is determined by your country or region selection in the initial setup wizard.</li> </ul>
	<ul> <li>Changing this setting also changes the default setting for each input source in the Paper Size/Type menu.</li> </ul>
Scan to PC Port Range [port range]	Specify a valid port range for printers behind a port blocking firewall.
	<b>Note:</b> 9751:12000 is the factory default setting.
Displayed Information	Specify what is displayed on the upper left and right corners of the home screen.
Right side Custom Text [x]	For the Left side and Right side menus, select from the following options:
	None
	IP Address
	Hostname
	Contact Name
	Location
	Date/Time
	mDNS/DDNS Service Name
	Zero Configuration Name
	Custom Text [x]
	Model Name
	Notes:
	• IP Address is the factory default setting for Left side.
	• Date/Time is the factory default setting for Right side.

Use	То
Displayed Information (continued) Black Toner	Customize the displayed information for Black Toner. Select from the following options: When to display Do not display Display Message to Display Default Alternate Default [text entry] Alternate
	[text entry] Notes:
	<ul> <li>Do not display is the factory default setting for When to display.</li> <li>Default is the factory default setting for Message to Display.</li> </ul>
Displayed Information (continued) Waste Toner Bottle	Customize the displayed information for Waste Toner Bottle, Paper Jam, Load Paper, and Service Errors.
Paper Jam Load Paper Service Errors	Select from the following options: Display Yes No Message to display Default Alternate Default [text entry] Alternate [text entry] Notes: • No is the factory default setting for Display. • Default is the factory default setting for Message to

Use	То
Home screen customization	Change the icons that appear on the home screen.
Change Language	For each icon, select from the following options:
Сору	Display
Copy Shortcuts	Do Not display
Fax	Notes:
Fax Shortcuts E-mail E-mail Shortcuts	<ul> <li>Display is the factory default setting for Copy, Fax, E-mail, FTP, Search Held Jobs, Held Jobs, USB Drive, Forms and Favorites, Card Copy, Scan to Network,</li> </ul>
FTP	MyShortcut, and Multisend.
FTP Shortcuts Search Held Jobs Held Jobs USB Drive Profiles and Apps	<ul> <li>Do not display is the factory default setting for Change Language, Copy Shortcuts, Fax Shortcuts, E-mail Shortcuts, FTP Shortcuts, Profiles and Apps, Bookmarks, and Jobs by user.</li> </ul>

Jobs by user Forms and Favorites Card Copy Scan to Network MyShortcut Multi Send	
Date Format	Format the printer date.
MM-DD-YYYY DD-MM-YYYY YYYY-MM-DD	
	Notes:
	<ul><li>MM-DD-YYYY is the U.S. factory default setting.</li><li>DD-MM-YYYY is the international factory default setting.</li></ul>
Time Format	Format the printer time.
12 hour A.M./P.M. 24 hour clock	<b>Note:</b> 12 hour A.M./P.M. is the factory default setting.
Screen Brightness	Specify the brightness of the control panel screen.
20–100	<b>Note:</b> 100 is the factory default setting.
<b>One Page Copy</b> Off On	Set copies from the scanner glass to only one page at a time. <b>Note:</b> Off is the factory default setting.
Output Lighting	Set the amount of light from the standard bin.
Normal/Standby Mode	Notes:
Off Dim Bright	<ul> <li>Dim is the factory default setting if Eco-Mode is set to Energy or Energy/Paper.</li> </ul>
	<ul> <li>Bright is the factory default setting if Eco-Mode is set to Paper or Off.</li> </ul>

Use	То
Audio Feedback	Set the audio volume for the buttons.
Button Feedback	Notes:
On	• On is the factory default setting for Button Foodback
Off	<ul> <li>On is the factory default setting for Button Feedback.</li> <li>E is the factory default setting for Values.</li> </ul>
Volume	• 5 is the factory default setting for Volume.
1–10	
Show Bookmarks	Specify whether bookmarks are displayed from the Held Jobs
Yes	area.
No	<b>Note:</b> Yes is the factory default setting.
Allow Background Removal On	Specify whether image background removal is allowed in copy, fax, e-mail, FTP, or scan-to-USB jobs.
Off	<b>Note:</b> On is the factory default setting. The background of the image is removed.
Allow Custom Job Scans	Scan multiple jobs to one file.
On Off	<b>Note:</b> On is the factory default setting. If On is selected, then the Allow Custom Job Scans setting can be enabled for specific jobs.
Scanner Jam Recovery Job level	Specify how a scanned job should be reloaded if a paper jam occurs in the ADF.
Page level	Notes:
	<ul> <li>Job level is the factory default setting. If selected, then the entire job must be rescanned if any pages jam.</li> </ul>
	<ul> <li>If Page level is selected, then rescan from the jammed page forward.</li> </ul>
Web Page Refresh Rate 30–300	Specify the number of seconds between Embedded Web Server refreshes.
	<b>Note:</b> 120 is the factory default setting.
Contact Name	Specify a contact name for the printer.
	<b>Note:</b> The contact name is stored on the Embedded Web Server.
Location	Specify the location of the printer.
	<b>Note:</b> The location is stored on the Embedded Web Server.

Use	То
Alarms Alarm Control Cartridge Alarm Staple Alarm Hole Punch Alarm	<ul> <li>Set an alarm when the printer requires user intervention.</li> <li>For each alarm type, select from the following options: Off Single Continuous</li> <li>Notes: <ul> <li>Single is the factory default setting for Alarm Control. Single sounds three quick beeps.</li> <li>Off is the factory default setting for Cartridge Alarm, Staple Alarm, and Hole Punch Alarm.</li> <li>Continuous repeats three beeps every 10 seconds.</li> </ul> </li> </ul>
Timeouts Standby Mode Disabled 1–240	Specify the number of minutes of inactivity before the printer enters a lower power state. <b>Note:</b> 15 is the factory default setting.
Timeouts Sleep Mode Disabled 1–120	<ul> <li>Set the amount of time in minutes the printer waits after a job is printed before it goes into a reduced power state.</li> <li>Notes: <ul> <li>20 is the factory default setting.</li> <li>Disabled appears only when Energy Conserve is set to Off.</li> <li>Lower settings conserve more energy, but may require longer warm-up times.</li> <li>Select a high setting if the printer is in constant use. Under most circumstances, this keeps the printer ready to print with minimum warm-up time.</li> </ul> </li> </ul>
<b>Timeouts</b> Print with Display off Allow printing with display off Display on when printing	Allow the printer to print even when the display is off. <b>Note:</b> Allow printing with display off is the factory default setting.
Timeouts Hibernate Timeout Disabled 1 hour 2 hours 3 hours 6 hours 1 day 2 days 3 days 1 week 2 weeks 1 month	Set the amount of time before the printer enters Hibernate mode. Note: 3 days is the factory default setting.

Use	То
<b>Timeouts</b> Hibernate Timeout on Connection Do Not Hibernate Hibernate	Set the printer to Hibernate Timeout even when there is an active Ethernet connection. <b>Note:</b> Hibernate is the factory default setting.
<b>Timeouts</b> Screen Timeout 15–300	Set the amount of time in seconds the printer waits before returning to Ready state. <b>Note:</b> 30 is the factory default setting.
<b>Timeouts</b> Prolong Screen Timeout On Off	Set the printer to continue a specified job without returning to the home screen when the screen timeout timer expires. <b>Note:</b> Off is the factory default setting.
<b>Timeouts</b> Print Timeout Disabled 1–255	Set the amount of time in seconds the printer waits to receive an end-of-job message before canceling the rest of the print job. <b>Notes:</b> • 90 is the factory default setting.
	<ul> <li>When the timer expires, any partially printed page still in the printer is printed, and then the printer checks to see if any new print jobs are waiting.</li> <li>Print Timeout is available only when using PCL emulation. This has no effect on PostScript emulation print jobs.</li> </ul>
<b>Timeouts</b> Wait Timeout Disabled 15–65535	<ul> <li>Set the amount of time in seconds the printer waits for additional data before canceling a print job.</li> <li>Notes: <ul> <li>40 is the factory default setting.</li> <li>Wait Timeout is available only when the printer is using PostScript emulation. This has no effect on PCL emulation print jobs.</li> </ul> </li> </ul>
<b>Timeouts</b> Job Hold Timeout 5–255	<ul> <li>Set the amount of time the printer waits for user intervention before it holds jobs that require unavailable resources and continues to print other jobs in the print queue.</li> <li>Notes: <ul> <li>30 is the factory default setting.</li> <li>This menu appears only when a formatted printer hard disk is installed.</li> </ul> </li> </ul>
<b>Error Recovery</b> Auto Reboot Reboot when idle Reboot always Reboot never	Set the printer to restart when an error is encountered. <b>Note:</b> Reboot always is the factory default setting.

Use	То
Error Recovery Max Auto Reboots	Determine the number of automatic reboots the printer can perform.
1–20	<b>Note:</b> 2 is the factory default setting.
Print Recovery Auto Continue Disabled 5–255	Let the printer automatically continue printing from certain offline situations when not resolved within the specified time period. <b>Note:</b> Disabled is the factory default setting.
Print Recovery	Specify whether the printer reprints jammed pages.
Jam Recovery	Notes:
On Off Auto	<ul> <li>Auto is the factory default setting. The printer reprints jammed pages unless the memory required to hold the pages is needed for other printer tasks.</li> <li>On sets the printer to always reprint jammed pages.</li> <li>Off sets the printer to never reprint jammed pages.</li> </ul>
Print Recovery	Set the printer to automatically check for jammed paper.
Jam Assist	<b>Note:</b> On is the factory default setting.
On	
Off	
Print Recovery Page Protect	Let the printer successfully print a page that may not have printed otherwise.
Off	Notes:
On	<ul> <li>Off is the factory default setting. This prints a partial page when there is not enough memory to print the whole page.</li> <li>On sets the printer to process the whole page so that</li> </ul>
	the entire page prints.
Press Sleep Button Do Nothing	Determine how the printer responds when pressing the Sleep button while the printer is idle.
Sleep	Notes:
Hibernate	<ul> <li>Sleep is the factory default setting.</li> </ul>
	<ul> <li>Sleep or Hibernate sets the printer to operate at a lower power configuration.</li> </ul>
	<ul> <li>If the printer is in Sleep mode, then the display appears off and the Sleep button turns amber. Touch anywhere on the display or press a button on the control panel to wake the printer from Sleep mode.</li> </ul>
	<ul> <li>If the printer is in Hibernate mode, then the display is completely off and the Sleep button turns amber and is blinking.</li> </ul>

Use	То
Press and Hold Sleep Button Do Nothing	Determine how the printer responds when pressing the Sleep button for 3 seconds or longer while the printer is idle.
Sleep	Notes:
Hibernate	<ul> <li>Do Nothing is the factory default setting.</li> </ul>
	<ul> <li>Sleep or Hibernate sets the printer to operate at a lower power configuration.</li> </ul>
	<ul> <li>If the printer is in Sleep mode, then the display appears off and the Sleep button turns amber. Touch anywhere on the display or press a button on the control panel to wake the printer from Sleep mode.</li> </ul>
Factory Defaults	Restore the printer settings to the factory default settings.
Do Not Restore	Notes:
Restore Now	<ul> <li>Do Not Restore is the factory default setting. This keeps the user-defined settings.</li> </ul>
	<ul> <li>Restore Now returns all printer settings to the factory default settings except Network/Ports menu settings. All downloads stored in RAM are deleted. Downloads stored in flash memory or on a printer hard disk are not affected.</li> </ul>
Export Configuration Package	Export the printer configuration file to a flash drive.
Export

#### **Fax Receive Settings**

Use	То
Enable Fax Receive	Allow the printer to receive fax jobs.
On Off	Note: On is the factory default setting.
Fax Job Waiting None	Remove fax jobs from the print queue when the job requires specific unavailable resources.
Toner	Note: None is the factory default setting.
Toner and Supplies	
Rings to Answer	Specify the number of rings before answering an incoming fax job.
1–25	Note: 3 is the factory default setting.
Auto Answer	Allow the printer to answer an incoming fax job.
Yes	Note: Yes is the factory default setting.
No	
Manual Answer Code	Enter a code on the telephone number pad to begin receiving a fax.
0-9	Notes:
	• *9* is the factory default setting.
	• This menu item is used when the printer shares a line with a telephone.
Auto Reduction	Scale an incoming fax job so that it fits the size of the paper loaded in the designated fax source.
Off	Note: On is the factory default setting.
Paper Source	Specify the paper source for printing incoming fax jobs.
Auto	<b>Note:</b> Auto is the factory default setting.
Tray [x]	
Multipurpose Feeder	
Sides (Duplex)	Enable two-sided printing for incoming fax jobs.
Off	Note: Off is the factory default setting.
On	

Use	То
Separator Sheets Off Before Job After Job	Enable the printer to include separator sheets for incoming fax jobs. <b>Note:</b> Off is the factory default setting.
Separator Sheet Source Tray [x] Multipurpose Feeder	Specify the paper source for the separator sheet. <b>Note:</b> Tray 1 is the factory default setting.
<b>Output Bin</b> Standard Bin Bin [x]	Specify a bin for received faxes. <b>Note:</b> Standard Bin is the factory default setting.
<b>Fax Footer</b> On Off	Print the transmission information at the bottom of each page from a received fax. Note: Off is the factory default setting.
Max Speed 2400 4800 9600 14400 33600	Specify the maximum speed in baud at which faxes are received. <b>Note:</b> 33600 is the factory default setting.
<b>Fax Forwarding</b> Print Print and Forward Forward	Enable forwarding of received faxes to another recipient. <b>Note:</b> Print is the factory default setting.
Forward to Fax E-mail FTP LDSS eSF	<ul> <li>Specify the type of recipient to which faxes are forwarded.</li> <li>Notes: <ul> <li>Fax is the factory default setting.</li> <li>This menu is available only from the printer Embedded Web Server.</li> </ul> </li> </ul>
Forward to Shortcut	Enter the shortcut number which matches the recipient type (Fax, E-mail, FTP, LDSS, or eSF).
<b>Block No Name Fax</b> Off On	Enable blocking of incoming faxes sent from devices with no station ID or fax ID specified. Note: Off is the factory default setting.
Banned Fax List Holding Faxes Held Fax Mode Off Always On Manual Scheduled Fax Holding Schedule	<ul> <li>Enable the list of blocked fax numbers stored in the printer.</li> <li>Enable fax holding all of the time or according to set schedule.</li> <li>Note: Off is the factory default setting.</li> </ul>

Use	То
<b>Punch</b> Off On	<ul> <li>Specify whether prints are punched.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>This menu item appears only when a staple, hole punch finisher is installed.</li> </ul> </li> </ul>
Staple Off 1 staple 2 staples 4 staples	<ul> <li>Specify whether prints are stapled.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>This menu item appears only when a staple finisher is installed.</li> </ul> </li> </ul>
Enable Color Fax Receive On Off	Enable the printer to receive fax in color and print it in grayscale. <b>Note:</b> On is the factory default setting.

### Fax Log Settings

Use	То
<b>Transmission Log</b> Print log Do not print log Print only for error	Enable printing of a transmission log after each fax job. <b>Note:</b> Print log is the factory default setting.
<b>Receive Error Log</b> Print Never Print on Error	Enable printing of a receive error log following a receive error. <b>Note:</b> Print Never is the factory default setting.
Auto Print Logs On Off	<ul> <li>Enable automatic printing of fax logs.</li> <li>Notes: <ul> <li>On is the factory default setting.</li> <li>Logs print after every 200 fax jobs.</li> </ul> </li> </ul>
<b>Log Paper Source</b> Tray [x] Multipurpose Feeder	Specify the source of the paper used for printing logs. <b>Note:</b> Tray 1 is the factory default setting.
<b>Logs Display</b> Remote Station Name Dialed Number	Specify whether printed logs display the dialed number or the station name or fax name returned. Note: Remote Station Name is the factory default setting.
Enable Job Log On Off	Enable access to the Fax Job log. Note: On is the factory default setting.
Enable Call Log On Off	Enable access to the Fax Call log. <b>Note:</b> On is the factory default setting.

Use	То
Log Output Bin	Specify the bin for the printed fax logs.
Standard Bin	Note: Standard Bin is the factory default setting.
Bin [x]

Long edge	
Short edge	Off is the factory default setting.
	<ul> <li>Long edge assumes binding along the long edge of the page (left edge for portrait and top edge for landscape).</li> </ul>
	<ul> <li>Short edge assumes binding along the short edge of the page (top edge for portrait and left edge for landscape).</li> </ul>
JPEG Quality	Set the quality of a JPEG photo image in relation to the file size and quality of the image.
Best for content 5–90	Notes:
	<ul> <li>Best for content is the factory default setting.</li> </ul>
	<ul> <li>5 reduces the file size, but the quality of the image is lessened.</li> </ul>
	<ul> <li>90 provides the best image quality, but the file size is very large.</li> <li>This many setting applies to all even functions.</li> </ul>
	This menu setting applies to all scan functions.
Text Default	Set the quality of the text in relation to the file size and quality of the image.
5–90	<b>Note:</b> 75 is the factory default setting.

Use	То
<b>Text/Photo Default</b> 5–90	Set the quality of a text/photo image in relation to the file size and quality of the image.
	Note: 75 is the factory default setting.
Photo Default 5–90	Set the quality of a photo image in relation to the file size and quality of the image.
	Note: 50 is the factory default setting.
<b>Use Multi-Page TIFF</b> On Off	Provide a choice between single-page TIFF files and multiple-page TIFF files. For a multiple-page scan-to-FTP job, either one TIFF file is created containing all the pages, or multiple TIFF files are created with one file for each page of the job.
	Notes:
	On is the factory default setting.
	• This menu setting applies to all scan functions.
Transmission Log	Specify whether to print the transmission log.
Print log	<b>Note:</b> Print log is the factory default setting.
Do not print log Print only for error	
Log Paper Source	Specify a paper source when printing FTP logs.
Tray [x]	<b>Note:</b> Tray 1 is the factory default setting.
Multipurpose Feeder	
Log Output Bin	Specify the bin for FTP logs.
Standard Bin	Notes:
Bin [x]	• Standard Bin is the factory default setting.
	• Bin [x] appears only when an optional bin is installed.
FTP bit Depth 1 bit	Enable the Text/Photo mode to have smaller file sizes by using 1-bit images when Color is set to Off.
8 bit	Note: 8 bit is the factory default setting.
File Name	Enter a base file name.
Custom Job Scanning	Copy a document that contains mixed paper sizes into a single scan job.
On	Notes:
Off	Off is the factory default setting.
	• This menu item appears only when a formatted, working printer hard disk is installed.
Scan Preview	Specify whether a preview appears on the display for scan jobs.
On	Notes:
Off	Off is the factory default setting.
	• This menu item appears only when a formatted, working printer hard disk is installed.

Use	То
Allow Save as Shortcut	Enable shortcut creation for FTP addresses.
On Off	<b>Note:</b> On is the factory default setting.
Background Removal	Adjust the amount of background visible on a copy.
-4 to 4	Note: 0 is the factory default setting.
<b>Color Balance</b> Cyan - Red Magenta - Green Yellow - Blue	Enable an equal balance of colors in the scanned image.
Color Dropout Color Dropout None Red	<ul> <li>Specify which color to drop during scanning and to adjust the dropout setting for each color threshold.</li> <li>Notes: <ul> <li>None is the factory default setting for Color Dropout.</li> </ul> </li> </ul>
Green Blue Default Red Threshold 0–255 Default Green Threshold 0–255 Default Blue Threshold 0–255	<ul> <li>Note is the factory default setting for each color bropout.</li> <li>128 is the factory default setting for each color threshold.</li> </ul>
Contrast 0–5 Best for content	Specify the contrast of the output. <b>Note:</b> Best for content is the factory default setting.
Mirror Image	Create a mirror image of the original document.
Off On	<b>Note:</b> Off is the factory default setting.
Negative Image	Create a negative image of the original document.
Off On	Note: Off is the factory default setting.
Shadow Detail -4 to 4	Adjust the amount of shadow detail visible on a scanned image. <b>Note:</b> 0 is the factory default setting.
Scan edge to edge Off On	Specify whether the original document is scanned edge-to-edge. <b>Note:</b> Off is the factory default setting.
Sharpness 1–5	Adjust the amount of sharpness of a scanned image. <b>Note:</b> 3 is the factory default setting.
<b>Temperature</b> -4 to 4	Specify warm or cool outputs. Cool values generate a bluer output than the default while warm values generate a redder output than the default. <b>Note:</b> 0 is the factory default setting.

# Flash Drive menu

### Scan Settings

Use	То
Format PDF (.pdf) Secure PDF TIFF (.tif) JPEG (.jpg) XPS (.xps)	Specify the format of the file to be sent through FTP. <b>Note:</b> PDF (.pdf) is the factory default setting.
PDF Version 1.2–1.7 A–1a	Set the version of the PDF file to be sent through FTP. <b>Note:</b> 1.5 is the factory default setting.
<b>Content Type</b> Text Graphics Text/Photo Photo	Specify the content of the original document. <b>Note:</b> Text/Photo is the factory default setting.
Content Source Black/White Laser Color Laser Inkjet Photo/Film Magazine Newspaper Press Other	Specify how the original document was produced. Note: Black/White Laser is the factory default setting.
<b>Color</b> On Off	Specify whether the printer captures and transmits content in color or in black and white. Note: On is the factory default setting.
<b>Resolution</b> 75 dpi 150 dpi 200 dpi 300 dpi 400 dpi 600 dpi	Specify the resolution of the scan in dots per inch (dpi). Note: 150 dpi is the factory default setting.
Darkness 1–9	Lighten or darken the output. <b>Note:</b> 5 is the factory default setting.
<b>Orientation</b> Portrait Landscape	Specify the orientation of the scanned image. Note: Portrait is the factory default setting.

Use	То
Original Size	Specify the size of the original document.
Original Size Letter Legal Executive Folio Statement Oficio (Mexico) Universal Auto Size Sense Mixed Sizes A3 A4 A5 A6 JIS B4 JIS B5 Custom Scan Size [x] Book Original Business Card	Specify the size of the original document. Note: Letter is the U.S. factory default setting. A4 is the international factory default setting.
3 x 5 in. 4 x 6 in.	
Sides (Duplex) Off Long edge Short edge	<ul> <li>Specify the page orientation of text and graphics.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>Long edge assumes binding along the long edge of the page (left edge for portrait and top edge for landscape).</li> <li>Short edge assumes binding along the short edge of the page (top edge for portrait and left edge for landscape).</li> </ul> </li> </ul>
JPEG Quality Best for content 5–90	<ul> <li>Set the quality of a JPEG photo image in relation to file size and quality.</li> <li>Notes: <ul> <li>Best for content is the factory default setting.</li> <li>5 reduces the file size, but the quality of the image is lessened.</li> <li>90 provides the best image quality, but the file size is very large.</li> <li>This menu applies to all scan functions.</li> </ul> </li> </ul>
Text Default 5–90 Text/Photo Default	Set the quality of the text in relation to file size and the quality of the image.Note: 75 is the factory default setting.Set the quality of a text/photo image in relation to file size and quality.
5–90 Photo Default 5–90	Note: 75 is the factory default setting.Set the quality of a photo image in relation to file size and quality.Note: 50 is the factory default setting.

Use	То
<b>Use Multi-Page TIFF</b> On Off	Provide a choice between single-page TIFF files and multiple-page TIFF files. For a multiple-page scan to FTP job, either one TIFF file is created containing all the pages, or multiple TIFF files are created with one file for each page.
	Notes:
	<ul><li>On is the factory default setting.</li><li>This menu applies to all scan functions.</li></ul>
Scan Bit Depth 1 bit	Enable the Text/Photo mode to have smaller file sizes by using 1-bit images when Color is set to Off.
8 bit	Note: 8 bit is the factory default setting.
File Name	Enter a base file name. <b>Note:</b> A maximum of 53 characters is allowed.
Custom Job Scanning On	Copy a document containing mixed paper sizes in a single copy job. Notes:
Off	<ul><li>Off is the factory default setting.</li><li>This menu item appears only when a formatted, working printer hard disk is installed.</li></ul>
Scan Preview	Specify whether a preview appears on the display for scan jobs.
On	Notes:
Off	<ul> <li>Off is the factory default setting.</li> <li>This menu item appears only when a formatted, working printer hard disk is installed.</li> </ul>
Background Removal -4 to 4	Adjust the amount of background visible on a copy. <b>Note:</b> 0 is the factory default setting.
<b>Color Balance</b> Cyan - Red Magenta - Green Yellow - Blue	Enable an equal balance of colors in the scanned image.
Color Dropout Color Dropout None Red Green Blue Default Red Threshold 0–255 Default Green Threshold 0–255 Default Blue Threshold 0–255	<ul> <li>Specify which color to drop during scanning and to adjust the dropout setting for each color threshold.</li> <li>Notes: <ul> <li>None is the factory default setting for Color Dropout.</li> <li>128 is the factory default setting for each color threshold.</li> </ul> </li> </ul>

Use	То
Contrast 0–5 Best for content	Specify the contrast of the scanned image. <b>Note:</b> Best for content is the factory default setting.
<b>Mirror Image</b> Off On	Create a mirror image of the original document. <b>Note:</b> Off is the factory default setting.
<b>Negative Image</b> Off On	Create a negative image of the original document. <b>Note:</b> Off is the factory default setting.
Shadow Detail -4 to 4	Adjust the amount of shadow detail visible on a scanned image. <b>Note:</b> 0 is the factory default setting.
Scan edge to edge Off On	Specify whether the original document is scanned edge-to-edge. <b>Note:</b> Off is the factory default setting.
Sharpness 1–5	Adjust the amount of sharpness on a scanned image. <b>Note:</b> 3 is the factory default setting.
Temperature -4 to 4	Specify warm or cool outputs. Cool values generate a bluer output than the default while warm values generate a redder output than the default. <b>Note:</b> 0 is the factory default setting.

### **Print Settings**

Copies	Specify a default number of copies for each print job.
1–999	Note: 1 is the factory default setting.
Paper Source	Set a default paper source for all print jobs.
Tray [x]	Note: Tray 1 is the factory default setting.
Multipurpose Feeder	
Manual Paper	
Manual Envelope	
Collate	Stack the pages of a print job in sequence when printing multiple copies.
(1,1,1) (2,2,2)	<b>Note:</b> (1,2,3) (1,2,3) is the factory default setting.
(1,2,3) (1,2,3)	
Sides (Duplex)	Specify whether prints are on one side or on both sides of the page.
1 sided	Note: 1 sided is the factory default setting.
2 sided	
Staple	Specify whether prints are stapled.
Off	Notes:
On	
	Off is the factory default setting.
	<ul> <li>This menu item appears only when a staple finisher is installed.</li> </ul>

Hole Punch	Specify whether prints have punched holes.
Off	Notes:
On	<ul> <li>Off is the factory default setting.</li> <li>This menu item appears only when a supported staple, hole punch finisher is installed.</li> </ul>
Hole Punch Mode	Specify the number of holes to be made on the prints.
2 holes	Notes:
3 holes 4 holes	<ul> <li>3 holes is the U.S. factory default setting. 4 holes is the international factory default setting.</li> </ul>
	<ul> <li>This menu item appears only when a supported staple, hole punch finisher is installed.</li> </ul>
Duplex Binding Long edge	Define binding for two-sided pages in relation to the page orientation of the printed document.
Short edge	Notes:
	<ul> <li>Long edge assumes binding along the long edge of the page (left edge for portrait and top edge for landscape).</li> </ul>
	<ul> <li>Short edge assumes binding along the short edge of the page (top edge for portrait and left edge for landscape).</li> </ul>
Paper Saver Orientation	Specify the orientation of a multiple-page document.
Auto Landscape Portrait	<b>Note:</b> Auto is the factory default setting. The printer chooses between portrait and landscape.
Paper Saver	Specify that multiple-page images be printed on one side of a paper.
Off	Notes:
2-Up	Off is the factory default setting.
3-Up 4-Up 6-Up 9-Up 12-Up 16-Up	<ul> <li>The number selected is the number of page images that are printed per side.</li> </ul>
Paper Saver Border	Print a border on each page image.
None Solid	Note: None is the factory default setting.
Paper Saver Ordering Horizontal Reverse Horizontal Reverse Vertical	<ul> <li>Specify the positioning of multiple-page images.</li> <li>Notes:</li> <li>Horizontal is the factory default setting.</li> </ul>
Vertical	• Positioning depends on the number of page images and whether they are in portrait or landscape orientation.

Separator Sheets Off Between Copies Between Jobs Between Pages	<ul> <li>Specify whether blank separator sheets are inserted.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>Between Copies inserts a blank sheet between each copy of a print job if Collate is set to (1,2,3) (1,2,3). If Collate is set to (1,1,1) (2,2,2), then a blank page is inserted between each set of printed pages, such as after all page 1's and after all page 2's.</li> <li>Between Jobs inserts a blank sheet between each page of the print job. This setting is useful when printing transparencies or when inserting blank pages in a document.</li> </ul> </li> </ul>
Separator Sheet Source Tray [x] Multipurpose Feeder	Specify the paper source for the separator sheet. <b>Note:</b> Tray 1 is the factory default setting.
<b>Blank Pages</b> Do Not Print Print	Specify whether blank pages are inserted in a print job. <b>Note:</b> Do Not Print is the factory default setting.

## **Print Settings**

#### Setup menu

Use	То
Printer Language	Set the default printer language.
PCL Emulation	Notes:
PS Emulation	PCL Emulation is the factory default setting.
	<ul> <li>PostScript emulation uses a PostScript interpreter for processing print jobs.</li> </ul>
	<ul> <li>PCL Emulation uses a PCL interpreter for processing print jobs.</li> </ul>
	<ul> <li>Setting a printer language default does not prevent a software program from sending print jobs that use another printer language.</li> </ul>
Job Waiting	Determine if print jobs are removed from the print queue when
On	they require unavailable printer options or custom settings.
Off	These print jobs are stored in a separate print queue, so other jobs print normally. When the missing information or options, or both are obtained, the stored jobs print.
	Notes:
	Off is the factory default setting.
	<ul> <li>This menu appears only if a non-read-only printer hard disk is installed. This requirement ensures that stored jobs are not deleted if the printer loses power.</li> </ul>

Use	То
<b>Print Area</b> Normal Whole Page	Set the logical and physical printable area.
	Notes:
	<ul> <li>Normal is the factory default setting. When attempting to print data in the non-printable area defined by the Normal setting, the printer clips the image at the boundary.</li> <li>Whole Page allows the image to be moved into the non-printable area defined by the Normal setting, but the printer clips the image at the Normal setting boundary. This setting affects only pages printed using a PCL 5e interpreter and has no effect on pages printed using the PCL XL or PostScript interpreter.</li> </ul>
Download Target	Set the storage location for downloads.
RAM	Notes:
Flash Disk	<ul> <li>RAM is the factory default setting. Storing downloads in the RAM is temporary.</li> </ul>
	<ul> <li>Storing downloads in a flash memory or in a printer hard disk places them in permanent storage. Downloads remain in the flash memory or printer hard disk even when the printer is turned off.</li> </ul>
	<ul> <li>This menu item appears only if an optional flash memory or printer hard disk is installed.</li> </ul>
<b>Resource Save</b> On Off	Specify how the printer handles temporary downloads, such as fonts and macros stored in the RAM, when the printer receives a print job that requires more than the available memory.
	Notes:
	<ul> <li>Off is the factory default setting. Off sets the printer to retain downloads only until memory is needed. Downloads are deleted in order to process print jobs.</li> <li>On sets the printer to retain downloads during language changes and printer resets. If the printer runs out of memory, then Memory Full [38] appears on the printer display, but downloads are not deleted.</li> </ul>
Print All Order	Specify the order in which held and confidential jobs are
Alphabetical	printed when Print All is selected.
Oldest First Newest First	<b>Note:</b> Alphabetical is the factory default setting

### **Finishing menu**

Use	То
Sides (Duplex) 1 sided 2 sided	Specify whether two-sided printing is set as the default for all print jobs. Notes:
	<ul><li> 1 sided is the factory default setting.</li><li>You can set two-sided printing from the printer software.</li></ul>
<b>Duplex Binding</b> Long Edge Short Edge	<ul> <li>Define the way two-sided pages are bound and printed.</li> <li>Notes: <ul> <li>Long Edge is the factory default setting. This assumes binding along the long edge of the page (left edge for portrait and top edge for landscape).</li> <li>Short Edge assumes binding along the short edge of the page (top edge for portrait and left edge for landscape).</li> </ul> </li> </ul>
<b>Copies</b> 1–999	Specify the default number of copies for each print job. <b>Note:</b> 1 is the factory default setting.
<b>Blank Pages</b> Do Not Print Print	Specify whether blank pages are inserted in a print job. <b>Note:</b> Do Not Print is the factory default setting.
<b>Collate</b> (1,1,1) (2,2,2) (1,2,3) (1,2,3)	Stack the pages of a print job in sequence when printing multiple copies. <b>Note:</b> (1,2,3) (1,2,3) is the factory default setting.
Separator Sheets Off Between Copies Between Jobs Between Pages	<ul> <li>Specify whether blank separator sheets are inserted.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>Between Copies inserts a blank sheet between each copy of a print job if Collate is set to (1,2,3) (1,2,3). If Collate is set to (1,1,1) (2,2,2), then a blank page is inserted between each set of printed pages, such as after all page 1's and after all page 2's.</li> <li>Between Jobs inserts a blank sheet between print jobs.</li> <li>Between Pages inserts a blank sheet between each page of a print job.</li> </ul> </li> </ul>
	This setting is useful when printing transparencies or when inserting blank pages in a document.
<b>Separator Source</b> Tray [x] Multipurpose Feeder	<ul> <li>Specify the paper source for the separator sheet.</li> <li>Notes: <ul> <li>Tray 1 (standard tray) is the factory default setting.</li> <li>From the Paper menu, set Configure MP to "Cassette" for Multipurpose Feeder to appear as a menu setting.</li> </ul> </li> </ul>

Use	То
Paper Saver           Off           2-Up           3-Up           4-Up           6-Up           9-Up           12-Up           16-Up	<ul> <li>Print multiple-page images on one side of a paper.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>The number selected is the number of page images that are printed per side.</li> </ul> </li> </ul>
Paper Saver Ordering Horizontal Reverse Horizontal Reverse Vertical Vertical	<ul> <li>Specify the positioning of multiple-page images when using Paper Saver.</li> <li>Notes: <ul> <li>Horizontal is the factory default setting.</li> <li>Positioning depends on the number of page images and whether they are in portrait or landscape orientation.</li> </ul> </li> </ul>
Paper Saver Orientation Auto Landscape Portrait	Specify the orientation of a multiple-page document. <b>Note:</b> Auto is the factory default setting. The printer chooses between portrait and landscape.
Paper Saver Border None Solid	Print a border when using Paper Saver. <b>Note:</b> None is the factory default setting.
<b>Staple Job</b> Auto Back Dual Front Off	<ul> <li>Specify whether printed output is stapled.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>This menu appears only when a supported staple finisher is installed.</li> </ul> </li> </ul>
Run Stapler Test	Print a report that confirms that the staple finisher is functioning properly. <b>Note:</b> This menu appears only when a supported staple finisher is installed.
Hole Punch On Off	<ul> <li>Specify whether holes are created on printed outputs for the purpose of collecting the sheets in a binder or folder.</li> <li>Notes: <ul> <li>Off is the factory default setting.</li> <li>This menu appears only when a supported staple, hole punch finisher is installed.</li> </ul> </li> </ul>

Use	То
Hole Punch Mode 2 holes	Specify the number of holes to be created on printed outputs for the purpose of collecting the sheets in a binder or folder.
3 holes	Notes:
4 holes	<ul> <li>3 holes is the U.S. factory default setting. 4 holes is the international factory default setting.</li> </ul>
	<ul> <li>This menu appears only when a supported staple, hole punch finisher is installed.</li> </ul>
Offset Pages	Offset pages at certain instances.
None Data and Casting	Notes:
Between Copies Between Jobs	None is the factory default setting.
	<ul> <li>Between Copies offsets each copy of a print job if Collate is set to (1,2,3) (1,2,3). If Collate is set to (1,1,1) (2,2,2), then each set of printed pages are offset, such as all page 1's and all page 2's.</li> </ul>
	<ul> <li>Between Jobs sets the same offset position for the entire print job regardless of the number of copies printed.</li> </ul>
	• This menu appears only when a supported staple finisher is installed.

### **Quality menu**

Use	То
Print Resolution	Specify the printed output resolution in dots per inch (dpi) or image quality.
300 dpi	<b>Note:</b> 600 dpi is the factory default setting.
600 dpi	
1200 dpi	
1200 Image Q	
2400 Image Q	
Pixel Boost	Enable more pixels to clarify and enhance images or text.
Off	<b>Note:</b> Off is the factory default setting.
Fonts	
Horizontally	
Vertically	
Both directions	
Toner Darkness	Determine the darkness of the printed output.
1–10	Notes:
	• 8 is the factory default setting.
	• Selecting a smaller number can help conserve toner.

Use	То
Enhance Fine Lines On Off	Enhance the printed output to have smoother lines with sharper edges. Notes:
	Off is the factory default setting.
	<ul> <li>You can set this option from the printer software. For Windows users, click File &gt; Print, and then click Properties or Preferences. For Macintosh users, choose File &gt; Print, and then adjust the settings from the Print dialog and context menus.</li> </ul>
	• To set this option using the Embedded Web Server, type the network printer IP address in the Web browser address field.
Gray Correction	Adjust the contrast enhancement applied to images.
Auto Off	Note: Auto is the factory default setting.
Brightness	Lighten or darken the printed output.
-6 to 6	<b>Note:</b> 0 is the factory default setting.
Contrast	Adjust the contrast of printed objects.
0–5	Note: 0 is the factory default setting.

#### Job Accounting menu

Note: This menu item appears only when a formatted, working printer hard disk is installed.

Use	То			
Job Accounting Log	Determine and set if the printer creates a log of the print jobs it receives.			
Off	Note: Off is the factory default setting.			
On				
Job Accounting Utilities	Print and delete log files or export them to a flash drive.			
Accounting Log Frequency	Determine and set how often a log file is created.			
Daily	Note: Monthly is the factory default setting.			
Weekly				
Monthly				
Log Action at End of Frequency	Determine and set how the printer responds when the frequency threshold			
None	expires.			
E-mail Current Log	Note: None is the factory default setting.			
E-mail & Delete Current Log				
Post Current Log				
Post & Delete Current Log				
Log Near Full Level	Specify the maximum size of the log file before the printer executes the Log			
Off	Action at Near Full.			
1–99	<b>Note:</b> 5 is the factory default setting.			

Use	То		
Log Action at Near Full None E-mail Current Log E-mail & Delete Current Log E-mail & Delete Oldest Log Post Current Log Post & Delete Current Log Post & Delete Oldest Log Delete Current Log Delete All Logs Delete All But Current	<ul> <li>Determine and set how the printer responds when the hard disk is nearly full.</li> <li>Notes: <ul> <li>None is the factory default setting.</li> <li>The value defined in Log Near Full Level determines when this action is triggered.</li> </ul> </li> </ul>		
Log Action at Full None E-mail & Delete Current Log E-mail & Delete Oldest Log Post & Delete Current Log Post & Delete Oldest Log Delete Current Log Delete Oldest Log Delete All Logs Delete All But Current	Determine and set how the printer responds when disk usage reaches the maximum limit (100MB). Note: None is the factory default setting.		
URL to Post Logs E-mail Address to Send Logs Log File Prefix	Determine and set where the printer posts job accounting logs.         Specify the e-mail address to which the printer sends job accounting logs.         Specify the prefix you want for the log file name.         Note: The current host name defined in the TCP/IP menu is used as the default log file prefix.		

### **Utilities menu**

Use	То		
<b>Remove Held Jobs</b> Confidential Held	Delete confidential and held jobs from the printer hard disk. Notes:		
Not Restored All	<ul> <li>Selecting a setting affects only print jobs that are resident in the printer. Bookmarks, print jobs on flash drives, and other types of held jobs are not affected.</li> </ul>		
	• Not Restored removes all Print and Hold jobs that are <i>not</i> restored from the printer hard disk or memory.		

Use	То			
Format Flash	Format the flash memory.			
Yes No	<b>Warning—Potential Damage:</b> Do not turn off the printer while the flash memory is being formatted.			
	Notes:			
	• Yes deletes all data stored in flash memory.			
	No cancels the format request.			
	<ul> <li>Flash memory refers to the memory added by installing a flash memory card in the printer.</li> </ul>			
	• The flash memory option card must not be read/write- or write-protected.			
	<ul> <li>This menu item appears only when a non-defective flash memory card is installed.</li> </ul>			
Delete Downloads on Disk Delete Now	Delete downloads from the printer hard disk, including all held jobs, buffered jobs, and parked jobs.			
Do Not Delete	Notes:			
	<ul> <li>Delete Now sets the printer to delete the downloads and allows the display to return to the originating screen after the deletion.</li> </ul>			
	<ul> <li>Do Not Delete sets the printer to return to the originating screen after the deletion.</li> </ul>			
Activate Hex Trace	Assist in isolating the source of a print job problem.			
	Notes:			
	<ul> <li>When activated, all data sent to the printer is printed in hexadecimal and character representation, and control codes are not executed.</li> </ul>			
	• To exit or deactivate Hex Trace, turn off or reset the printer.			
Coverage Estimator Off	Provide an estimate of the percentage coverage of toner on a page. The estimate is printed on a separate page at the end of each print job.			
On	Note: Off is the factory default setting.			

### **XPS** menu

Use	То
Print Error Pages	Print a page containing information on errors, including XML markup errors.
Off	Note: Off is the factory default setting.
On	

### **PDF** menu

Use	То	
Scale to Fit	Scale page content to fit the selected paper size.	
Yes	Note: No is the factory default setting.	
No		

Use	То	
Annotations	Print annotations in a PDF.	
Do Not Print	<b>Note:</b> Do Not Print is the factory default setting.	
Print		

### PostScript menu

Use	То		
Print PS Error	Print a page containing the PostScript error.		
On Off	<b>Note:</b> Off is the factory default setting.		
Lock PS Startup Mode	Disable the SysStart file.		
On Off	<b>Note:</b> Off is the factory default setting.		
Font Priority	Establish the font search order.		
Resident Flash/Disk	<ul><li>Notes:</li><li>Resident is the factory default setting.</li></ul>		
	<ul> <li>This menu item is available only when a formatted flash memory option card or printer hard disk is installed and operating properly.</li> </ul>		
	<ul> <li>Make sure the flash memory option or printer hard disk is not read/write-, write-, or password-protected.</li> </ul>		
	Job Buffer Size must not be set to 100%.		

### PCL Emul menu

Use	То	
Font Source Resident Disk Download Flash All	<ul> <li>Specify the set of fonts used by the Font Name menu.</li> <li>Notes: <ul> <li>"Resident" is the factory default setting. Resident shows the factory default set of fonts downloaded in the RAM.</li> <li>"Flash" and "Disk" settings show all fonts resident in that option.</li> <li>The flash option must be properly formatted and cannot be read/write-, write-, or password-protected.</li> <li>"Download" shows all the fonts downloaded in the RAM.</li> <li>"All" shows all fonts available to any option.</li> </ul> </li> </ul>	
Font Name Courier 10	Identify a specific font and the option where it is stored. <b>Note:</b> Courier 10 is the factory default setting. Courier 10 shows the font name, font ID, and the storage location in the printer. The font source abbreviation is R for Resident, F for Flash, K for Disk, and D for Download.	

Use	То		
Symbol Set 10U PC-8 12U PC-850	Specify the symbol set for each font name. Notes:		
12U PC-850	<ul> <li>10U PC-8 is the US factory default setting. 12U PC-850 is the international factory default setting.</li> </ul>		
	<ul> <li>A symbol set is a set of alphabetic and numeric characters, punctuation, and special symbols. Symbol sets support the different languages or specific programs such as math symbols for scientific text. Only the supported symbol sets are shown.</li> </ul>		
PCL Emulation Settings	Change the point size for scalable typographic fonts.		
Point Size	Notes:		
1.00–1008.00	• 12 is the factory default setting.		
	• Point size refers to the height of the characters in the font. One point equals approximately 0.014 inch.		
	• Point sizes can be increased or decreased in 0.25-point increments.		
PCL Emulation Settings	Specify the font pitch for scalable monospaced fonts.		
Pitch	Notes:		
0.08–100	• 10 is the factory default setting.		
	<ul> <li>Pitch refers to the number of fixed-space characters per inch (cpi).</li> </ul>		
	<ul> <li>Pitch can be increased or decreased in 0.01-cpi increments.</li> </ul>		
	• For nonscalable monospaced fonts, the pitch appears on the display but it cannot be changed.		
PCL Emulation Settings	Specify the orientation of text and graphics on the page.		
Orientation	Notes:		
Portrait Landscape	<ul> <li>Portrait is the factory default setting. Portrait prints text and graphics parallel to the short edge of the page.</li> </ul>		
	<ul> <li>Landscape prints text and graphics parallel to the long edge of the page.</li> </ul>		
PCL Emulation Settings	Specify the number of lines that print on each page.		
Lines per Page 1–255	Notes:		
	<ul> <li>60 is the US factory default setting. 64 is the international default setting.</li> </ul>		
	<ul> <li>The printer sets the amount of space between each line based on the Lines per Page, Paper Size, and Orientation settings. Select the Paper Size and Orientation you want before setting Lines per Page.</li> </ul>		
PCL Emulation Settings	Set the printer to print on A4-size paper.		
A4 Width	Notes:		
198 mm 203 mm	• "198 mm" is the factory default setting.		
	<ul> <li>The 203-mm setting sets the width of the page to allow printing of eighty 10-pitch characters.</li> </ul>		

Use	То		
PCL Emulation Settings Auto CR after LF	Specify whether the printer automatically performs a carriage return (C after a line feed (LF) control command.		
On Off	<b>Note:</b> Off is the factory default setting.		
PCL Emulation Settings Auto LF after CR	Specify whether the printer automatically performs a line feed (LF) after a carriage return (CR) control command.		
On Off	<b>Note:</b> Off is the factory default setting.		
<b>Tray Renumber</b> Assign MP Feeder	Configure the printer to work with printer software or programs that use different source assignments for trays and feeders.		
Off None 0–199 Assign Tray [x] Off None 0–199 Assign Manual Paper Off None 0–199 Assign Manual Env Off None 0–199	<ul> <li>Notes:</li> <li>"Off" is the factory default setting.</li> <li>"None" ignores the Select Paper Feed command. This option appears only when it is selected by the PCL 5 interpreter.</li> <li>"O-199" allows a custom setting to be assigned.</li> </ul>		
Tray Renumber View Factory Defaults MPF Default = 8 T1 Default = 1 T1 Default = 4 T1 Default = 5 T1 Default = 20 T1 Default = 21 Env Default = 6 MPaper Default = 2 MEnv Default = 3	Display the factory default setting assigned to each tray or feeder.		
Tray Renumber Restore Defaults Yes No	Restore all tray and feeder assignments to the factory default settings.

## Help menu

Menu item	Description
Print All Guides	Prints all the guides
Copy Guide	Provides information about making copies and configuring the settings
E-mail Guide	Provides information about sending e-mails and configuring the settings
Fax Guide	Provides information about sending faxes and configuring the settings
FTP Guide	Provides information about scanning documents and configuring the settings
Print Defects Guide	Provides a template for determining the cause of repeating print quality defects, and lists settings that can be used to adjust print quality
Information Guide	Provides help in locating additional information
Supplies Guide	Provides information about ordering supplies

# Saving money and the environment

Lexmark is committed to environmental sustainability and is continually improving its printers to reduce their impact on the environment. We design with the environment in mind, engineer our packaging to reduce materials, and provide collection and recycling programs. For more information, see:

- The Notices chapter
- The Environmental Sustainability section of the Lexmark Web site at www.lexmark.com/environment
- The Lexmark recycling program at www.lexmark.com/recycle

By selecting certain printer settings or tasks, you may be able to reduce your printer's impact even further. This chapter outlines the settings and tasks that may yield a greater environmental benefit.

## Saving paper and toner

Studies show that as much as eighty percent of the carbon footprint of a printer is related to paper usage. You can significantly reduce your carbon footprint by using recycled paper and the following printing suggestions, such as printing on both sides of the paper and printing multiple pages on one side of a single sheet of paper.

## Using recycled paper

As an environmentally conscious company, Lexmark supports the use of recycled office paper produced specifically for use in laser printers. For more information on recycled papers that work well with your printer, see <u>"Using recycled paper and other office papers" on page 61</u>.

## **Conserving supplies**

#### Use both sides of the paper

If your printer model supports two-sided printing, then you can control whether print appears on one or two sides of the paper.

#### Notes:

- Two-sided printing is the default setting in the print driver.
- For a complete list of supported products and countries, go to http://support.lexmark.com.

#### Place multiple pages on one sheet of paper

You can print up to 16 consecutive pages of a multiple-page document onto one side of a single sheet of paper by setting multiple page printing (N-Up) for the print job.

#### Check your first draft for accuracy

Before printing or making multiple copies of a document:

- Use the preview feature to see how the document looks like before you print it.
- Print one copy of the document to check its content and format for accuracy.

#### Avoid paper jams

Correctly set the paper type and size to avoid paper jams. For more information, see <u>"Avoiding jams" on page 241</u>.

## Saving energy

### Using Hibernate mode

Hibernate is an ultra-low-power operating mode.

#### Notes:

- Three days is the default amount of time before the printer enters Hibernate mode.
- Make sure to wake the printer from Hibernate mode before sending a print job. A hard reset or a long press of the Sleep button wakes the printer from Hibernate mode.
- If the printer is in Hibernate mode, then the Embedded Web Server is disabled.
- **1** From the home screen, navigate to:

2 From the "Press Sleep Button" or "Press and Hold Sleep Button" menu, select **Hibernate**, and then touch **Submit**.

## Using Eco-Mode

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.

#### 2 Click Settings > General Settings > Eco-Mode > select a setting

Use	То	
Off	Use the factory default settings for all settings associated with Eco-Mode. Off supports the performance specifications of the printer.	
Energy	Reduce energy use, especially when the printer is idle.	
	• Printer engine motors do not start until it is ready to print. You may notice a short delay before the first page is printed.	
	<ul> <li>The printer enters Sleep mode after one minute of inactivity.</li> </ul>	
Energy/Paper	r Use all the settings associated with Energy and Paper modes.	
Plain Paper	Enable the automatic two-sided (duplex) feature.	
	• Turn off print log features.	

#### 3 Click Submit.

## **Adjusting Sleep mode**

**1** From the home screen, navigate to:

```
> Settings > General Settings > Timeouts > Sleep Mode
```

- 2 In the Sleep Mode field, select the number of minutes the printer is idle before it enters Sleep mode.
- **3** Apply the changes.

### Adjusting the brightness of the printer display

To save energy, or if you have trouble reading the display, adjust its brightness settings.

#### Using the Embedded Web Server

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address in the TCP/IP section in the Network/Ports menu. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings > General Settings.
- **3** In the Screen Brightness field, enter the brightness percentage you want for the display.
- 4 Click Submit.

## Recycling

Lexmark provides collection programs and environmentally progressive approaches to recycling. For more information, see:

- The Notices chapter
- The Environmental Sustainability section of the Lexmark Web site at www.lexmark.com/environment
- The Lexmark recycling program at www.lexmark.com/recycle

### **Recycling Lexmark products**

To return Lexmark products for recycling:

- 1 Go to www.lexmark.com/recycle.
- 2 Find the product type you want to recycle, and then select your country or region from the list.
- **3** Follow the instructions on the computer screen.

**Note:** Printer supplies and hardware not listed in the Lexmark collection program may be recycled through your local recycling center. Contact your local recycling center to determine the items they accept.

## **Recycling Lexmark packaging**

Lexmark continually strives to minimize packaging. Less packaging helps to ensure that Lexmark printers are transported in the most efficient and environmentally sensitive manner and that there is less packaging to dispose of. These efficiencies result in fewer greenhouse emissions, energy savings, and natural resource savings.

Lexmark cartons are 100% recyclable where corrugated recycling facilities exist. Facilities may not exist in your area.

The foam used in Lexmark packaging is recyclable where foam recycling facilities exist. Facilities may not exist in your area.

When you return a cartridge to Lexmark, you can reuse the box that the cartridge came in. Lexmark will recycle the box.

### **Returning Lexmark cartridges for reuse or recycling**

Lexmark Cartridge Collection Program diverts millions of Lexmark cartridges from landfills annually by making it both easy and free for Lexmark customers to return used cartridges to Lexmark for reuse or recycling. One hundred percent of the empty cartridges returned to Lexmark are either reused or demanufactured for recycling. Boxes used to return the cartridges are also recycled.

To return Lexmark cartridges for reuse or recycling, follow the instructions that came with your printer or cartridge and use the prepaid shipping label. You can also do the following:

- 1 Go to <u>www.lexmark.com/recycle</u>.
- **2** From the Toner Cartridges section, select your country or region.
- **3** Follow the instructions on the computer screen.

# **Securing the printer**

## Using the security lock feature

The printer is equipped with a security lock feature. When a lock compatible with most laptop computers is attached, the printer is locked. When locked, the controller board shield and the controller board cannot be removed. Attach a security lock to the printer in the location shown.

# **Statement of Volatility**

Your printer contains various types of memory that can store device and network settings, and user data.

Type of memory	Description
Volatile memory	Your printer uses standard <i>random access memory</i> (RAM) to temporarily buffer user data during simple print jobs.
Non-volatile memory	Your printer may use two forms of non-volatile memory: EEPROM and NAND (flash memory). Both types are used to store the operating system, device settings, network information, bookmark settings, and embedded solutions.
Hard disk memory	Some printers have a hard disk drive installed. The printer hard disk is designed for device-specific functionality. This lets the device retain buffered user data from complex print jobs, as well as form data, and font data.

Erase the content of any installed printer memory in the following circumstances:

- The printer is being decommissioned.
- The printer hard disk is being replaced.
- The printer is being moved to a different department or location.
- The printer is being serviced by someone from outside your organization.
- The printer is being removed from your premises for service.
- The printer is being sold to another organization.

### Disposing of a printer hard disk

Note: Some printer models may not have a printer hard disk installed.

In high-security environments, it may be necessary to take additional steps to make sure that confidential data stored in the printer hard disk cannot be accessed when the printer—or its hard disk—is removed from your premises.

- Degaussing—Flushes the hard disk with a magnetic field that erases stored data
- Crushing—Physically compresses the hard disk to break component parts and render them unreadable
- Milling—Physically shreds the hard disk into small metal bits

**Note:** Most data can be erased electronically, but the only way to guarantee that all data is completely erased is to physically destroy each hard disk where data is stored.

# **Erasing volatile memory**

The volatile memory (RAM) installed in your printer requires a power source to retain information. To erase the buffered data, simply turn off the printer.

# **Erasing non-volatile memory**

Erase individual settings, device and network settings, security settings, and embedded solutions by following these steps:

- **1** Turn off the printer.
- 2 From the control panel, hold down 2 and 6 while turning the printer on. Release the buttons when the screen with the progress bar appears.
- **3** From the Configuration menu, navigate to:

#### Restore Factory Defaults > Erase Printer Memory > Yes

The printer restarts several times during this process.

**4** Touch **Back**, and then exit the Configuration menu.

Note: The printer performs a power-on reset, and then returns to normal operating mode.

# **Erasing printer hard disk memory**

- **1** Turn off the printer.
- 2 From the control panel, hold down 2 and 6 while turning the printer on. Release the buttons when the screen with the progress bar appears.
- **3** From the Configuration menu, navigate to:

Restore Factory Defaults > Erase Hard Disk > select the method to erase the hard disk memory > Yes

**Note:** This process can take from several minutes to more than an hour, during which the printer is unavailable for other user tasks.

4 Touch **Back**, and then exit the Configuration menu.

Note: The printer performs a power-on reset, and then returns to normal operating mode.

# **Configuring printer hard disk encryption**

Enable hard disk encryption to prevent loss of sensitive data in the event the printer or its hard disk is stolen.

Note: Some printer models may not have a hard disk installed.

- **1** Turn off the printer.
- 2 From the control panel, hold down 2 and 6 while turning the printer on. Release the buttons only when the screen with the progress bar appears.
- **3** Touch **Disk Encryption** > **Enable**.

Note: Enabling disk encryption erases the contents of the hard disk.

4 Touch Yes to proceed with disk wiping.

Notes:

- Do not turn off the printer during the encryption process. Doing so may result in loss of data.
- Disk encryption can take from several minutes to more than an hour, during which the printer is unavailable for other user tasks.
- A status bar indicates the progress of the disk wiping task. After the disk is encrypted, the printer returns to the Enable/Disable screen.
- **5** Touch **Back**, and then exit the Configuration menu.

Note: The printer performs a power-on reset, and then returns to normal operating mode.

# **Finding printer security information**

In high-security environments, it may be necessary to take additional steps to make sure that confidential data stored in the printer cannot be accessed by unauthorized persons. For more information, go to the **Lexmark security Web page** or see the *Embedded Web Server—Security: Administrator's Guide* at <a href="http://support.lexmark.com">http://support.lexmark.com</a>.

# **Maintaining the printer**

**Warning—Potential Damage:** Failure to maintain optimum printer performance, or to replace parts and supplies, may cause damage to your printer.

# **Cleaning printer parts**

## **Cleaning the printer**

Note: You may need to perform this task after every few months.

**Warning—Potential Damage:** Damage to the printer caused by improper handling is not covered by the printer warranty.

**1** Make sure that the printer is turned off and unplugged from the electrical outlet.

CAUTION—SHOCK HAZARD: To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

- **2** Remove paper from the standard bin and multipurpose feeder.
- **3** Remove any dust, lint, and pieces of paper around the printer using a soft brush or vacuum.
- 4 Dampen a clean, lint-free cloth with water, and use it to wipe the outside of the printer.

**Warning—Potential Damage:** Do not use household cleaners or detergents to prevent damage to the exterior of the printer.

**5** Make sure all areas of the printer are dry before sending a new print job.

### **Cleaning the scanner glass**

Clean the scanner glass if you encounter print quality problems, such as streaks on copied or scanned images.

**1** Open the scanner cover.

**2** Wipe the areas shown with a soft or lint-free cloth.

1	White underside of the scanner cover
2	Scanner glass
3	ADF glass
4	White underside of the ADF cover

**3** Close the scanner cover.

## Cleaning the charger and the printhead lens

**1** Open the bottom front door.

**2** Remove the waste toner bottle.

**3** Locate the white tab.

**4** Gently pull the tab until it stops, and then slowly slide it back into place. Repeat three times.

**5** Remove the printhead wiper.

6 Insert the wiper into the hole until it stops, and then slide it out. Repeat three times.

- 7 Put the wiper back to its holder.
- **8** Reinstall the waste toner bottle.

**9** Close the bottom front door.

## Emptying the hole punch box

**1** Open door H.

**2** Remove and empty the hole punch box.

**3** Reinstall the hole punch box.

4 Close door H.

## Checking the status of parts and supplies

A message appears on the display when a replacement supply item is needed or when maintenance is required.

### Checking the status of parts and supplies on the printer control panel

From the home screen, touch Status/Supplies > View Supplies.

### Checking the status of parts and supplies from the Embedded Web Server

Note: Make sure the computer and the printer are connected to the same network.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Device Status > More Details.

## **Estimated number of remaining pages**

The estimated number of remaining pages is based on the recent printing history of the printer. Its accuracy may vary significantly and is dependent on many factors, such as actual document content, print quality settings, and other printer settings.

The accuracy of the estimated number of remaining pages may decrease when the actual printing consumption is different from the historical printing consumption. Consider the variable level of accuracy before purchasing or replacing supplies based on the estimate. Until an adequate print history is obtained on the printer, initial estimates assume future supplies consumption based on the International Organization for Standardization\* test methods and page content.

\* Average continuous black declared cartridge yield in accordance with ISO/IEC 19752.

# **Ordering supplies**

To order parts and supplies in the U.S., contact Lexmark at 1-800-539-6275 for information about Lexmark Authorized Supplies Dealers in your area. In other countries or regions, go to the Lexmark Web site at <u>www.lexmark.com</u> or contact the place where you purchased the printer.

Note: All life estimates for printer supplies assume printing on letter- or A4-size plain paper.

## Using genuine Lexmark parts and supplies

Your Lexmark printer is designed to function best with genuine Lexmark supplies and parts. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components. Use of third-party supplies or parts can affect warranty coverage. Damage caused by the use of third-party supplies or parts is not covered by the warranty. All life indicators are designed to function with Lexmark supplies and parts, and may deliver unpredictable results if third-party supplies or parts are used. Imaging component usage beyond the intended life may damage your Lexmark printer or its associated components.

## Ordering a toner cartridge

#### Notes:

- The estimated cartridge yield is based on approximately 5% coverage per page.
- Extremely low print coverage for extended periods of time may negatively affect actual yield.

Part name	Part number
Black Toner Cartridge	24B6326

### Ordering a photoconductor unit

Extremely low print coverage for extended periods of time may cause photoconductor unit parts to fail before exhaustion of toner.

Item	Part number
Photoconductor unit	24B6327

### Ordering a waste toner bottle

Item	Part number
Waste toner bottle	54G0W00

## **Ordering staple cartridges**

Item	Part number
Staple cartridges	25A0013

## Ordering a 300K maintenance kit

**Note:** To replace the parts included in the maintenance kit, see the instruction sheet that came with each part.

Item	Part number
Maintenance kit	40X9669

## Storing parts and supplies

### **Storing supplies**

Choose a cool, clean storage area for the printer supplies. Store supplies right side up in their original packing until you are ready to use them.

Do not expose supplies to:

- Direct sunlight
- Temperatures above 35°C (95°F)
- High humidity above 80%
- Salty air
- Corrosive gases
- Heavy dust

### Storing the rollers

Your printer comes with replacement rollers stored in the compartment inside the standard trays. After you purchase new rollers, make sure to store them in the compartments inside the trays.

Note: For proper disposal of parts and supplies, see "Recycling" on page 199.

# **Replacing supplies**

## **Replacing a photoconductor unit**

**1** Open the bottom front door.

**2** Remove the waste toner bottle.

**3** Unlock the photoconductor unit.

**4** Remove the photoconductor unit.

**5** Unpack the new photoconductor unit.

**Warning—Potential Damage:** Do not expose the photoconductor unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the photoconductor drum. Doing so may affect the print quality of future print jobs.

**6** Install the photoconductor unit.

7 Lock the photoconductor unit.

**8** Reinstall the waste toner bottle.

**9** Close the bottom front door.

## Replacing the staple cartridge

#### Replacing the staple cartridge in the staple finisher

**Note:** The staple finisher is supported only in select printer models.

**1** Press the latch on the staple finisher, and then slide the finisher to the left.

**2** Remove the staple cartridge holder.

**3** Remove the empty staple cartridge from the cartridge holder.

**4** Insert the new cartridge into the cartridge holder.

**5** Push the cartridge holder into the finisher until the holder *clicks* into place.

**6** Slide the finisher back into place.

#### Replacing the staple cartridge in the booklet finisher

**1** Open door H, and then pull out the booklet maker.

**2** Remove the staple cartridge holder.

**3** Remove the empty staple cartridge from the cartridge holder.

4 Insert the new cartridge into the cartridge holder.

**5** Push the cartridge holder into the booklet maker until the holder *clicks* into place.

6 Push the booklet maker back into place, and then close the door.

## Replacing the staple cartridge in the staple, hole punch finisher

**1** Open door H.

**2** Remove the staple cartridge holder.

**3** Remove the empty staple cartridge from the cartridge holder.

**4** Insert the new cartridge into the cartridge holder.

**5** Push the cartridge holder into the finisher until the holder *clicks* into place.

6 Close door H.

## **Replacing the toner cartridge**

**1** Open the top front door.

**2** Rotate the toner cartridge counterclockwise, and then pull it out.

**3** Unpack the new toner cartridge, remove the packing material, and then shake the cartridge to redistribute the toner.

**4** Insert the toner cartridge into the printer.

**5** Rotate the cartridge clockwise to lock it into place.

**6** Close the top front door.

7 Clean the charger and the printhead lens. For more information, see <u>"Cleaning the charger and the printhead lens" on page 205</u>.

## Replacing the waste toner bottle

**1** Open the bottom front door.

**2** Remove the waste toner bottle.

- **3** Clean the charger and the printhead lens. For more information, see steps 3–7 of <u>"Cleaning the charger</u> and the printhead lens" on page 205.
- **4** Unpack the new waste toner bottle.
- **5** Insert the new waste toner bottle into the printer until it *clicks* into place.

**6** Close the bottom front door.

## **Replacing the 300K maintenance kit**

Replacing the exhaust and ozone filters

1	Exhaust filter	
2	Ozone filter	

#### Replacing the exhaust filter

**1** Pull out the exhaust filter.

**2** Unpack the new exhaust filter.

#### **3** Insert the new filter.

#### Replacing the ozone filter

**1** Pull out the ozone filter.

**2** Unpack the new ozone filter.

**3** Insert the new filter.

## Replacing the pick, feed, and separator rollers

1	Pick roller	
2	Feed roller	
3	3 Separator roller	

**Note:** You can use the rollers stored in the compartment inside the standard trays. For more information, see <u>"Storing the rollers" on page 211</u>.

**1** Turn off the printer.

#### 2 Remove all trays.

• Standard tray

• Optional 2 x 500- or 2500-sheet tray

**Note:** To remove the optional  $2 \times 500$ -sheet tray, follow the procedure in removing the standard tray.

3 Open door C. Make sure that it does not hit any cable attached to the printer.Note: If the 3000-sheet tray is installed, slide the tray to open the door.

4 Open door D.

#### Notes:

- You can only open door D if the optional 2 x 500- or 2500-sheet tray is installed.
- If the 3000-sheet tray is installed, slide the tray to open the door.

**5** Locate the rollers.

**6** Remove the rollers.

7 Insert the new rollers until they *click* into place.

Note: Make sure to insert the rollers to their right places.

- 8 Close doors C and D.
- **9** Insert the trays.

## **Replacing the transfer module**

Note: Use the screwdriver located inside the bottom front door of the printer.

**1** Turn off the printer.

**2** Open door C. Make sure that it does not hit any cable attached to the printer.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

Note: If the 3000-sheet tray is installed, then slide the tray to the right to open the door.

**3** Remove the door stopper.

**4** Loosen the screws of the transfer module lock.

**5** Remove the paper guide.

6 Lift the transfer module using the handles, and then pull it out completely.

7 Unpack the new transfer module.

**Warning—Potential Damage:** Do not expose the transfer belt to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the transfer belt. Doing so may affect the print quality of future print jobs.

**8** Insert the new transfer module until it *clicks* into place.

- **9** Place the paper guide back into place.
- **10** Tighten the screws of the transfer module lock.
- **11** Reinstall the door stopper.
- 12 Close door C.

### **Replacing the transfer roller**

**1** Open door C. Make sure that it does not hit any cable attached to the printer.

Note: If the 3000-sheet tray is installed, then slide the tray to the right to open the door.

**2** Pull out the transfer roller.

- **3** Unpack the new transfer roller.
- 4 Insert the new transfer roller until it *clicks* into place.

5 Close door C.

## Resetting the maintenance counter

- **1** Turn off the printer.
- 2 From the control panel, hold down 2 and 6 while turning the printer on. Release the buttons when the screen with the progress bar appears.
- **3** From the Configuration menu, navigate to:

#### Reset Maintenance Counter > Reset 300K Maintenance Kit

**4** Touch **Back**, and then exit the Configuration menu.

Note: The printer performs a power-on reset, and then returns to normal operating mode.

## **Replacing the ADF scan pad**

**1** Open the scanner cover.

**2** Remove the ADF scan pad.

**3** Unpack the new ADF scan pad, and then remove the packing materials.

4 Lay the ADF scan pad flat on the scanner glass with the white area facedown.

**5** Close the scanner cover to stick the ADF scan pad to the cover, and then open the cover.

**6** Push the corners of the ADF scan pad to secure it into place.

7 Close the scanner cover.

## Moving the printer

**CAUTION—POTENTIAL INJURY:** The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to lift it safely.

## Before moving the printer

**CAUTION—POTENTIAL INJURY:** Before moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer does not have a caster base but is configured with optional trays, then remove the trays.
- Use the handholds located on both sides of the printer to lift it.
- Make sure your fingers are not under the printer when you set it down.
- Make sure there is adequate clearance around the printer.
- Use only the power cord provided with this product or the manufacturer's authorized replacement.

**Warning—Potential Damage:** Damage to the printer caused by improper moving is not covered by the printer warranty.

## Moving the printer to another location

• Using a flat-head screwdriver, reinstall the screws to lock the scanner bed in place.

Note: Remove the screws after setting up the printer in another location.

- If necessary, use a cart with a surface large enough to support the full dimensions of the printer.
- Keep the printer in an upright position.
- Avoid jarring movements.

## Shipping the printer

When shipping the printer, use the original packaging.

## **Managing the printer**

## Checking the virtual display

1 Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.

#### 2 Check the virtual display that appears in the top left corner of the screen.

The virtual display works as an actual display would work on a printer control panel.

## Setting up e-mail alerts

Configure the printer to send you e-mail alerts when the supplies are getting low or when the paper needs to be changed or added, or when there is a paper jam.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click Settings.
- **3** From the Other Settings menu, click **E-mail Alert Setup**.
- **4** Select the items you want to be notified on, and then type the e-mail addresses.
- 5 Click Submit.

Note: For information on setting up the e-mail server, contact your system support person.

## **Viewing reports**

You can view some reports from the Embedded Web Server. These reports are useful for assessing the status of the printer, network, and supplies.

**1** Open a Web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click **Reports**, and then click the type of report you want to view.

## Copying printer settings to other printers

Note: This feature is available only in network printers.

**1** Open a Web browser, and then type the printer IP address in the address field.

#### Notes:

- View the printer IP address in the TCP/IP section in the Network/Ports menu. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the Web page correctly.
- 2 Click the Copy Printer Settings.
- **3** To change the language, select a language from the drop-down menu, and then click **Click here to submit language**.
- 4 Click Printer Settings.
- **5** Type the IP addresses of the source and target printers in their appropriate fields.

Note: If you want to add or remove a target printer, then click Add Target IP or Remove Target IP.

6 Click Copy Printer Settings.

## Configuring supply notifications from the Embedded Web Server

You can determine how you would like to be notified when supplies run nearly low, low, near end-of-life, or reach their end-of-life by setting the selectable alerts.

**Note:** The percentage of estimated remaining supply that prompts the alert can be set on some supplies for some supply conditions.

- **1** Open a Web browser, and then type the printer IP address.
- 2 Click Settings > Print Settings > Supply Notifications.
- **3** From the drop-down menu, select one of the following notification options:

Notification	Description	
Off	The normal printer behavior for all supplies occurs.	
SNMP Only	The printer generates a Simple Network Management Protocol (SNMP) alert when the supply condition is reached. The status of the supply appears on the menus page and status page.	
E-mail	The printer generates an e-mail when the supply condition is reached. The status of the supply appears on the menus page and status page.	
Warning	The printer displays the warning message and generates an e-mail about the state of the supply. The printer does not stop when the supply condition is reached.	
Continuable Stop <sup>1</sup>	The printer stops processing jobs when the supply condition is reached, and the user needs to press a button to continue printing.	
<sup>1</sup> The printer generates an e-mail about the status of the supply when supply notification is enabled. <sup>2</sup> The printer stops when some supplies become empty to prevent damage.		

Notification	Description	
Non Continuable Stop <sup>1,2</sup> The printer stops processing jobs when the supply condition is reached. The su must be replaced to continue printing.		
<sup>1</sup> The printer generates an e-mail about the status of the supply when supply notification is enabled.		
<sup>2</sup> The printer stops when some supplies become empty to prevent damage.		

4 Click Submit.

## **Restoring factory default settings**

If you want to keep a list of the current menu settings for reference, then print a menu settings page before restoring the factory default settings. For more information, see <u>"Printing a menu settings page" on page 50</u>.

For a more comprehensive method of restoring the printer factory default settings, see <u>"Erasing non-volatile</u> <u>memory" on page 202</u>.

**Warning—Potential Damage:** Restoring factory defaults returns most printer settings to the original factory default settings. Exceptions include the display language, custom sizes and messages, and network/port menu settings. All downloads stored in the RAM are deleted. Downloads stored in the flash memory or in a printer hard disk are not affected.

**1** From the home screen, navigate to:

## > Settings > General Settings > Factory Defaults > Restore Now

**2** Apply the changes.

## **Clearing jams**

**Note:** Jam Recovery is set to Auto by default. The printer reprints jammed pages unless the memory required to hold the pages is needed for other printer tasks.

## **Avoiding jams**

#### Load paper properly

• Make sure paper lies flat in the tray.

- Do not remove a tray while the printer is printing.
- Do not load a tray while the printer is printing. Load it before printing, or wait for a prompt to load it.
- Do not load too much paper. Make sure the stack height is below the maximum paper fill indicator.
- Do not slide the paper into the tray. Load paper as shown in the illustration.

- Make sure the guides in the tray or the multipurpose feeder are properly positioned and are not pressing tightly against the paper or envelopes.
- Push the tray firmly into the printer after loading paper.

#### Use recommended paper

- Use only recommended paper or specialty media.
- Do not load wrinkled, creased, damp, bent, or curled paper.

• Flex, fan, and straighten paper before loading it.

- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, weights, or types in the same tray.
- Make sure the paper size and type are set correctly on the computer or printer control panel.
- Store paper according to manufacturer recommendations.

## Understanding jam messages and locations

When a jam occurs, a message indicating the jam location and information to clear the jam appears on the printer display. Open the doors, covers, and trays indicated on the display to remove the jam.

#### Notes:

- When Jam Assist is set to On, the printer flushes blank pages or pages with partial prints after a jammed page has been cleared. Check your printed output for blank pages.
- When Jam Recovery is set to On or Auto, the printer reprints jammed pages. However, the Auto setting reprints jammed pages only if adequate printer memory is available.

	Area name	
1	Automatic document feeder (ADF)	
2	Door C	
3	Door D	
4	Door F	
5	Trays	
6	Door H	

	Area name
7	Finisher bins
8	Door J
9	Area G

Area name	Control panel message	What to do
ADF	[x]-page jam, press latch at area E to open ADF's top cover. [28y.xx]	Open the ADF top door, and then remove the jammed paper.
Multipurpose feeder	[x]-page jam, clear jammed paper from the multipurpose feeder. [200.xx]	Remove the jammed paper from the feeder.
Door C, trays	[x]-page jam, open door C and clear all jammed paper. [2yy.xx]	Open door C, and then remove the jammed paper.
	[x]-page jam, slide the 3000-sheet tray and open door C. [2yy.xx]	Pull out the tray, and then remove the jammed paper.
Door D, trays	[x]-page jam, open door D and clear all jammed paper. [24y.xx]	Open door D, and then remove the jammed paper.
	[x]-page jam, slide the 3000-sheet tray and open door D. [24y.xx]	Pull out the tray, and then remove the jammed paper.
Doors C and F	[x]-page jam, slide the 3000-sheet tray and open door F. [24y.xx]	Pull the 3000-sheet tray, and then remove the jammed paper from the side of the tray.
		Open door F, and then remove the jammed paper.
Area G, doors C, J, and H, finisher bin	[x] page jam, open doors G, H, and J and clear jammed paper. [4yy.xx]	Open door G, and then remove the jammed paper.
		Open door H, and then remove the jammed paper.
Doors C and G, finisher bin	[x]-page jam, press latch beside door G and slide finisher to the left. Leave paper in bin. [40y.xx]	Slide the staple finisher to the left, and then remove the jammed paper.
Area G, doors C, J, and H, finisher bin	[x]-page jam, open door H and rotate knob SD3 clockwise. Leave paper in bin. [426.xx–428.xx]	Open door H, and then remove the jammed paper.

## [x]-page jam, clear jammed paper from multipurpose feeder. [200.xx]

- **1** Remove all paper from the multipurpose feeder.
- **2** Remove the jammed paper.

**3** Open door C to remove any paper fragments.

Note: Make sure that door C does not hit any cable attached to the printer.

- 4 Close door C.
- **5** Flex the sheets back and forth to loosen them, and then fan them. Do not fold or crease the paper. Straighten the edges on a level surface.

6 Reload the paper.

## [x]-page jam, open door C and clear all jammed paper. [2yy.xx]

**1** Open door C. Make sure that it does not hit any cable attached to the printer.

**2** Remove the jammed paper from any of the following locations:

Note: Make sure that all paper fragments are removed.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

• Fuser area

• Below the fuser area

• Duplex area

• Above the duplex area

**3** Open the standard trays, and then locate the jammed paper.

**4** Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

**5** Close the trays and door C.

## [x]-page jam, slide the 3000-sheet tray and open door C. [2yy.xx]

**1** Slide the 3000-sheet tray.

**2** Open door C. Make sure that it does not hit any cable attached to the printer.

**3** Remove the jammed paper from any of the following locations:

Note: Make sure that all paper fragments are removed.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

• Fuser area

• Below the fuser area

• Duplex area

• Above the duplex area

**4** Open the standard trays, and then locate the jammed paper.

**5** Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

- **6** Close the trays and door C.
- 7 Slide the 3000-sheet tray back into place.

# [x]-page jam, open door D and clear all jammed paper. [24y.xx]

**1** Open door D, and then remove the jammed paper.

Note: Make sure that all paper fragments are removed.

**2** Open the optional tray, and then locate the jammed paper.

**3** Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

4 Close the tray and door D.

# [x]-page jam, slide the 3000-sheet tray and open door D. [24y.xx]

**1** Slide the 3000-sheet tray.

**2** Open door D, and then remove the jammed paper.

Note: Make sure that all paper fragments are removed.

**3** Open the optional tray, and then locate the jammed paper.

**4** Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

- **5** Close the tray and door D.
- **6** Slide the 3000-sheet tray back into place.

## [x]-page jam, slide the 3000-sheet tray and open door F. [24y.xx]

**1** Slide the 3000-sheet tray.

**2** Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

3 Open door F, and then remove the jammed paper.Note: Make sure that all paper fragments are removed.

- 4 Close door F.
- **5** Open door C. Make sure that it does not hit any cable attached to the printer.

**6** Remove the jammed paper from any of the following locations:

Note: Make sure that all paper fragments are removed.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

• Fuser area

• Below the fuser area

• Duplex area

• Above the duplex area

7 Close door C, and then slide the 3000-sheet tray back into place.

# [x]-page jam, open doors G, H, and J and clear jammed paper. Leave paper in bin. [4yy.xx]

**1** Open door G, and then remove the jammed paper.

Note: Make sure that all paper fragments are removed.

**2** Open door J, and then lift handle J1 to its upright position.

#### **3** Open door H.

- **4** Remove the jammed paper from any of the following locations:
  - Note: Make sure that all paper fragments are removed.
  - Door J

Note: If there is a jammed paper between the finisher bins, then remove the paper.

• Areas H1 and H2

• Areas H3 and H4

• Area H6

- 5 Close Door H.
- **6** Open door C, and then remove the jammed paper.

Note: Make sure that door C does not hit any cable attached to the printer.

#### Notes:

- Make sure that all paper fragments are removed.
- If the 3000-sheet tray is installed, then slide the tray to the right to open the door.
- 7 Close door C.

# [x]-page jam, press latch to access area G. Leave paper in bin. [40y.xx]

**1** Remove all paper from the staple finisher bin.

**2** Press the latch and slide the staple finisher to the left, and then remove the jammed paper.

#### Notes:

- Make sure that all paper fragments are removed.
- If necessary, turn spinner wheel G1 downward to feed jammed paper into the finisher bin, and then remove the paper.

**3** Slide the finisher back into place.

4 Open door C, and then remove the jammed paper.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

#### Notes:

- Make sure that door C does not hit any cable attached to the printer.
- Make sure that all paper fragments are removed.
- If the 3000-sheet tray is installed, then slide the tray to the right to open the door.
- 5 Close door C.

# [x]-page jam, press latch to access area G and clear jammed staples. Leave paper in bin. [402.93]

**1** Remove all paper from the staple finisher bin.

2 Press the latch on the staple finisher, and then slide the finisher to the left.

**3** Remove the staple cartridge holder.

**4** Use the metal tab to lift the staple guard, and then remove any loose staples.

**5** Press the staple guard down until it *clicks* into place.

**6** Press the staples against the metal bracket.

**Note:** If the staples are at the rear of the cartridge, then shake the cartridge downward to bring the staples near the metal bracket.

**7** Push the cartridge holder into the finisher until the holder *clicks* into place.

8 Slide the finisher back into place.

# [x]-page jam, open door H and rotate knob H6 clockwise. Leave paper in bin. [426.xx–428.xx]

If the jammed paper is located under door G, then open the door and remove the paper.

**1** Open door J, and then lift handle J1.

**2** Open door H.

**3** Remove the jammed paper from any of the following locations:

Note: Make sure that all paper fragments are removed.

• Door J

Note: If there is a jammed paper between the finisher bins, then remove the paper.

• Areas H1 and H2

• Areas H3 and H4

• Area H6

**4** Using handle H5, pull out the booklet maker.

5 Remove the jammed paper from any of the following locations:Note: Make sure that all paper fragments are removed.

• Area H8

• Area H9

• Area H10

- 6 Push the booklet maker back into place.
- 7 Close door H.
- 8 Open door C, and then remove the jammed paper.

**CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

#### Notes:

- Make sure that door C does not hit any cable attached to the printer.
- Make sure that all paper fragments are removed.
- If the 3000-sheet tray is installed, then slide the tray to the right to open the door.
- **9** Close door C.

# [x]-page jam, press latch at area E to open ADF's top cover. [28y.xx]

- **1** Remove all original documents from the ADF tray.
- **2** Open the top ADF top cover.

**3** Remove jammed paper.

Note: Make sure that all paper fragments are removed.

- 4 Close the cover.
- **5** Open the scanner cover, and then open the bottom ADF door.

6 Remove jammed paper.

Note: Make sure that all paper fragments are removed.

7 Close the door.

8 Close the scanner cover.

# Troubleshooting

# Understanding the printer messages

#### Cartridge low [88.xy]

You may need to order a replacement toner cartridge. If necessary, touch **Continue** on the printer control panel to clear the message and continue printing.

### Cartridge nearly low [88.xy]

If necessary, touch **Continue** on the printer control panel to clear the message and continue printing.

#### Cartridge very low [88.xy]

You may need to replace the toner cartridge very soon. For more information, see <u>"Replacing the toner</u> cartridge" on page 220.

If necessary, touch Continue on the control panel to clear the message and continue printing.

### Change [paper source] to [custom string] load [orientation]

Try one or more of the following:

- Load the correct size and type of paper in the tray, specify the paper size and type in the Paper menu on the control panel, and then touch **Finished changing paper**.
- Touch Use current [paper source] to use the available paper size and type in the tray.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the print job.

#### Change [paper source] to [custom type name] load [orientation]

Try one or more of the following:

- Load the correct size and type of paper in the tray or feeder, specify the paper size and type in the Paper menu on the printer control panel, and then touch **Finished changing paper**.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the print job.

#### Change [paper source] to [paper size] load [orientation]

Try one or more of the following:

- Load the correct size and type of paper in the tray or feeder, specify the size and type of paper in the Paper menu on the control panel, and then touch **Finished changing paper**.
- Touch **Use current [paper source]** to use the available size and type of paper in the current tray or feeder.

- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the print job.

# Change [paper source] to [paper type] [paper size] load [orientation]

Try one or more of the following:

- Load the correct size and type of paper in the tray or feeder, specify the paper size and type in the Paper menu on the control panel, and then touch **Finished changing paper**.
- Touch Use current [paper source] to use the available paper size and type in the tray.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the print job.

## Close door [x]

Close the specified door.

#### Complex page, some data may not have printed [39]

Try one or more of the following:

- From the control panel, touch **Continue** to clear the message and continue printing.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the print job.
- Install additional printer memory.

### Configuration change, some held jobs were not restored [57]

Held jobs are invalidated because of the following possible changes in the printer:

- The printer firmware has been updated.
- The tray for the print job has been removed.
- The print job is sent from a flash drive that is no longer attached to the USB port.
- The printer hard disk contains print jobs that were stored when the hard disk was installed in a different printer model.

From the printer control panel, touch **Continue** to clear the message.

# **Defective flash detected [51]**

Try one or more of the following:

- Replace the defective flash memory card.
- From the printer control panel, touch **Continue** to ignore the message and continue printing.
- Cancel the current print job.

# Disk full [62]

Try one or more of the following:

- From the control panel, touch **Continue** to clear the message and continue printing.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Delete fonts, macros, and other data stored in the printer hard disk.
- Install a hard disk with larger capacity.

#### Disk full, scan job canceled

Try one or more of the following:

- Touch **Continue** to clear the message and continue scanning.
- Delete fonts, macros, and other data stored in the printer hard disk.
- Install a hard disk with higher capacity.

#### Disk must be formatted for use in this device

From the printer control panel, touch **Format disk** to format the printer hard disk and clear the message.

Note: Formatting deletes all the files stored in the printer hard disk.

#### Disk near full. Securely clearing disk space.

Try one or more of the following:

- Touch **Continue** to clear the message and continue printing.
- Delete fonts, macros, and other data stored on the printer hard disk.
- Install a hard disk with higher capacity.

#### Empty the hole punch box

Try one or more of the following:

- Empty the hole punch box.
- Select **Continue** on the printer control panel to clear the message and continue printing.
- Cancel the print job.

#### Error reading USB drive. Remove USB.

An unsupported USB device is inserted. Remove the USB device, and then insert a supported one.

#### Error reading USB hub. Remove hub.

An unsupported USB hub has been inserted. Remove the USB hub, and then install a supported one.

#### Fax memory full

From the printer control panel, touch **Continue** to clear the message.

#### Fax partition inoperative. Contact system administrator.

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Turn off the printer, and then turn it back on. If the message appears again, then contact your system support person.

#### Fax server 'To Format' not set up. Contact system administrator.

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Complete the Fax Server setup. If the message appears again, then contact your system support person.

#### Fax Station Name not set up. Contact system administrator.

Try either of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Complete the Analog Fax setup. If the message appears again after completing the setup, then contact your system support person.

#### Fax Station Number not set up. Contact system administrator.

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Complete the Analog Fax setup. If the message appears again after completing the setup, then contact your system support person.

#### Incorrect paper size, open [paper source] [34]

Try one or more of the following:

- Load the correct paper size and type in the tray or feeder, and then specify the paper size and type in the Paper menu on the control panel.
- Make sure that the correct paper size and type are specified in Print Properties or the Print dialog settings.
- Check the length and width guides and make sure that the paper is loaded properly in the tray or feeder.
- From the control panel, touch **Continue** to clear the message and then print using a different tray.
- Touch **Reset active bin** to reset the active bin for a linked set of bins.
- Cancel the print job.

#### Insert hole punch box

Insert the hole punch box into the finisher, and then touch **Continue** to clear the message.

# Insert Tray [x]

Try one or more of the following:

- Insert the specified tray into the printer.
- Cancel the print job.
- Reset the active bin for a linked set of bins by selecting **Reset active bin** on the printer control panel.

#### Insufficient memory for Flash Memory Defragment operation [37]

Try one or more of the following:

- From the printer control panel, touch **Continue** to stop the defragmentation and continue printing.
- Delete fonts, macros, and other data in the printer memory.
- Install additional printer memory.

#### Insufficient memory to collate job [37]

Try one or more of the following:

- From the printer control panel, touch **Continue** to print the part of the job already stored and begin collating the rest of the print job.
- Cancel the current print job.

#### Insufficient memory to support Resource Save feature [35]

Install additional printer memory or touch **Continue** to disable Resource Save, clear the message, and continue printing.

#### Insufficient memory, some Held Jobs were deleted [37]

From the printer control panel, touch **Continue** to clear the message.

#### Insufficient memory, some held jobs will not be restored [37]

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Delete other held jobs to free up additional printer memory.

#### Insufficient space between paper stacks in Tray 3

Move the paper stacks apart, and then touch **Continue** on the control panel to clear the message and continue printing.

# Load [paper source] with [custom string] [paper orientation]

Try one or more of the following:

- Load the tray or feeder with the correct size and type of paper, and then touch **Finished loading paper** on the control panel.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the current job.

# Load [paper source] with [custom type name] [paper orientation]

Try one or more of the following:

- Load the tray or feeder with the correct size and type of paper, and then touch **Finished loading paper** on the control panel.
- Touch **Reset active bin** to reset the active bin for a linked set of bins.
- Cancel the print job.

## Load [paper source] with [paper size] [paper orientation]

Try one or more of the following:

- Load the tray or feeder with the correct size of paper, and then touch **Finished loading paper** on the control panel.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Cancel the current job.

# Load [paper source] with [paper type] [paper size] [paper orientation]

Try one or more of the following:

- Load the specified tray or feeder with the correct size and type of paper, and then touch **Finished loading paper** on the control panel.
- Touch **Reset active bin** to reset the active bin for a linked set of bins.
- Cancel the current job.

### Load Multipurpose Feeder with [custom string] [paper orientation]

Try one or more of the following:

- Load the feeder with the correct size and type of paper.
- From the control panel, touch one of the following:
  - Prompt each page, paper loaded or Do not prompt, paper loaded—To clear the message and continue printing.
  - Automatically select paper—To use the paper loaded in the tray.
  - Reset active bin—To reset the active bin for a linked set of bins.
- Cancel the print job.

# Load Multipurpose Feeder with [custom type name] [paper orientation]

Try one or more of the following:

- Load the feeder with the correct size and type of paper.
- From the control panel, touch one of the following:
  - Prompt each page, paper loaded or Do not prompt, paper loaded—To clear the message and continue printing.
  - Automatically select paper—To use the paper loaded in the tray.
  - Reset active bin—To reset the active bin for a linked set of bins.
- Cancel the print job.

### Load Multipurpose Feeder with [paper size] [paper orientation]

Try one or more of the following:

- Load the feeder with the correct size of paper.
- From the control panel, touch one of the following:
  - Prompt each page, paper loaded or Do not prompt, paper loaded—To clear the message and continue printing.
  - Automatically select paper—To use the paper loaded in the tray.
  - Reset active bin—To reset the active bin for a linked set of bins.
- Cancel the print job.

### Load Multipurpose Feeder with [paper type] [paper size] [paper orientation]

Try one or more of the following:

- Load the feeder with the correct size and type of paper.
- From the control panel, touch one of the following:
  - Prompt each page, paper loaded or Do not prompt, paper loaded—To clear the message and continue printing.
  - Automatically select paper—To use the paper loaded in the tray.
  - Reset active bin—To reset the active bin for a linked set of bins.
- Cancel the print job.

#### Load staples

Try one or more of the following:

• Replace or insert the staple cartridge in the finisher.

For instructions on inserting or replacing a staple cartridge in the finisher, touch **More information** on the printer control panel.

- From the printer control panel, touch **Continue** to clear the message and continue printing.
- From the printer control panel, touch **Cancel job** to cancel the print job.

## Load staples [G11, G12]

Try one or more of the following:

• Replace or insert the staple cartridge into the finisher.

For instructions on replacing or inserting the staple cartridge into the finisher, touch **More information** on the control panel.

- From the control panel, touch **Continue** to clear the message and continue printing.
- Cancel the print job.

## [x] maintenance kit very low [80.xy]

You may need to replace the maintenance kit very soon. For more information, go to the Lexmark support. Web site at <u>http://support.lexmark.com</u> or contact customer support, and then report the message.

If necessary, touch **Continue** to clear the message and continue printing.

## Memory full [38]

Try one or more of the following:

- From the control panel, touch Cancel job to clear the message.
- Touch Reset active bin to reset the active bin for a linked set of bins.
- Install additional printer memory.

#### Memory full, cannot print faxes

From the printer control panel, touch **Continue** to clear the message without printing. Held faxes attempt to print after the printer is restarted.

#### Memory full, cannot send faxes

- **1** From the printer control panel, touch **Continue** to clear the message and cancel the fax job.
- **2** Try one or more of the following:
  - Reduce the fax resolution, and then resend the fax job.
  - Reduce the number of pages in the fax, and then resend the fax job.

#### No analog phone line connected to modem, fax is disabled.

Connect the printer to an analog phone line.

#### Network [x] software error [54]

Try one or more of the following:

- From the printer control panel, touch **Continue** to continue printing.
- Turn off the printer, wait for about 10 seconds, and then turn the printer back on.

 Update the network firmware in the printer or print server. For more information, visit the Lexmark support Web site at <u>http://support.lexmark.com</u>.

#### Not enough free space in flash memory for resources [52]

Try one or more of the following:

- From the control panel, touch **Continue** to clear the message and continue printing.
- Touch **Reset active bin** to reset the active bin for a linked set of bins.
- Delete fonts, macros, and other data stored in the flash memory.
- Install a flash memory card with larger capacity.

Note: Downloaded fonts and macros not previously stored in the flash memory are deleted.

#### Open door H and remove paper from beneath area H10

Remove the paper from the specified area.

#### Paper changes needed

Try one or more of the following:

- Touch Use current supplies to clear the message and continue printing.
- Cancel the current print job.

# Parallel port [x] disabled [56]

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Enable the parallel port. From the printer control panel, navigate to:

#### Network/Ports > Parallel [x] > Parallel Buffer > Auto

Note: The printer discards any data received through the parallel port.

#### Photoconductor low [84.xy]

You may need to order a replacement photoconductor. If necessary, select **Continue** on the control panel to clear the message and continue printing.

### Photoconductor very low [84.xy]

You may need to replace the photoconductor unit very soon. For more information, see <u>"Replacing a photoconductor unit" on page 212</u>.

If necessary, touch **Continue** on the control panel to clear the message and continue printing.

#### Printer had to restart. Last job may be incomplete.

From the printer control panel, touch **Continue** to clear the message and continue printing.

For more information, visit http://support.lexmark.com or contact customer support.

#### Reinstall missing or unresponsive cartridge [31.xy]

Try one or more of the following:

Check if the toner cartridge is missing. If missing, install the toner cartridge.

For information on installing the cartridge, see the "Replacing supplies" section of the User's Guide.

If the toner cartridge is installed, then remove the unresponsive toner cartridge, and then reinstall it.

**Note:** If the message appears after reinstalling the supply, then the cartridge is defective. Replace the toner cartridge.

#### Reinstall missing or unresponsive photoconductor [31.xy]

Try one or more of the following:

- If the photoconductor unit is missing, then install it. For more information, see <u>"Replacing a photoconductor unit" on page 212</u>.
- If the photoconductor unit is installed, then remove and then reinstall it.

**Note:** If the message appears after reinstalling the supply, then replace the defective photoconductor unit.

#### Remove defective disk [61]

Remove and replace the defective printer hard disk.

#### Remove packaging material, [area name]

Remove any remaining packaging material from the specified location.

# Remove packaging material, open door C, remove metal clips, remove all screws from scanner carriage

Open door C and the scanner cover, and then remove any remaining packaging material.

Note: Make sure door C does not hit any cable attached to the printer.

#### Remove paper from all bins

Remove the paper from all of the bins. The printer automatically senses paper removal and resumes printing.

If removing the paper does not clear the message, then touch **Continue**.

#### Remove paper from bin [x]

Remove the paper from the specified bin. The printer automatically senses paper removal and resumes printing.

If removing the paper does not clear the message, then touch Continue.

#### Remove paper from [linked set bin name]

Remove paper from the specified bin. The printer automatically detects paper removal and resumes printing. If removing the paper does not clear the message, then touch **Continue**.

#### Remove paper from standard output bin

Remove the paper stack from the standard bin.

#### Replace all originals if restarting job.

Try one or more of the following:

- Touch **Cancel job** to clear the message and cancel the scan job.
- Touch **Scan from automatic feeder** to continue scanning from the ADF immediately after the last successful scan job.
- Touch **Scan from flatbed** to continue scanning from the scanner immediately after the last successful scan job.
- Touch Finish job without further scanning to end the last successful scan job.
- Touch **Restart job** to restart the scan job with the same settings from the previous scan job.

### Replace cartridge, 0 estimated pages remain [88.xy]

Replace the toner cartridge to clear the message and continue printing. For more information, see the instruction sheet that came with the supply or see the "Replacing supplies" section of the *User's Guide*.

**Note:** If you do not have a replacement cartridge, then see the "Ordering supplies" section of the *User's Guide* or visit <u>www.lexmark.com</u>.

#### Replace cartridge, printer region mismatch [42.xy]

Install a toner cartridge that matches the region number of the printer. *x* indicates the value of the printer region. *y* indicates the value of the cartridge region. x and y can have the following values:

Region number	Region
0	Global
1	United States, Canada
2	European Economic Area (EEA), Switzerland
3	Asia Pacific, Australia, New Zealand
4	Latin America
5	Africa, Middle East, rest of Europe

#### Printer and toner cartridge regions

Region number	Region
9	Invalid

#### Notes:

- The x and y values represent .xy in the code that appears on the printer control panel.
- The x and y values must match for printing to continue.

#### **Replace jammed originals if restarting job.**

Try one or more of the following:

- Touch Cancel job to clear the message and cancel the scan job.
- Touch Scan from automatic feeder to continue scanning from the ADF immediately after the last successful scan job.
- Touch Scan from flatbed to continue scanning from the scanner immediately after the last successful scan job.
- Touch Finish job without further scanning to end the last successful scan job.
- Touch Restart job to restart the scan job with the same settings from the previous scan job.

#### Replace [x] maintenance kit, 0 estimated pages remain [80.xy]

The printer is scheduled for maintenance. For more information, go to the Lexmark support Web site at <u>http://support.lexmark.com</u> or contact your service representative, and then report the message.

#### Replace missing photoconductor [31.xy]

Install the missing photoconductor unit to clear the message. For more information, see <u>"Replacing a photoconductor unit" on page 212</u>.

#### Replace missing waste toner bottle [82.xy]

Install the missing waste toner bottle to clear the message. For more information, see the instruction sheet that came with the supply.

#### Replace missing cartridge [31.xy]

Install the missing cartridge to clear the message. For more information, see <u>"Replacing the toner cartridge"</u> on page 220.

# Replace paper pick rollers in [paper source], use parts and instructions in tray 1 or tray 2 compartment [80]

Try one or more of the following:

- Replace the pick rollers, and then touch **Rollers replaced** on the control panel to clear the message and continue printing.
- Touch **Continue and replace later (Jams may continue to occur)** to ignore the message and continue printing.

### Replace photoconductor, 0 pages remain [84.xy]

Replace the photoconductor unit to clear the message and continue printing. For more information, see the instruction sheet that came with the supply or see <u>"Replacing a photoconductor unit" on page 212</u>.

**Note:** If you do not have a replacement photoconductor unit, then see <u>"Ordering supplies" on page 210</u> or go to <u>www.lexmark.com</u>.

## Replace unsupported cartridge [32.xy]

Remove the toner cartridge, and then install a supported one to clear the message and continue printing. For more information, see the instruction sheet that came with the supply or see the "Replacing supplies" section of the *User's Guide*.

**Note:** If you do not have a replacement cartridge, then see the "Ordering supplies" section of the *User's Guide* or visit <u>www.lexmark.com</u>.

### Replace unsupported photoconductor [32.xy]

Remove the photoconductor unit, and then install a supported one to clear the message and continue printing. For more information, see the instruction sheet that came with the supply or see <u>"Replacing a photoconductor unit" on page 212</u>.

**Note:** If you do not have a replacement photoconductor unit, then see <u>"Ordering supplies" on page 210</u> or go to <u>www.lexmark.com</u>.

### Replace waste toner bottle [82.xy]

Replace the waste toner bottle to clear the message.

### **Restore held jobs?**

Try one or more of the following:

- From the printer control panel, touch **Restore** to restore all held jobs stored in the printer hard disk.
- From the printer control panel, touch **Do not restore** if you do not want to restore any of the print jobs.

### Scanner disabled by admin [840.01]

Print without the scanner, or contact your system support person.

# Scanner disabled. Contact system administrator if problem persists. [840.02]

Try one or more of the following:

- Touch **Continue with scanner disabled** to return to the home screen, and then contact your system support person.
- Touch Reboot and automatically enable scanner to cancel the job.

Note: This attempts to enable the scanner.

#### Scanner jam, remove jammed originals from the scanner [2yy.xx]

Remove the jammed paper from the scanner.

#### Scanner maintenance required, use ADF Kit [80]

The printer is scheduled for maintenance. For more information, go to the Lexmark support Web site at <u>http://support.lexmark.com</u> or contact your service representative, and then report the message.

#### Scanner maintenance required soon, use ADF Kit [80]

Contact customer support, and then report the message. The printer is scheduled for maintenance.

# Serial port [x] disabled [56]

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
   The printer discards any data received through the specified serial port.
- Make sure Serial Buffer is not set to Disabled.
- From the printer control panel, set Serial Buffer to Auto in the Serial [x] menu.

#### Some held jobs were not restored

From the printer control panel, touch **Continue** to delete the indicated job.

Note: Held jobs that are not restored remain in the printer hard disk and are inaccessible.

#### SMTP server not set up. Contact system administrator.

From the printer control panel, touch Continue to clear the message.

Note: If the message appears again, then contact your system support person.

### Standard network software error [54]

Try one or more of the following:

- From the printer control panel, touch **Continue** to continue printing.
- Turn off the printer, and then turn it back on.
- Update the network firmware in the printer or print server. For more information, visit the Lexmark support Web site at <u>http://support.lexmark.com</u> or contact customer support, and then report the message.

## Standard USB port disabled [56]

Try one or more of the following:

- From the printer control panel, touch **Continue** to clear the message.
- Enable the USB port. From the printer control panel, navigate to:

#### Network/Ports > USB Buffer > Auto

Note: The printer discards any data received through the USB port.

#### Supply needed to complete job

Do either of the following:

- Install the missing supply to complete the job.
- Cancel the current job.

# The device is operating in Safe Mode. Some print options may be disabled or provide unexpected results.

Touch **Continue** on the control panel to clear the message and continue printing.

### Too many flash options installed [58]

Try one or more of the following:

- Touch **Continue** on the control panel to continue printing.
- Remove the extra flash memory:
  - **1** Turn off the printer.
  - **2** Unplug the power cord from the electrical outlet.
  - **3** Remove the extra flash memory.
  - 4 Connect the power cord to a properly grounded electrical outlet.
  - **5** Turn the printer back on.

#### Too many trays attached [58]

- **1** Turn off the printer.
- 2 Unplug the power cord from the electrical outlet.

- **3** Remove the extra trays.
- 4 Connect the power cord to a properly grounded electrical outlet.
- **5** Turn the printer back on.

#### Tray [x] paper size unsupported

Replace with a supported paper size.

### **Unformatted flash detected [53]**

Try one or more of the following:

- From the printer control panel, touch **Continue** to stop the defragmentation and continue printing.
- Format the flash memory.

**Note:** If the error message remains, then the flash memory may be defective and needs to be replaced.

#### **Unsupported disk**

Remove the unsupported printer hard disk, and then insert a supported one.

### Unsupported option in slot [x] [55]

- **1** Turn off the printer.
- 2 Unplug the power cord from the electrical outlet.
- **3** Remove the unsupported option card from the printer controller board, and then replace it with a supported card.
- **4** Connect the power cord to a properly grounded electrical outlet.
- **5** Turn the printer back on.

#### Waste toner bottle nearly full [82.xy]

You may need to order a waste toner bottle. If necessary, touch **Continue** on the printer control panel to clear the message and continue printing.

#### Weblink server not set up. Contact system administrator.

From the printer control panel, touch Continue to clear the message.

Note: If the message appears again, then contact your system support person.

# Solving printer problems

# **Basic printer problems**

#### The printer is not responding

Action	Yes	Νο
<b>Step 1</b> Make sure the printer is turned on. Is the printer turned on?	Go to step 2.	Turn on the printer.
Step 2 Check if the printer is in Sleep mode or Hibernate mode. Is the printer in Sleep mode or Hibernate mode?	Press the Sleep button to wake the printer from Sleep mode or Hibernate mode.	Go to step 3.
<b>Step 3</b> Check if one end of the power cord is plugged into the printer and the other to a properly grounded electrical outlet. Is the power cord plugged into the printer and a properly grounded electrical outlet?	Go to step 4.	Plug one end of the power cord into the printer and the other to a properly grounded electrical outlet.
<b>Step 4</b> Check other electrical equipment plugged into the electrical outlet. Does other electrical equipment work?	Unplug the other electrical equipment, and then turn on the printer. If the printer does not work, then reconnect the other electrical equipment.	Go to step 5.
<b>Step 5</b> Check if the cables connecting the printer and the computer are inserted in the correct ports. Are the cables inserted in the correct ports?	Go to step 6.	<ul> <li>Make sure to match the following:</li> <li>The USB symbol on the cable with the USB symbol on the printer</li> <li>The appropriate Ethernet cable with the Ethernet port</li> </ul>
<b>Step 6</b> Make sure the electrical outlet is not turned off by a switch or breaker.	Turn on the switch or reset the breaker.	Go to step 7.
Is the electrical outlet turned off by a switch or breaker?		

Action	Yes	Νο
<ul><li>Step 7</li><li>Check if the printer is plugged into any surge protectors, uninterruptible power supplies, or extension cords.</li><li>Is the printer plugged into any surge protectors, uninterruptible power supplies, or extension cords?</li></ul>	Connect the printer power cord directly to a properly grounded electrical outlet.	Go to step 8.
<ul> <li>Step 8</li> <li>Check if one end of the printer cable is plugged into a port on the printer and the other to the computer, print server, option, or other network device.</li> <li>Is the printer cable securely attached to the printer and the computer, print server, option, or other network device?</li> </ul>	Go to step 9.	Connect the printer cable securely to the printer and the computer, print server, option, or other network device.
Step 9Make sure to install all hardware options properly and remove any packing material.Are all hardware options properly installed and all packing material removed?	Go to step 10.	Turn off the printer, remove all packing materials, then reinstall the hardware options, and then turn on the printer.
<b>Step 10</b> Check if you have selected the correct port settings in the printer driver. Are the port settings correct?	Go to step 11.	Use correct printer driver settings.
Step 11         Check the installed printer driver.         Is the correct printer driver installed?	Go to step 12.	Install the correct printer driver.
Step 12 Turn off the printer, then wait for about 10 seconds, and then turn the printer back on. Is the printer working?	The problem is solved.	Contact <u>customer</u> <u>support</u> .

#### Printer display is blank

Action	Yes	Νο
<b>Step 1</b> Press the Sleep button on the printer control panel. Does <b>Ready</b> appear on the printer display?	The problem is solved.	Go to step 2.
<b>Step 2</b> Turn off the printer, then wait for about 10 seconds, and then turn the printer back on.	The problem is solved.	Turn off the printer, and then contact <u>customer support</u> .
Do <b>Please wait</b> and <b>Ready</b> appear on the printer display?		

# Hardware and internal option problems

#### **Cannot detect internal option**

Action	Yes	Νο
<b>Step 1</b> Turn off the printer, then wait for about 10 seconds, and then turn on the printer.	The problem is solved.	Go to step 2.
Does the internal option operate correctly?		
<ul> <li>Step 2</li> <li>Check if the internal option is properly installed in the controller board.</li> <li>a Turn off the printer using the power switch, and then unplug the power cord from the electrical outlet.</li> <li>b Make sure the internal option is installed in the appropriate connector in the controller board.</li> <li>c Connect the power cord to the printer, then to a properly grounded electrical outlet, and then turn on the printer.</li> <li>ls the internal option properly installed in the controller board?</li> </ul>	Go to step 3.	Connect the internal option to the controller board.
Step 3Print a menu settings page, and then check to see if the internal option is listed in the Installed Features list.Is the internal option listed in the menu settings page?	Go to step 4.	Reinstall the internal option.

Action	Yes	No
<ul><li>Step 4</li><li>a Check if the internal option is selected.</li></ul>	The problem is solved.	Contact <u>customer</u> <u>support</u> .
It may be necessary to manually add the internal option in the printer driver to make it available for print jobs. For more information, see <u>"Adding available options in the print driver"</u> on page 45.		
<b>b</b> Resend the print job.		
Does the internal option operate correctly?		

### Internal print server does not operate correctly

	Check if the internal print server is supported by the printer. <b>Note:</b> An internal
	print server from another printer may not work with this printer.
. ' .	Contact <u>customer</u> <u>support</u> .

### Internal Solutions Port does not operate correctly

Action	Yes	Νο
<b>Step 1</b> Make sure the Internal Solutions Port (ISP) is installed.	Go to step 2.	Check if you have a supported ISP.
<ul> <li>a Install the ISP. For more information, see <u>"Installing an Internal Solutions Port" on page 32</u>.</li> <li>b Print a menu settings page, and then check if the ISP is listed in the Installed Features list.</li> </ul>		<b>Note:</b> An ISP from another printer may not work on this printer.
Is the ISP listed in the Installed Features list?		

Action	Yes	No
<b>Step 2</b> Check the cable and the ISP connection.	The problem is solved.	Contact <u>customer</u> <u>support</u> .
<b>a</b> Use the correct cable, and then make sure it is securely connected to the ISP.		
<b>b</b> Check if the ISP solution interface cable is securely connected into the receptacle of the controller board.		
<b>Note:</b> The ISP solution interface cable and the receptacle on the controller board are color-coded.		
Does the Internal Solutions Port operate correctly?		

## Tray problems

Action	Yes	Νο
<ul> <li>Step 1 <ul> <li>a Pull out the tray, and then do one or more of the following:</li> <li>Check for paper jams or misfeeds.</li> <li>Check if the paper size indicators on the paper guides are aligned with the paper size indicators on the tray.</li> <li>If you are printing on custom-size paper, then make sure that the paper guides rest against the edges of the paper.</li> <li>Make sure the paper is below the maximum paper fill indicator.</li> <li>Make sure paper lies flat in the tray.</li> </ul> </li> <li>b Check if the tray closes properly.</li> </ul>	The problem is solved.	Go to step 2.
<ul> <li>Step 2</li> <li>a Turn off the printer, then wait about 10 seconds, and then turn the printer back on.</li> <li>b Resend the print job.</li> <li>Is the tray working?</li> </ul>	The problem is solved.	Go to step 3.
<ul> <li>Step 3</li> <li>Check if the tray is installed and recognized by the printer.</li> <li>Print a menu settings page, and then check if the tray is listed in the Installed Features list.</li> <li>Is the tray listed in the menu settings page?</li> </ul>	Go to step 4.	Reinstall the tray. For more information, see the setup documentation that came with the tray.

Action	Yes	Νο
<b>Step 4</b> Check if the tray is available in the printer driver.	The problem is solved.	Contact <u>customer</u> <u>support</u> .
<b>Note:</b> If necessary, manually add the tray in the printer driver to make it available for print jobs. For more information, see <u>"Adding available options in the print driver" on page 45</u> .		
Is the tray available in the printer driver?		

## USB/parallel interface card does not operate correctly

Action	Yes	No
<ul> <li>Step 1</li> <li>Make sure the USB or parallel interface card is installed.</li> <li>a Install the USB or parallel interface card. For more information, see <u>"Installing an Internal Solutions Port" on page 32.</u></li> </ul>	Go to step 2.	Check if you have a supported USB or parallel interface card.
<ul> <li>b Print a menu settings page, and then check if the USB or parallel interface card is listed in the Installed Features list.</li> <li>Is the USB or parallel interface card listed in the Installed Features list?</li> </ul>		<b>Note:</b> A USB or parallel interface card from another printer may not work on this printer.
<ul> <li>Step 2</li> <li>Check the cable and the USB or parallel interface card connection.</li> <li>Use the correct cable, and then make sure it is securely connected to the USB or parallel interface card.</li> <li>Does the USB or parallel interface card operate correctly?</li> </ul>	The problem is solved.	Contact <u>customer</u> <u>support</u> .

# Paper feed problems

### Jammed pages are not reprinted

Action	Yes	Νο
Turn on Jam Recovery. <b>a</b> From the home screen, navigate to:	The problem is solved.	Contact <u>customer</u> <u>support</u> .
Settings > General Settings > Print Recovery		
<b>b</b> From the Jam Recovery menu, select <b>On</b> or <b>Auto</b> .		
<b>c</b> Save your changes.		
Do pages reprint after a jam?		

### Paper frequently jams

Action	Yes	No
<ul> <li>Step 1 <ul> <li>Pull out the tray, and then do one or more of the following:</li> <li>Make sure paper lies flat in the tray.</li> <li>Check if the paper size indicators on the paper guides are aligned with the paper size indicators on the tray.</li> <li>Check if the paper guides are aligned against the edges of the paper.</li> <li>Make sure the paper is below the maximum paper fill indicator.</li> <li>Check if you are printing on a recommended paper size and type.</li> </ul> </li> <li>b Insert the tray properly. If jam recovery is enabled, then the print jobs will reprint automatically.</li> <li>Do paper jams still occur frequently?</li> </ul>	Go to step 2.	The problem is solved.
	Go to step 3.	The problem is solved.
-	Contact <u>customer</u> <u>support</u> .	The problem is solved.

### Paper jam message remains after jam is cleared

Action	Yes	Νο
<ul> <li>Check the entire paper path for jammed paper.</li> <li>a Remove any jammed paper.</li> <li>b From the printer control panel, touch Continue to clear the message.</li> </ul>	Contact <u>customer</u> <u>support</u> .	The problem is solved.
Does the paper jam message remain?		

# **Solving print problems**

## **Printing problems**

#### Confidential and other held jobs do not print

**Note:** Confidential, Verify, Reserve, and Repeat print jobs may be deleted if the printer requires extra memory to process additional held jobs.

Action	Yes	No
<b>Step 1</b> Open the held jobs folder on the printer display, and then verify that your print job is listed. Is your print job listed in the held jobs folder?	Go to step 2.	Select one of the Print and Hold options, and then resend the print job. For more information, see <u>"Printing held jobs"</u> <u>on page 73</u> .
<ul> <li>Step 2</li> <li>The print job may contain a formatting error or invalid data.</li> <li>Delete the print job, and then send it again.</li> <li>For PDF files, generate a new PDF, and then print it again.</li> <li>If you are printing from the Internet, then the printer may be reading multiple job titles as duplicates and deleting all jobs except the first one.</li> <li>For Windows users <ul> <li>a Open the Print Properties folder.</li> <li>b From the Print and Hold dialog, select the "Keep duplicate documents" check box.</li> <li>c Enter a PIN number.</li> </ul> </li> <li>For Macintosh users <ul> <li>Save each print job, name each job differently, and then send the individual jobs to the printer.</li> </ul> </li> </ul>	The problem is solved.	Go to step 3.
<b>Step 3</b> Free up additional printer memory by deleting some of the held jobs.	The problem is solved.	Add additional printer memory.
Does the job print?		

#### Envelope seals when printing

Ac	tion	Yes	No
a	Use envelopes that have been stored in a dry environment. <b>Note:</b> Printing on envelopes with high moisture content can seal the flaps. Resend the print job.	Contact <u>customer</u> <u>support</u> .	The problem is solved.
	bes the envelope seal when printing?		

### Error message about reading the flash drive appears

Action	Yes	Νο
<b>Step 1</b> Check if the flash drive is inserted into the front USB port. <b>Note:</b> The flash drive will not work if it is inserted into the rear USB port.	Go to step 2.	Insert the flash drive into the front USB port.
Is the flash drive inserted into the front USB port?		
<ul><li>Step 2</li><li>Check if the indicator light on the printer control panel is blinking green.</li><li>Note: A green blinking light indicates that the printer is busy.</li></ul>	Wait until the printer is ready, then view the held jobs list, and then print the documents.	Go to step 3.
Is the indicator light blinking green?		
<ul><li>Step 3</li><li>a Check for an error message on the display.</li><li>b Clear the message.</li></ul>	Go to step 4.	The problem is solved.
Does the error message still appear?		
Step 4 Check if the flash drive is supported. For more information on tested and approved USB flash drives, see <u>"Supported flash drives and file types" on page 72</u> .	Go to step 5.	The problem is solved.
Does the error message still appear?		
<b>Step 5</b> Check if the USB port is disabled by the system support person.	Contact <u>customer</u> support.	The problem is solved.
Does the error message still appear?		

#### Incorrect characters print

Action	Yes	Νο
<ul> <li>Step 1</li> <li>Make sure that the printer is not in Hex Trace mode.</li> <li>Note: If Ready Hex appears on the display, then turn off the printer, and then turn it back on to deactivate Hex Trace mode.</li> </ul>	Deactivate Hex Trace mode.	Go to step 2.
Is the printer in Hex Trace mode? Step 2	Contact <u>customer</u>	The problem is
<ul> <li>a From the control panel, select Standard Network or Network [x], and then set PCL SmartSwitch or PS SmartSwitch to On.</li> </ul>	support.	solved.
<b>b</b> Resend the print job.		
Do incorrect characters print?		

# Job prints from the wrong tray or on the wrong paper

Action	Yes	Νο
<ul><li>Step 1</li><li>a Check if you are printing on paper that is supported by the tray.</li><li>b Resend the print job.</li></ul>	The problem is solved.	Go to step 2.
Did the job print from the correct tray or on the correct paper?		
<ul> <li>Step 2</li> <li>a From the Paper menu on the printer control panel, set the paper size and type to match the paper loaded in the tray.</li> <li>b Resend the print job.</li> </ul>	The problem is solved.	Go to step 3.
Did the job print from the correct tray or on the correct paper?		
<ul> <li>Step 3</li> <li>a Depending on your operating system, open Printing Preferences or the Print dialog, and then specify the paper type.</li> <li>b Resend the print job.</li> </ul>	The problem is solved.	Go to step 4.
Did the job print from the correct tray or on the correct paper?		
<ul><li>Step 4</li><li>a Check if the trays are not linked.</li><li>b Resend the print job.</li></ul>	The problem is solved.	Contact <u>customer</u> <u>support</u> .
Did the job print from the correct tray or on the correct paper?		

### Large jobs do not collate

Action	Yes	No
<ul> <li>Step 1</li> <li>a From the Finishing menu on the printer control panel, set Collate to (1,2,3) (1,2,3).</li> <li>b Resend the print job.</li> </ul>	The problem is solved.	Go to step 2.
Did the job print and collate correctly?		
<ul> <li>Step 2</li> <li>a From the printer software, set Collate to (1,2,3) (1,2,3).</li> <li>Note: Setting Collate to (1,1,1) (2,2,2) in the software overrides the setting in the Finishing menu.</li> <li>b Resend the print job.</li> <li>Did the job print and collate correctly?</li> </ul>	The problem is solved.	Go to step 3.
Step 3Reduce the complexity of the print job by eliminating the number and size of fonts, the number and complexity of images, and the number of pages in the job.Did the job print and collate correctly?	The problem is solved.	Contact <u>customer</u> <u>support</u> .

## Multiple-language PDF files do not print

# **Contacting customer support**

When you contact customer support, you will need to be able to describe the problem you are experiencing, the message on the printer display, and the troubleshooting steps you have already taken to find a solution.

You need to know your printer model type and serial number. For more information, see the label at the back of the printer. The serial number is also listed on the menu settings page.

Lexmark has various ways to help you solve your printing problem. Visit the Lexmark Web site at <u>http://support.lexmark.com</u>, and then select one of the following:

Tech Library	You can browse our library of manuals, support documentation, drivers, and other downloads to help you solve common problems.
E-mail	You can send an e-mail to the Lexmark team, describing your problem. A service representative will respond and provide you with information to solve your problem.
Live chat	You can chat directly with a service representative. They can work with you to solve your printer problem or provide assistance through Assisted Service where the service representative can remotely connect to your computer through the Internet to troubleshoot problems, install updates, or complete other tasks to help you successfully use your Lexmark product.

Telephone support is also available. In the U.S. or Canada, call 1-800-539-6275. For other countries or regions, visit <u>http://support.lexmark.com</u>.

## **GOVERNMENT END USERS**

The Software Program and any related documentation are "Commercial Items," as that term is defined in 48 C.F.R. 2.101, "Computer Software" and "Commercial Computer Software Documentation," as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable. Consistent with 48 C.F.R. 12.212 or 48 C.F.R. 227.7202-1 through 227.7207-4, as applicable, the Commercial Computer Software and Commercial Software Documentation are licensed to the U.S. Government end users (a) only as Commercial Items and (b) with only those rights as are granted to all other end users pursuant to the terms and conditions herein.

## Trademarks

Lexmark, Lexmark with diamond design, MarkNet, and MarkVision are trademarks of Lexmark International, Inc., registered in the United States and/or other countries.

ScanBack is a trademark of Lexmark International, Inc.

Mac and the Mac logo are trademarks of Apple Inc., registered in the U.S. and other countries.

PCL® is a registered trademark of the Hewlett-Packard Company. PCL is Hewlett-Packard Company's designation of a set of printer commands (language) and functions included in its printer products. This printer is intended to be compatible with the PCL language. This means the printer recognizes PCL commands used in various application programs, and that the printer emulates the functions corresponding to the commands.

## Federal Communications Commission (FCC) compliance information

#### statement

This product has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The FCC Class A limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense.

The manufacturer is not responsible for any radio or television interference caused by using other than recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate this equipment.

**Note:** To assure compliance with FCC regulations on electromagnetic interference for a Class A computing device, use a properly shielded and grounded cable such as Lexmark part number 1021231 for parallel attach or 1021294 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

#### **Licensing notices**

All licensing notices associated with this product can be viewed from the CD:\NOTICES directory of the installation software CD.

#### **Noise emission levels**

The following measurements were made in accordance with ISO 7779 and reported in conformance with ISO 9296.

Note: Some modes may not apply to your product.

1-meter average sound pressure, dBA				
Printing One-sided: 52 (XM9145), 53 (XM9155), 55 (XM9165); Two-side 55 (XM9145, XM9155), 56 (XM91				
Scanning	57 (XM9145); 56 (XM9155, XM9165)			
Copying	53 (XM9145); 54 (XM9155); 55 (XM9165)			
Ready	29 (XM9145); 31 (XM9155, XM9165)			

Values are subject to change. See <u>www.lexmark.com</u> for current values.

#### Waste from Electrical and Electronic Equipment (WEEE) directive

The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products.

If you have further questions about recycling options, visit the Lexmark Web site at <u>www.lexmark.com</u> for your local sales office phone number.

## Taiwan RoHS information 限用物質含有情況標示

設備名稱:雷射印表機或多功能印表機 Equipment name: Laser Printer or Multifunction Printer		型號(型式):請參閱注意事項章節 Type designation (Type): Please see the Notices section.

備考 1. "超出 0.1 wt %"及"超出 0.01 wt %"係指限用物質之百分比含量超出百分比含量基準值。 Note 1: "Exceeding 0.1 wt %" and "exceeding 0.01 wt %" indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition. 備考 2. "〇"係指該項限用物質之百分比含量未超出百分比含量基準值。 Note 2: "〇" indicates that the percentage content of the restricted substance does not exceed the percentage of						

reference value of presence condition.

備考3. "一"係指該項限用物質為排除項目。

Note 3 : "-" indicates that the restricted substance corresponds to the exemption.

## India E-Waste notice

This product complies with the India E-Waste (Management and Handling) Rules, 2011, which prohibit use of lead, mercury, hexavalent chromium, polybrominated biphenyls, or polybrominated diphenyl ethers in concentrations exceeding 0.1% by weight and 0.01% by weight for cadmium, except for the exemption set in Schedule II of the Rules.

## **Product disposal**

Do not dispose of the printer or supplies in the same manner as normal household waste. Consult your local authorities for disposal and recycling options.

## Static sensitivity notice

This symbol identifies static-sensitive parts. Do not touch in the areas near these symbols without first touching the metal frame of the printer.

## **ENERGY STAR**

Any Lexmark product bearing the ENERGY STAR emblem on the product or on a start-up screen is certified to comply with Environmental Protection Agency (EPA) ENERGY STAR requirements as configured when shipped by Lexmark.

## Temperature information

Ambient operating temperature	10 to 30°C (50 to 86°F)
Shipping temperature	-10 to 40°C (14 to 104°F)
Storage temperature and relative humidity	-10 to 40°C (14 to 104°F)
	15 to 85% RH

## Laser notice

The printer is certified in the U.S. to conform to the requirements of DHHS 21 CFR Chapter I, Subchapter J for Class I (1) laser products, and elsewhere is certified as a Class I laser product conforming to the requirements of IEC 60825-1: 2014.

Class I laser products are not considered to be hazardous. The printer contains internally a Class IIIb (3b) laser that is nominally a 15-milliwatt gallium arsenide laser operating in the wavelength of 787–800 nanometers. The laser system and printer are designed so there is never any human access to laser radiation above a Class I level during normal operation, user maintenance, or prescribed service condition.

## Laser advisory label

A laser notice label may be affixed to this printer as shown:

DANGER - Invisible laser radiation when cartridges are removed and interlock defeated. Avoid exposure to laser beam. PERIGO - Radiação a laser invisível será liberada se os cartuchos forem removidos e o lacre rompido. Evite a exposição aos feixes de laser. Opasnost - Nevidljivo lasersko zračenje kada su kasete uklonjene i poništena sigurnosna veza. Izbjegavati izlaganje zracima. NEBEZPEČÍ - Když jsou vyjmuty kazety a je odblokována pojistka, ze zařízení je vysíláno neviditelné laserové záření. Nevystavujte se působení laserového paprsku. FARE - Usynlig laserstråling, når patroner fjernes, og spærreanordningen er slået fra. Undgå at blive udsat for laserstrålen. GEVAAR - Onzichtbare laserstraling wanneer cartridges worden verwijderd en een vergrendeling wordt genegeerd. Voorkom blootstelling aan de laser. DANGER - Rayonnements laser invisibles lors du retrait des cartouches et du déverrouillage des loquets. Eviter toute exposition au rayon laser. VAARA - Näkymätöntä lasersäteilyä on varottava, kun värikasetit on poistettu ja lukitus on auki. Vältä lasersäteelle altistumista. GEFAHR - Unsichtbare Laserstrahlung beim Herausnehmen von Druckkassetten und offener Sicherheitssperre. Laserstrahl meiden. ΚΙΝΔΥΝΟΣ - Έκλυση αόρατης ακτινοβολίας laser κατά την αφαίρεση των κασετών και την απασφάλιση της μανδάλωσης. Αποφεύγετε την έκθεση στην ακτινοβολία laser. VESZÉLY – Nem látható lézersugárzás fordulhat elő a patronok eltávolításakor és a zárószerkezet felbontásakor. Kerülje a lézersugárnak való kitettséget. PERICOLO - Emissione di radiazioni laser invisibili durante la rimozione delle cartucce e del blocco. Evitare l'esposizione al raggio laser. FARE – Usynlig laserstråling når kassettene tas ut og sperren er satt ut av spill. Unngå eksponering for laserstrålen. NIEBEZPIECZEŃSTWO - niewidzialne promieniowanie laserowe podczas usuwania kaset i blokady. Należy unikać naświetlenia promieniem lasera. ОПАСНО! Невидимое лазерное излучение при извлеченных картриджах и снятии блокировки. Избегайте воздействия лазерных лучей. Pozor – Nebezpečenstvo neviditeľného laserového žiarenia pri odobratých kazetách a odblokovanej poistke. Nevystavujte sa lúčom. PELIGRO: Se producen radiaciones láser invisibles al extraer los cartuchos con el interbloqueo desactivado. Evite la exposición al haz de láser. FARA – Osynlig laserstrålning när patroner tas ur och spärrmekanismen är upphävd. Undvik exponering för laserstrålen. 危险 - 当移除碳粉盒及互锁失效时会产生看不见的激光辐射,请避免暴露在激光光束下。 危險 - 移除碳粉匣與安全連續開闢失效時會產生看不見的雷射輻射。請避免曝露在雷射光束下。 危険 - カートリッジが取り外され、内部ロックが無効になると、見えないレーザー光が放射されます。 このレーザー光に当たらないようにしてください。

#### **Power consumption**

#### **Product power consumption**

The following table documents the power consumption characteristics of the product.

Note: Some modes may not apply to your product.

Mode	Description	Power consumption (Watts)		
Printing	The product is generating hard-copy output from electronic inputs.	One-sided: 865 (XM9145), 925 (XM9155), 985 (XM9165); Two-sided: 790 (XM9145), 850 (XM9155), 890 (XM9165)		
Сору	The product is generating hard-copy output from hard-copy original documents.	880 (XM9145); 950 (XM9155); 1000 (XM9165)		
Scan	The product is scanning hard-copy documents.	230		
Ready	The product is waiting for a print job.	220		
Sleep Mode	The product is in a high-level energy-saving mode.	3.6		
Hibernate	The product is in a low-level energy-saving mode.	0.6		
Off	The product is plugged into an electrical outlet, but the power switch is turned off.	0		

The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average.

Values are subject to change. See <u>www.lexmark.com</u> for current values.

#### Sleep Mode

This product is designed with an energy-saving mode called *Sleep Mode*. The Sleep Mode saves energy by lowering power consumption during extended periods of inactivity. The Sleep Mode is automatically engaged after this product is not used for a specified period of time, called the *Sleep Mode Timeout*.

	Factory default Sleep Mode Timeout for this product (in minutes):	20	
- 1		1 1	

By using the configuration menus, the Sleep Mode Timeout can be modified between 1 minute and 120 minutes. Setting the Sleep Mode Timeout to a low value reduces energy consumption, but may increase the response time of the product. Setting the Sleep Mode Timeout to a high value maintains a fast response, but uses more energy.

#### **Hibernate Mode**

This product is designed with an ultra-low power operating mode called *Hibernate mode*. When operating in Hibernate Mode, all other systems and devices are powered down safely.

The Hibernate mode can be entered in any of the following methods:

- Using the Hibernate Timeout
- Using the Schedule Power modes
- Using the Sleep/Hibernate button

Factory default Hibernate Timeout for this product in all countries or regions 3 days

The amount of time the printer waits after a job is printed before it enters Hibernate mode can be modified between one hour and one month.

#### Off mode

If this product has an off mode which still consumes a small amount of power, then to completely stop product power consumption, disconnect the power supply cord from the electrical outlet.

#### Total energy usage

It is sometimes helpful to calculate the total product energy usage. Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the product spends in each mode in order to calculate energy usage. The total product energy usage is the sum of each mode's energy usage.

#### **Industry Canada compliance statement**

This Class A digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Standard ICES-003.

## Avis de conformité aux normes de l'industrie du Canada

Cet appareil numérique de classe A est conforme aux exigences de la norme canadienne relative aux équipements pouvant causer des interférences NMB-003.

#### Japanese VCCI notice

製品にこのラベルが表示されている場合、 次の要件を満たしています。 この装置は、クラス A 情報技術装置です。この装置を家庭環境で使用する と電波妨害を引き起こすことがあります。この場合には使用者が適切な対策 を講ずるよう要求されることがあります。 VCCI-A

この装置は、クラスA情報技術装置です。この装置を家庭環境で使用すると電波妨害を引き起こすことがあります。この場合には使用者が適切な対策を講ずるよう要求されることがあります。 VCCI-A

## **European Community (EC) directives conformity**

This product is in conformity with the protection requirements of EC Council directives 2004/108/EC, 2006/95/EC, and 2011/65/EU on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY, A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative.

This product satisfies the Class A limits of EN 55022 and safety requirements of EN 60950-1.

#### **Radio interference notice**

#### Warning

This is a product that complies with the emission requirements of EN55022 Class A limits and immunity requirements of EN55024. This product is not intended to be used in residential/domestic environments.

This is a Class A product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

#### **Regulatory notices for telecommunication terminal equipment**

This section contains regulatory information pertaining to products that contain telecommunication terminal equipment such as facsimile.

## Notice to users of the US telephone network: FCC requirements

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the Administrative Council for Terminal Attachments (ACTA). On the back of this equipment is a label that contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If requested, this number must be provided to your telephone company.

This equipment uses the RJ-11C Universal Service Order Code (USOC) jack.

A plug and jack used to connect this equipment to the premises' wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See your setup documentation for more information.

The Ringer Equivalence Number (REN) is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact your local telephone company. For products approved after July 23, 2001, the REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (for example, 03 is a REN of 0.3). For earlier products, the REN is shown separately on the label.

If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. If advance notice is not practical, the telephone company will notify the customer as soon as possible. You will also be advised of your right to file a complaint with the FCC.

The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of this equipment. If this happens, the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

If you experience trouble with this equipment, for repair or warranty information, contact Lexmark International, Inc. at <u>www.lexmark.com</u> or your Lexmark representative. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

This equipment contains no user serviceable parts. For repair and warranty information, contact Lexmark International, Inc. See the previous paragraph for contact information.

Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission, or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

Telephone companies report that electrical surges, typically lightning transients, are very destructive to customer terminal equipment connected to AC power sources. This has been identified as a major nationwide problem. It is recommended that the customer install an appropriate AC surge arrestor in the AC outlet to which this device is connected. An appropriate AC surge arrestor is defined as one that is suitably rated, and certified by UL (Underwriter's Laboratories), another NRTL (Nationally Recognized Testing Laboratory), or a recognized safety certification body in the country/region of use. This is to avoid damage to the equipment caused by local lightning strikes and other electrical surges.

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device, including fax machines, to send any message unless said message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message, and the

telephone number of the sending machine or such business, other entity, or individual. (The telephone number provided may not be a 900 number or any other number for which charges exceed local or long-distance transmission charges.)

See your user documentation in order to program this information into your fax machine.

#### Notice to users of the Canadian telephone network

This product meets the applicable Industry Canada technical specifications. The Ringer Equivalence Number (REN) is an indication of the maximum number of terminals allowed to be connected to a telephone interface. The terminus of an interface may consist of any combination of devices, subject only to the requirement that the sum of the RENs of all the devices does not exceed five. The modem REN is located on the rear of the equipment on the product labeling.

Telephone companies report that electrical surges, typically lightning transients, are very destructive to customer terminal equipment connected to AC power sources. This has been identified as a major nationwide problem. It is recommended that the customer install an appropriate AC surge arrestor in the AC outlet to which this device is connected. An appropriate AC surge arrestor is defined as one that is suitably rated, and certified by UL (Underwriter's Laboratories), another NRTL (Nationally Recognized Testing Laboratory), or a recognized safety certification body in the country/region of use. This is to avoid damage to the equipment caused by local lightning strikes and other electrical surges.

This equipment uses CA11A telephone jacks.

#### Avis réservé aux utilisateurs du réseau téléphonique du Canada

Ce produit est conforme aux spécifications techniques d'Industrie Canada. Le numéro REN (ringer equivalence number : numéro d'équivalence de sonnerie) fournit une indication du nombre maximum de terminaux pouvant être connectés à l'interface téléphonique. En bout de ligne, le nombre d'appareils qui peuvent être connectés n'est pas directement limité, mais la somme des REN de ces appareils ne doit pas dépasser cinq. Le numéro REN du modem est indiqué sur l'étiquette produit située à l'arrière de l'équipement.

Les compagnies de téléphone constatent que les surtensions électriques, en particulier celles dues à la foudre, entraînent d'importants dégâts sur les terminaux privés connectés à des sources d'alimentation CA. Il s'agit-là d'un problème majeur d'échelle nationale. En conséquence, il vous est recommandé de brancher un parasurtenseur dans la prise de courant à laquelle l'équipement est connecté. Utilisez un parasurtenseur répondant à des caractéristiques nominales satisfaisantes et certifié par le laboratoire d'assureurs UL (Underwriter's Laboratories), un autre laboratoire agréé de type NRTL (Nationally Recognized Testing Laboratory) ou un organisme de certification agréé dans votre région ou pays. Ceci prévient tout endommagement de l'équipement causé par les orages et autres surtensions électriques.

Cet équipement utilise des prises de téléphone CA11A.

#### Notice to users of the New Zealand telephone network

The following are special conditions for the Facsimile User Instructions. The grant of a telepermit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom's network services.

This equipment shall not be set up to make automatic calls to the Telecom's 111 Emergency Service.

This equipment may not provide for the effective hand-over of a call to another device connected to the same line.

This equipment should not be used under any circumstances that may constitute a nuisance to other Telecom customers.

Some parameters required for compliance with Telecom's telepermit requirements are dependent on the equipment associated with this device. The associated equipment shall be set to operate within the following limits for compliance to Telecom's specifications:

- There shall be no more than 10 call attempts to the same number within any 30 minute period for any single manual call initiation, and
- The equipment shall go on-hook for a period of not less than 30 seconds between the end of one attempt and the beginning of the next call attempt.
- The equipment shall be set to ensure that automatic calls to different numbers are spaced such that there is not less than 5 seconds between the end of one call attempt and the beginning of another.

#### Japanese telecom notice

The installed optional modem is in compliance with Japanese Telecommunication Law and has been Certified by JATE, with Certification Number A11-0160001.

Lexmark International, Inc.
LEX-M03-002
A11-0160001JP

#### Using this product in Switzerland

This product requires a Swiss billing tone filter (Lexmark part number 80D1877) to be installed on any line which receives metering pulses in Switzerland. The filter must be used, as metering pulses are present on all analog telephone lines in Switzerland.

## Utilisation de ce produit en Suisse

Cet appareil nécessite l'utilisation d'un filtre de tonalité de facturation suisse (n° de référence Lexmark : 80D1877) devant être installé sur toute ligne recevant des impulsions de comptage en Suisse. Ce filtre doit être utilisé pour toute installation car ces impulsions existent sur toutes les lignes téléphoniques suisses.

## Verwendung dieses Produkts in der Schweiz

Für dieses Produkt muss ein schweizerischer Billing Tone Filter zur Zählzeichenübertragung (Lexmark Teilenummer 80D1877) für jede Leitung installiert werden, über die in der Schweiz Zeitsteuertakte übertragen werden. Die Verwendung des Filters ist obligatorisch, da in allen analogen Telefonleitungen in der Schweiz Zeitsteuertakte vorhanden sind.

## Uso del prodotto in Svizzera

Questo prodotto richiede un filtro toni Billing svizzero, (codice Lexmark 80D1877) da installare su tutte le linee che ricevono impulsi remoti in Svizzera. È necessario utilizzare il filtro poiché gli impulsi remoti sono presenti su tutte le linee analogiche in Svizzera.

## Notice to Users in the European Union

Products bearing the CE mark are in conformity with the protection requirements of EC Council directives 2004/108/EC, 2006/95/EC, 1999/5/EC, and 2011/65/EU on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, radio equipment and telecommunications terminal equipment, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.

Compliance is indicated by the CE marking.

# CE

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY. A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative.

This product satisfies the Class A limits of EN 55022 and safety requirements of EN 60950-1.

Refer to the table at the end of the Notices section for further compliance information.

## **Regulatory notices for wireless products**

This section contains the following regulatory information pertaining to wireless products that contain transmitters, for example, but not limited to, wireless network cards or proximity card readers.

## Modular component notice

This product may contain the following modular component(s):

Lexmark Regulatory Type/Model LEX-M01-005; FCC ID:IYLLEXM01005; IC:2376A-M01005

## Exposure to radio frequency radiation

The radiated output power of this device is far below the radio frequency exposure limits of the FCC and other regulatory agencies. A minimum separation of 20 cm (8 inches) must be maintained between the antenna and any persons for this device to satisfy the RF exposure requirements of the FCC and other regulatory agencies.

## Industry Canada (Canada)

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that necessary for successful communication.

This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

To prevent radio interference to the licensed service, this device is intended to be operated indoors and away from windows to provide maximum shielding.

#### Industrie Canada (Canada)

Selon la règlementation d'Industrie Canada, l'émetteur radio ne fonctionner qu'avec une antenne dont le type et le gain maximal (ou inférieur) ont été approuvés par Industrie Canada. Pour réduire les interférences radio potentielles auprès d'autres utilisateurs, le type d'antenne et son gain doivent être choisis de telle sorte que la puissance isotrope rayonnée équivalente (PIRE) ne soit pas supérieure à ce qui est nécessaire pour assurer la réussite de la communication.

Cet appareil est conforme aux normes RSS exemptes de licence d'Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférences et (2) il doit accepter toutes les interférences, y compris les interférences pouvant entraîner un fonctionnement indésirable.

Pour éviter toute interférence radio au service sous licence, cet appareil est destiné à être utilisé à l'intérieur et à l'écart des fenêtres afin d'assurer une protection maximale.

#### Notice to users in the European Union

Products bearing the CE mark are in conformity with the protection requirements of EC Council directives 2004/108/EC, 2006/95/EC, 1999/5/EC, and 2011/65/EU on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, radio equipment and telecommunications terminal equipment, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.

Compliance is indicated by the CE marking.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY, A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative.

This product satisfies the Class A limits of EN 55022 and safety requirements of EN 60950-1.

Products equipped with 2.4GHz Wireless LAN option are in conformity with the protection requirements of EC Council directives 2004/108/EC, 2006/95/EC, and 1999/5/EC on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits and on radio equipment and telecommunications terminal equipment.

Compliance is indicated by the CE marking.

(()

Operation is allowed in all EU and EFTA countries, but is restricted to indoor use only.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY, A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative.

This product may be used in the countries indicated in the table below.

# STATEMENT OF LIMITED WARRANTY FOR LEXMARK LASER PRINTERS, LEXMARK LED PRINTERS, AND LEXMARK MULTIFUNCTION LASER PRINTERS

#### Lexmark International, Inc., Lexington, KY

This limited warranty applies to the United States and Canada. For customers outside the U.S., refer to the country-specific warranty information that came with your product.

This limited warranty applies to this product only if it was originally purchased for your use, and not for resale, from Lexmark or a Lexmark Remarketer, referred to in this statement as "Remarketer."

#### Limited warranty

Lexmark warrants that this product:

-Is manufactured from new parts, or new and serviceable used parts, which perform like new parts

-ls, during normal use, free from defects in material and workmanship

If this product does not function as warranted during the warranty period, contact a Remarketer or Lexmark for repair or replacement (at Lexmark's option).

If this product is a feature or option, this statement applies only when that feature or option is used with the product for which it was intended. To obtain warranty service, you may be required to present the feature or option with the product.

If you transfer this product to another user, warranty service under the terms of this statement is available to that user for the remainder of the warranty period. You should transfer proof of original purchase and this statement to that user.

#### Limited warranty service

The warranty period starts on the date of original purchase as shown on the purchase receipt and ends 12 months later provided that the warranty period for any supplies and for any maintenance items included with the printer shall end earlier if it, or its original contents, are substantially used up, depleted, or consumed. Fuser Units, Transfer/Transport Units, Paper Feed items, if any, and any other items for which a Maintenance Kit is available are substantially consumed when the printer displays a "Life Warning" or "Scheduled Maintenance" message for such item.

To obtain warranty service you may be required to present proof of original purchase. You may be required to deliver your product to the Remarketer or Lexmark, or ship it prepaid and suitably packaged to a Lexmark designated location. You are responsible for loss of, or damage to, a product in transit to the Remarketer or the Lexmark designated location.

When warranty service involves the exchange of a product or part, the item replaced becomes the property of the Remarketer or Lexmark. The replacement may be a new or repaired item.

The replacement item assumes the remaining warranty period of the original product.

Replacement is not available to you if the product you present for exchange is defaced, altered, in need of a repair not included in warranty service, damaged beyond repair, or if the product is not free of all legal obligations, restrictions, liens, and encumbrances.

As part of your warranty service and/or replacement, Lexmark may update the firmware in your printer to the latest version. Firmware updates may modify printer settings and cause counterfeit and/or unauthorized products, supplies, parts, materials (such as toners and inks), software, or interfaces to stop working. Authorized use of genuine Lexmark products will not be impacted.

Before you present this product for warranty service, remove all print cartridges, programs, data, and removable storage media (unless directed otherwise by Lexmark).

For further explanation of your warranty alternatives and the nearest Lexmark authorized servicer in your area contact Lexmark on the World Wide Web.

Remote technical support is provided for this product throughout its warranty period. For products no longer covered by a Lexmark warranty, technical support may not be available or only be available for a fee.

#### **Extent of limited warranty**

Lexmark does not warrant uninterrupted or error-free operation of any product or the durability or longevity of prints produced by any product.

Warranty service does not include repair of failures caused by:

- -Modification or unauthorized attachments
- -Accidents, misuse, abuse or use inconsistent with Lexmark user's guides, manuals, instructions or guidance
- -Unsuitable physical or operating environment
- -Maintenance by anyone other than Lexmark or a Lexmark authorized servicer
- -Operation of a product beyond the limit of its duty cycle
- -Use of printing media outside of Lexmark specifications

-Refurbishment, repair, refilling or remanufacture by a third party of products, supplies or parts

-Products, supplies, parts, materials (such as toners and inks), software, or interfaces not furnished by Lexmark

TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER LEXMARK NOR ITS THIRD PARTY SUPPLIERS OR REMARKETERS MAKE ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THIS PRODUCT, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND SATISFACTORY QUALITY. ANY WARRANTIES THAT MAY NOT BE DISCLAIMED UNDER APPLICABLE LAW ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES, EXPRESS OR IMPLIED, WILL APPLY AFTER THIS PERIOD. ALL INFORMATION, SPECIFICATIONS, PRICES, AND SERVICES ARE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE.

#### Limitation of liability

Your sole remedy under this limited warranty is set forth in this document. For any claim concerning performance or nonperformance of Lexmark or a Remarketer for this product under this limited warranty, you may recover actual damages up to the limit set forth in the following paragraph.

Lexmark's liability for actual damages from any cause whatsoever will be limited to the amount you paid for the product that caused the damages. This limitation of liability will not apply to claims by you for bodily injury or damage to real property or tangible personal property for which Lexmark is legally liable. **IN NO EVENT WILL LEXMARK BE LIABLE FOR ANY LOST PROFITS, LOST SAVINGS, INCIDENTAL DAMAGE, OR OTHER ECONOMIC OR CONSEQUENTIAL DAMAGES.** This is true even if you advise Lexmark or a Remarketer of the possibility of such damages. Lexmark is not liable for any claim by you based on a third party claim.

This limitation of remedies also applies to claims against any Suppliers and Remarketers of Lexmark. Lexmark's and its Suppliers' and Remarketers' limitations of remedies are not cumulative. Such Suppliers and Remarketers are intended beneficiaries of this limitation.

#### **Additional rights**

Some states do not allow limitations on how long an implied warranty lasts, or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions contained above may not apply to you.

This limited warranty gives you specific legal rights. You may also have other rights that vary from state to state.

#### Patent acknowledgment

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for Elliptic Curve Cryptography (ECC) Cipher Suites for Transport Layer Security (TLS) implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for TLS Elliptic Curve Cipher Suites with SHA-256/382 and AES Galois Counter Mode (GCM) implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for TLS Suite B Profile for Transport Layer Security (TLS) implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for Addition of the Camellia Cipher Suites to Transport Layer Security (TLS) implemented in the product or service.

The use of certain patents in this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for AES-CCM ECC Cipher Suites for TLS implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for IKE and IKEv2 Authentication Using the Eliptic Curve Digital Signature Algorithm (ECDSA) implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for Suite B Cryptographic Suites for IPSec implemented in the product or service.

The use of this product or service is subject to the reasonable, non-discriminatory terms in the Intellectual Property Rights (IPR) Disclosure of Certicom Corp. at the IETF for Algorithms for Internet Key Exchange version 1 (IKEv1) implemented in the product or service.
