## Understanding the printer control panel

Control panel item		Description	
1	Display		The display shows messages and pictures that communicate the status of the printer.
2	Select		Pressing <input checked="" type="checkbox"/> initiates action on a menu item.
3	Navigation buttons		Press the up or down arrow button to scroll through menu lists. Press the left or right arrow button to scroll through values or text that rolls to another screen.
4	Numeric keypad		Consists of the numbers 0–9, characters A through Z, an <b>↑A</b> , and a backspace button <b>Note:</b> The <b>↑A</b> key functions as Caps Lock.
5	Back		Returns the display to the previous screen
6	Indicator light		Indicates the printer status: <ul style="list-style-type: none"> <li>• Off—The power is off, or the printer is in Eco Mode.</li> <li>• Blinking green—The printer is warming up, processing data, or printing.</li> <li>• Solid green—The printer is on, but idle.</li> <li>• Solid red—Operator intervention is needed.</li> </ul>

Control panel item		Description
7	Stop	 Stops all printer activity A list of options is offered once <b>Stopped</b> appears on the display.
8	Menu	 Opens the menu index <b>Note:</b> These menus are available only when the printer is in the <b>Ready</b> state.
9	USB Direct port	Insert a USB flash drive to send data to the printer. Insert a USB cable from a digital camera to print photos with a PictBridge-enabled digital camera.
