

1 Connect the USB cable.

The diagram shows a computer on the left and a printer on the right. A USB cable is connected to the computer's USB port (labeled 1) and the printer's USB port (labeled 2). Two circular callouts provide a closer view of the connections.

2 Connect the power supply.

The diagram shows the printer with a power supply unit connected to its rear (labeled 1) and the power supply plugged into a wall outlet (labeled 2).

3 Make sure the power light is **on**.

The diagram shows the printer with a circular callout highlighting the power button. An arrow points to the power button, and a starburst icon indicates it is being pressed.

4 Remove the sticker and tape.

The diagram shows two ink cartridges, one black (82) and one cyan (83). Arrows indicate the removal of a blue sticker and a piece of blue tape from each cartridge.

5 Open the front cover and install the cartridges.

The diagram shows the front cover of the printer being opened (labeled 1). It then shows the ink cartridges being inserted into their respective slots (labeled 2). A callout shows the cartridges being pushed into the slots until they snap (labeled 4) with a starburst icon and the word "SNAP". A third callout shows the cartridges fully seated (labeled 3).

6 Open **both** paper trays.

The diagram shows the printer with both the top and front paper trays being lifted open, indicated by arrows and the number 1.

7 Load plain inkjet paper in paper tray 1 (front).

The diagram shows a sheet of paper being loaded into the front paper tray (labeled 1). A callout shows the paper being pushed into the tray (labeled 2). Another callout shows the power button being pressed (labeled 4) with a starburst icon. The paper is shown exiting the printer (labeled 3).

8

Follow the steps for your operating system.

Windows

Mac OS 8.6 – 9.2

Mac OS X 10.0.3 – 10.1

9

Windows

1

2

Click **Cancel**.

3

4

Follow the instructions on your screen to complete software installation.

5

10

Open a document to print. Click **File** > **Print** > **Properties** or **Preferences**.

Now, customize your printer settings and print.

11

From the desktop, double-click:

Now, learn more about your printer.

Congratulations! You are finished.

9

Mac OS 8.6 – 9.2

1

2

3

4

Follow the instructions on your screen to complete software installation.

10

To learn more about your printer:

- 1 From the desktop, double-click the Lexmark Z65 printer folder.
- 2 Double-click the **Lexmark Z65 Users Guide.pdf** icon.

Congratulations! You are finished.

9 Mac OS X 10.0.3 – 10.1

6 Follow the instructions on your screen to complete software installation.

Click the red close button.

10

1 From the Dock, click:

2 Double-click:

3 Double-click:

4 Double-click:

5 Double-click:

6 Double-click the **Lexmark Z65 Users Guide.pdf** icon.

Congratulations! You are finished.
