

# Custom Prompts

## Overview:

Ability to define up to 6 custom prompts and deposit both scanned image and resulting meta data into administrator defined shared Windows network folder.

## Benefits:

### End Users:

- Simplifies the network scanning process with step-by-step instructions
- Reduces the steps required to scan documents to a shared network folder
- Scanned documents are instantly accessible from anywhere on the network

### Administrators:

- No server to maintain since application is embedded in MFP
- Administrative security prevents misconfiguration by users

## Tech Specs:

### Device Compatibility
